PARK MATTERS.

The report of the Commissioners in the matter of the Riverside Park, which will come up for confirmation on the 10th of June, will undoubtedly be approved. It is the intention of the Department of Parks, immediately after the confirmation, to commence active operations on that important work, and all fears in regard to any change in the outlines of this park, as shown now on the map of the Commissioners, may be set at rest. In less than two years our citizens will be enjoying the beauties of this park, the ornamentation of which will probably surpass anything of the kind yet seen in New York.

By an act of the Legislature passed April 5, 1871, the Comptroller of the city of New York is authorized to issue bonds to the amount of $3,000,000, said bonds or funded stock to be denominated “The City Park Improvement Fund,” for the redemption of which the public parks, squares, and places of the city of New York stand pledged. The money obtained by the sale of these bonds is to be expended on the improvement and regulation (as named in the law) of the Central Park, City Hall Park, Madison Square, Reservoir Square, Washington Square, and the several parks and places which by law now are or may be under control of the Department of Parks.

During the coming season it is the intention of the Commissioners to commence the erection of two magnificent buildings, one of which will probably be located upon that part of Central Park formerly known as the Manhattan Square, and will be maintained as a Museum and Gallery of Art; and the other building, which will be located on some other part of the Park, as a Museum of Natural History.

The Metropolitan Museum of Art and the American Museum of Natural History are both incorporated companies, and will occupy these two buildings, under the control and regulations of the Department of Parks.

The authority of the Park Board has been extended to all that portion of Battery Place lying south of the southerly line of the south side of Pier one, North River, and west of the easterly line of West street extended in a southerly direction, and also over the waters of the North River in front of said portion of Battery place to the extent of 300 feet westly from the west end of said Battery place; and the Board of Commissioners have power to construct improvements to consist of suitable buildings, docks, piers, or basins for the accommodation of small boats that may be engaged in the business of intereading to the bounds of the river or bay; said small boats to be under the control and government of the Commissioners.

The public squares or places laid out by resolution adopted on the 15th day of November, 1867, in the following "words," and also the public square or place bounded easterly by the road or public drive; northerly by the division line between land now or late of John A. Haven, and land now or late of —- Connolly; south-1erly by the street before described, extending from the Kingsbridge road to the New or Hudson River, and including the road now known as Fort Washington Depot road, and westerly by a line drawn parallel to the centre line of the Hudson River Railroad, and twenty feet easterly therefrom; and also the public square or place bounded easterly by a line drawn parallel to the centre line of the Hudson River Railroad, and twenty feet westerly therefrom; southerly by the street last above mentioned, and westerly and northwesterly by the North or Hudson River, are hereby discontinued on the map showing said public places, and the said five hundred and sixty-five laws of eighteen hundred and sixty-five, and shall not be shown on the maps hereafter to be filed on the completion of the whole work to be performed under said chapter five hundred and sixty-five.

The following is section 10 of the Act passed April 5, 1871.

"§ 10. The street or avenue laid out by the Commissioners of the Central Park, lying inter-mediate the Avenue St. Nicholas and the Tenth avenue, and extending from the northerly side of One Hundred and Twenty-sixth street to the southerly side of One Hundred and Thirty-seventh street, is hereby discontinued on the maps showing the same, filed pursuant to chapter six hundred and ninety-seven, of laws of eighteen hundred and sixty-seven, and shall not be shown on the maps hereafter to be filed on the completion of the whole work, to be performed under said chapter six hundred and ninety-seven; but the Board of Commissioners of the Department of Public Parks shall have and possess exclusive power to lay out and establish a new street or avenue, and the grades therefor, intermediate the said avenue St. Nicholas and the said Tenth avenue; and between the northerly side of said One Hundred and Twenty-sixth street and the southerly side of said One Hundred and Thirty-seventh street, of such width, extent, and direction as to them shall seem most conducive to public good, and shall show said new street or avenue on the final maps hereafter to be filed on the completion of the whole work, to be performed under said chapter six hundred and ninety-seven, and the new street or avenue so laid out shall be considered one of the streets or avenues, with the same intent and effect as if the same had been laid out and established by the Commissioners appointed in and by the act entitled "An Act relative to Improvements touching the laying out of streets and roads in the city of New York, and for other purposes," passed April third, eighteen hundred and seven.

THE BROADWAY IMPROVEMENT.

Mr. A. T. STEWART has forwarded the following letter to the Corporation Counsel resigning his position as one of the Commissioners of Estimate and Assessment in the matter of the widening and straightening of Broadway from Thirty-fourth to Fifty-ninth street, and giving his reasons therefor:

NEW YORK, May 29, 1871.
To Richard O'Gorman, Corporation Counsel.

MY DEAR SIR: I regret to say that I feel bound to resign my position as one of the Commissioners of Estimate and Assessment in the matter of widening and improving Broadway from Thirty-fourth street to Fifty-ninth street.

The reason for this is, I cannot consistently with my ideas of right and justice lay assessments for the proposed improvement upon a large portion of the property within the area that my colleagues have decided to be specially benefited by it.

The district they have determined upon for this purpose begins at the corner of Caroline and Bedford streets, thence to and through Houston street, First, Second, and Third avenues, to Thirty-third street, etc., covering an extent of space in its southerly boundary far beyond any line which, in my opinion, can be considered as specially benefited in any just sense; while, on the contrary, I believe it includes property which may with propriety be regarded as injured in some degree at least by establishing the great business thoroughfare of the city over and along the westerly side of the street.

Fourteenth street on the south, and Fourth and Sixth avenues for limited distances northwardly therefrom. I believe to be the extreme southerly limit of the district which can be regarded as specially benefited by the proposed improvement.

Permit me also to ask your attention to another difficulty which this extended area of assessment must produce, and which is of a practical value. I refer to the impossibility of the assessment maps prepared within what remains of the six months allowed by law for the commissioners to make their final report, and which, deducting the forty days of the period required for hearing objections, practically limits their time to less than five months for doing the work, and of which about three months have already elapsed.

The area or limit of assessment fixed by statute under which the former commissioners acted embraced 11,498 lots of land, and the assessment maps thereof, as I am informed,
occupied the Chief Surveyor and some twenty or more assistants about one year in preparation. The maps were made by my colleagues contains about 34,000 lots, and to complete the maps of which less than four months is permitted by law of the time remaining within which the commissioners are required to finish their work, a period of time, I am satisfied, entirely inadequate to enable the commissioners to complete the work required.

Under all these circumstances, I cannot suppose that any practical benefit would result from my continuing on the commission, and I therefore respectfully offer my resignation.

Very respectfully yours,
ALEX. T. STUART.

LAWS OF NEW YORK.

Chap. 315.

AN ACT to prevent frauds in estate sales and fraudulent conduct on the part of auctioneers in the cities of New York and Brooklyn.

Passed April 3, 1871.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:—

SECTION 1. Any auctioneer in the cities of New York or Brooklyn shall not sell any house or land or cause to be offered for sale any house or land, by false or fraudulent representations or statements in respect to the character of such sale, or the party authorizing the same, or the quality, condition, ownership, situation, or value of any property, real or personal, exposed, put up, or offered by him for sale at public auction, or who shall put up or offer for sale any property, real or personal, in respect to which any false or fraudulent statement or representation shall have been made by him or to his knowledge as to the character of such sale, or the party authorizing the same, as the quality, condition, ownership, situation or value of such property, or shall sell any house or land under a claim of a title to or an interest in any such property, as to which representation or statement theretofore made, shall be published by imprisonment, not exceeding one year, or by a fine not exceeding one hundred dollars, or both such fine and imprisonment.

§ 2. Any person who shall purchase any property in the cities of New York and Brooklyn, at public auction, and subject to which any false or fraudulent representation or statement as to the character of such sale, or the party authorizing the same, or as to the quality, condition, ownership, situation, or value of such property shall have been made, his knowledge, or may recover from the auctioneer conducting such sale, or in whose name it shall have been purchased, the sum of fifty hundred dollars compensation to any damages sustained by him by reason of such false or fraudulent statements or representations.

§ 3. It shall be the duty of all auctioneers who may have the sale of vessels when condemned, vessel's materials, and all goods in a damaged state, which shall be sold at a public auction in the port of New York by reason of such damage, for the benefit of the owners or underwriters, or for account of whom it may concern, to make a sworn statement in writing as to the board costs, the gross amount of such sales, and the books of such auction will be kept on hand at all times to the inspection of the board of port wardens.

§ 4. This act shall take effect immediately.

We request attention to the interesting Review of the Canada Lumber Trade and Prices—Current of Messrs. Carver & South, of Montreal and Quebec. These gentlemen, who are regular contributors to our Journal, and whose reports denote great care in their compilation, and thorough knowledge of the trade, do a buying commission, and, we learn with pleasure, are growing up a large trade with the United States dealers. We have much pleasure in recommending them to all persons buying lumber in Canada.

NEw YORK JUDGEMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor.

THE transactions at the Exchange Saloon during the week were light; but for next week a better business is from hand.

We would direct the attention of the investors to the Executors' sale of the Dyckman Homestead, which will be held at the Exchange Saloon, on Wednesday, June 7, at 12 o'clock, and which will be a very interesting auction, brought with the assistance of the City Hall, in which case their value would be tenfold the price for which they can now be bought. We predict for this sale a great success.
