TURKISH BATHS.

That most luxurious and effective of all appliances for the promotion of health—the Turkish Bath—has, within the last few years, become so far established among us that we may now consider it as a fixed “institution,” requiring nothing more than further development towards perfection. Although there are several places of the kind in New York, where one can obtain a purifying bath on the most approved Turkish principles, there can be no doubt that these establishments yet fall short of what are to be found elsewhere. What we need is something upon a far grander scale than has ever yet been attempted in this city—a place that would be frequented as much for its luxurious accompaniments as for its health-dispensing qualities, such an one, for instance, as the celebrated “Hummam Bathe,” in Jersey-street, London.

On descending into this splendid building and paying for his ticket at the office, about 80 cents of our money, the visitor, after being first divested of his shoes—so scrupulously clean must the floors be kept—is introduced into a very spacious and lofty domed space or chamber, dimly lighted from above with stained glass, and built in the Turkish style of architecture. It is surrounded by large curtained recesses for undressing, supplied with broad and most luxurious sofas and pillows. While in this stately oriental compartment, the continual cool splashing of water, the dim mysterious light, the dusky and stalwart forms of the sham-pooers, gliding noiselessly about the polished marble floors; and the swathed and turbaned bathers lounging dreamily in every direction, after their ablutions, produce on the senses an indescribable effect of repose and enjoyment. From here the visitor passes into the various chambers provided for sanitary purposes, and heated up to different degrees of temperature.

But it is after going through the processes of purification, and when, wrapped up in huge coarse sheets, the bather returns to the vaulted space to cool off leisurely, that he feels, while reclining on his large lounge, smoking or sipping his coffee or iced sherbet, the fulness of bodily enjoyment. It is in this after arrangement that our baths are so deficient. This particular establishment has been pronounced, by distinguished Turkish tourists, as not only equal, but superior to anything of the sort in Constantinople, the builders having seized all the salient good points of the Oriental Baths and improved upon them. With the rapid tide of local improvement on which this decade has entered, let us hope that New York will very soon, in this respect also, rival anything of the kind to be found elsewhere.

POLYCHROMY.

Some months ago, and before anything of the kind had been seen in New York, we drew attention in these columns to the question of decorating our buildings, externally as well as internally, by the aid of varied colors, known as Polychromy. We alluded to the fact that the tasteful Greeks, in their palmy days, were in the habit of using it, and that even the chaste Parthenon was not considered above being in that manner. How much more reason have we—especially in ornamental iron structures, now coming so much into use—for availing ourselves of this simple mode of decoration. An iron front needs painting in any case, to protect it from the weather, and since the material must be painted, why not boldly treat it by such artistic and varied combinations and contrasts of color as shall delight the eye, instead of perpetrating a pretence and a sham, by painting it all of one color, in imitation of stone or marble?

Never was a fairer field presented for carrying this art to perfection than in this city, where we have not only largely entered upon a style of building peculiarly adapted to such treatment, but where the brightness of the climate, added to the inherent gayety and display in our people, would seem to specially invite it. Paris is far ahead of us in this respect. Even in the murky atmosphere of London the architects there have made use of painting and gilding, in external decoration, to an extent that never has been attempted here.

How beautiful our main thoroughfares might be made to look, by a larger use of Polychromy, can be seen by the two splendid specimens of this class that have been yet attempted. We allude to the store of D. Appleton & Co., on Broadway, and the more recent one of Marshall, Johnston & Co., immediately adjoining it. Both of these, if not perfect examples, are certainly very pleasing objects to look at, and far more satisfactory than if they had been painted in imitation of stone or marble. Such an edifice as Lord & Taylor’s upper store—which we have always considered the richest iron front in the city—if well decorated in this manner, might be made to produce a really gorgeous effect. In unskilful hands such a mode of decoration can, doubtless, very easily degenerate into meretricious vulgarity; but no true artist in color could fail in making it add immeasurably to the gay and beautiful appearance of our city.

NEW YORK ISLAND has an area of twenty-two square miles and twenty-nine miles of water front, about three-fourths of which stretches along the Hudson and East rivers, and the remaining one-fourth upon the Harlem river and Spuyten Duyvil creek. The streets, roads, and avenues measure four hundred and sixty miles. Two hundred and ninety-one miles of these are paved; one hundred and sixty-nine miles are unpaved. Nineteen thousand gas-lights are burned every night at the public expense to light this area, water front, and extent of streets. Beneath the surface of the city there are three hundred and forty miles of Croton water pipes and two hundred and seventy-five miles of mains. J. A. Stevens, in his report of the last Federal census, the number of our constituents is nine hundred and forty-two thousand two hundred and fifty-two. One thousand horse railway cars, two hundred and sixty-seven omnibuses, about twelve thousand licensed vehicles, and quite as many more private vehicles continually traverse the thoroughfares, and subject them to increasing wear. It is claimed that forty thousand horses are constantly stabled or used within the city limits. On the 23d day of May last, relieving officers of the ordinance squad, stationed on Broadway, opposite the City Hall, were instructed to report the number of vehicles that from seven o’clock A.M. until seven o’clock P.M. had passed and remained; and they reported 16,346, exclusive of omnibuses. These specimen statistics imply how great a city we have to care for, keep in repair, sustain by taxation, protect from fire and theft, and subject to sanitary regulations, and make provision for in respect to its more important future. During the ten months preceding May 1, 1871, two hundred and eighty-four million dollars’ worth of foreign merchandise, exclusive of specie, was imported into this city. During the same period, New York City paid the Government one hundred and twenty millions of dollars for duties on imports, and the value of exports, exclusive of specie, was two hundred and fifty-one millions. —Extract from Mayor Hall’s Message.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by our Superintendent of Buildings since our last report:

BROADWAY (No. 4754 to 4780), one four-story brick first-class store, 25x80; owner, J. R. Penn.

ALEX. VAN RENSSELLAER; architect, Richard M. Hunt; builder, Wm. Paul.

BROOME ST. (No. 445), one five-story brick first-class store, 25x80; owner, Mrs. A. G. Ulff;

ARCHITECTS: Vaux, Wethers & Co.; builder, James Stewart.

DIVISION ST. (No. 74), one five-story store and tenements, 25x80; owner, F. Herrell.

Architect, Wm. Rose.

EIGHTEENTH ST. (No. 439 East), one four-story brick store and tenement, 25x80; owner, E. H. Marsh; architect, W. McNamara.

FOUR-TIETH ST., s.e., s. 75 1/20 AY., one four-story brick first-class dwelling, 25x80; owner, James Cilkerley; architect, Wm. McNamara.

FOUR-TIETH ST., n. s., 133 1 2 RH., one four-story store and tenement, 25x80; owner, Charles H. Murray; architect, Wm. McNamara; builder, Charles Murray.

FOUR-NINTH ST., s., 100 1/2 AY., one five-story brown-stone front tenements, 25x80; owners, G. N. & A. Williams.

Architecture, Edwin H. H. Hoyt.

FIFTY-SIXTH ST. & 4TH AV., s. e. cor., four-story store and front tenement, 25x80; owner, Owen Murphy; architect, John Sexton; builder, Joseph Ross.

FIFTH AV., s., 585 to 590 ST., one four-story brick store building, 25x80; owner, F. C. Hunt; architect, W. E. Waring.

NINETY-NINTH ST., 175 1/2 30TH AV., one two-story and basement wood building, 25x80; owner, Thomas S. Brennan; architects, Renwick & Co.; builders, James Brown.

Architecture, C. F. Vaux.

ONE HUNDRED AND SEVENTEENTH STREET, s.e., 115 4 1/2 AY., five-story brown stone front tenements, 25x90; owner, Charles A. Hopen.

Architecture, C. F. Vaux.

ONE HUNDRED AND NINETEENTH STREET, n.s., 138 1/2 AY., two four-story brick first-class dwellings, 19x85; owner and builder, Thomas Holt.

ARCHITECTS: Geo. A. Hopkins.

ONE HUNDRED AND TWENTY-FIRST STREET, n.s., 255 1/2 AY., seven four-story brown-stone front first-class dwelling; owners, Charles Decker and John Swett; architect, J. McIntyre; builder, P. Mullins.

Architecture, C. F. Vaux.

ONE HUNDRED AND TWENTY-SECOND STREET, s., 275 S. 1/2 AY., seven four-story brown-stone front first-class dwellings, 19x85; owners, John W. Smith and Charles Decker; architect, J. McIntyre; builder, P. Mullins.

Architecture, C. F. Vaux.

ONE HUNDRED AND TWENTY-SECOND STREET, West (No. 34) one two-story brown stone stable, 17x80; owner, Charles Stephens.

ARCHITECTS: Geo. A. Hopkins.

A AND SEVENTEENTH STREET, s. w. cor., one house and lot on study street, 35x80; owner, John H. Heimckan; architect, Valentine; builders, Doerr & Scholz.

ONE HUNDRED AND SEVENTEENTH STREET, s. n., 137 3/4 AY., one four-story brick front tenement, 25x90; owner, J. B. Allen; architects, C. F. Vaux; builders, P. Mullins.

Architecture, Geo. A. Hopkins.

ONE HUNDRED AND TWENTY-EIGHTH STREET, West (No. 34) one two-story brown-stone front tenement, 17x80; owner, Charles Stephens.

ARCHITECTS: Geo. A. Hopkins.

THIRTEENTH ST., s. e., 85 1/2 AY., one five-story brick store and tenement, 31x90; owner, T. R. T. R.; architect, J. W. Marshall.

Architect, John A. Vaux.

TWENTIETH ST., s. w., 334 1/2 9TH AV., one one-story brick church, 42x90; owner, Alfred B. Seabury; architect, C. F. Vaux.

Owner, Alfred B. Seabury.

THIRTY-NINTH ST., n. s., 100 1/2 9TH AV., one two-story brick second-class dwelling, 25x25; owner, Carl C. Oppenheimer; architect, John M. Forrest.

Architecture, Geo. A. Hopkins.

THIRTY-NINTH ST., West (Nos. 333, 335, 337), three five-story brick tenements, 25x90; owner, Isaac Hochster; architect, Wm. Rose.

Architecture, C. F. Vaux.

From a city journal we obtain the following:

"The market is still marked by the more important transactions; stock increasing as the season closes. Estimates are that the "timber" will be heavy during the next few weeks, and prices low, unless the timber has been cut down. Instead of increasing, the demand has slackened, and there is a great deal of quotations of the price. Holders, however, are not disposed to offer their wood below the established quotations. There is a great demand for forward delivery. We quote the spot at $3.05 for 1,000 ft., and $3.50 for 10,000 ft. The market for Scotch Fijr Iron has been only moderately active, the demand being to small lots of oats and smalls, as wanted for the immediate wants of the trade. The demand for refined lumber is not very active, and the prices are lower. We quote at $3.25 per t. A considerable number of lumbermen in this vicinity have been reported to have returned from the West, and are now engaged in the lumber trade. The demand for lumber is not very active, but the prices are steadily advancing. We quote at $3.50 per t. A considerable number of lumbermen in this vicinity have been reported to have returned from the West, and are now engaged in the lumber trade. The demand for lumber is not very active, but the prices are steadily advancing.

SALT.--There is no new feature to note in manufactured Copper, and prices are likely to remain nominal until such time as the meeting takes place next in progress. We quote $2.10 per lb. for one. A considerable number of lumbermen in this vicinity have been reported to have returned from the West, and are now engaged in the lumber trade. The demand for lumber is not very active, but the prices are steadily advancing. We quote at $3.50 per t.
