REAL ESTATE RECORD
AND BUILDERS' GUIDE.

VOL. IV. NO. 4.] NEW YORK, SATURDAY, OCTOBER 9, 1869. [WHOLE NO. 82.

THE report of Dr. Harris, Sanitary Superintendent of the Board of Health, reveals the very gratifying fact that the past summer has been one of the healthiest on record. During the quarter ending October 1st, there occurred 7,300 deaths against 8,415 during 1868. The wards and districts of the city in which there has been the greatest improvement in the care and ventilation of crowded tenement houses are the regions in which this decrease of mortality has chiefly occurred.

For example, in the Twentieth Ward there were but 10 deaths to 60,000 inhabitants, last week, and in the Sixteenth Ward there were 10 deaths to upward of 50,000, while in the wretched tenements of the Fourth Ward there were 10 deaths in about 18,000. There were only 5 deaths in the Fifteenth Ward, with its nearly 30,000 inhabitants. The death-rate in New York last week was equal to 22.72 in the 1,000, annually, on estimated population of 1,000,000, and in Brooklyn it was 21.03 on estimated population of 370,000.

QUITE a large number of very elegant buildings are now going up in various parts of the city. The appearance of Broadway at the close of the season will be vastly improved in consequence of the many marble and iron-front buildings, which are taking the place of the old, narrow, and dingy-looking brick fronts. The fact is highly creditable to many of our capitalists, that so much interest is taken by them in the adornment of our principal streets, as shown by the magnificent character of the dwellings and places of business erected at various points. The growth of large cities is one of the distinguishing features of modern civilization, and it is physically impossible to build more houses than will be required.

THIRTY-SECOND STREET.

The Thirty-second street, between Fifth and Sixth avenues, has been paved with Nicolson pavement, in accordance with specifications on file in the Office of the Clerk of the Common Council, and the following vote (two-thirds of all the members elected voting in favor thereof):

Resolved, That two gas lamps be placed and the same be at an early day, the large number of yards already closed up, and the consequent accretions in the streets between Sixth and Eighth avenues, will soon necessitate their opening up, and the same be done before the season of frost.

A sponsored by Assistant Alderman Haughton, the President, Assistant Aldermen Pettit, Hoffm, Welch, Jackson, and Cunningham—17.

And sent to the Board of Aldermen for concurrence.

WILLIAM H. HOLMES, Clerk.

MARKET REVIEW.

BRICKS—North River hard brick have continued in good steady demand throughout the week under review, and with liberal arrivals the market has been well supplied. Deliveries this week have been few, owing to a few complaints of breakage, though no actual advance has yet taken place. The competition among manufacturers has been keen, and various grades of quality can be obtained as desired.

The demand for building material has been steady, and the market is firm. The price of common has remained unchanged, at $2.50 per thousand. White and cream (artificial) are at $3.50 and $4.50 per thousand, respectively.

Cement—The market for Portland cement remains firm, and the price is steady at $5.00 per thousand. There is little change in the market as compared with last week.

Real Estate—The real estate market continues to be active, with prices remaining stable. Sales of properties are reported as follows:

- Philadelphia front (20 units) at $15,000.
- New Jersey front (15 units) at $12,000.
- Land in various districts at prices ranging from $10,000 to $20,000.

The overall market is currently strong, with buyers showing interest in various locations.

The above information is based on data from the past week and represents the current market conditions.
