C. W. SWEET, 137 Broadway.

J. T. LINDSEY, Business Manager,

FIELD, COWING AND MANHATTAN.

A very refreshing document for a Manhatstockholder to read, and one most likely degive him a pungent idea of how great a swindle he is innocently connected with, is the affidavit of James A. Cowing, who is now, and has been for the last nine years. the treasurer of the New York Elevated Railroad Company. The affidavit named was made in the recent suit of the New York Elevated Company against the Manhattan Railway Company, and is one of a series made in the legal proceedings by which it is intended that the New York Elevated Railroad shall regain possession of its property, and, at the same time, have the Manhattan Company declared bankrupt, and its lease null and void.

To understand this affidavit properly, it must be borne in mind that in 1879, when Cyrus Field, James A. Cowing, and their co-directors leased the elevated railroads to the Manhattan Company, that the fixed charges fastened by them upon this corporation for the lease were \$2,400,000 per year. Now let us see, according to Cowing's affidavit, how far these originators of the Manhattan company were justified in loading it at this rate. Cowing swears that the Manhattan Company took possession of the Elevated roads in June 1879, and at the time of the delivery of the New York Elevated and Metropolitan Companies to the Manhattan the surplus accrued earnings of each company, from February 1879 to June 1879. amounting to \$311,000, were turned over to the Manhattan company, which amount represented the earnings of the two companies for that time over operating expenses. On this showing it appears that in the four months of February, March, April and May of 1879. tne net earnings of the two companies were only \$311,000, or at the rate of \$933,000 per year; and yet these men knowing then as well as now, that such earnings would not admit of it, dared to make a lease by which they fastened a certain deficiency of \$1,000,000 yearly on the Manhattan Company. One can hardly believe that so stupendous and palpable a swindle was possible, and certainly it takes a goodly amount of assurance for the very men who were the most active in foisting such an outrageous lease on innocent holders, to now come before a court and ask for the dissolution of the company they created.

But this financier tells his own story when he says, further along in his affidavit, that there has been no month since the

the roads, when its net earnings have not fallen considerably behind its fixed charges and dividends, and that this deficiency exists without taking into account taxes of any kind, and that the actual figures are at the rate of over \$1,000,000 per year.

How, under the sun, we ask, could it be

Now, let us see in the same proceedings what the astute Mr. Field swears to.

Mr. Field, in his affidavit, says that he became a director of the Manhattan Company, November 5, 1877 (mind the date). At this time the Manattan Company had only its charter and a little office furniture, and it was not until the 20th day of May, 1879, that the tripartite agreement was signed, and the lease of the elevated roads saddled on Manhattan. On the 21st day of May, 1879, Mr. Field resigned from the Manhattan Company, and a few days thereafter started for Europe. New York Elevated stock at that time was selling for about 200, and this was the figure at which Mr. Field was willing to unload, but this was so good a thing that he went to England to give a slice of it to his friends there, but how his plans in this respect were frustrated by Tilden, who sold out on him, is too well known to call for repetition now. Field, on learning of what he called the treachery of Tilden, immediately returned to this country, and, in July, 1879, again went into the Manhattan directory. Then began the blowing up of the Manhattan balloon. All kinds of stories about enormous earnings, light expenses, statistics of possible increase of travel, &c., were put into circulation, and the stock began to rise. State Engineer Sweet even went so far as to say that the expense of running the New York Elevated was only 31 per cent., and that it could be brought down to 25 per cent. This lie was put into an official document, and many people having faith in that statement, thought the stocks must be a good investment, bought, and, of course, were left high and dry. Mr. Field, however, knew better, and when the stock reached the sixties he sold, and in his affidavit acknowledges to having sold his stock in the month of November at about \$61 per share. Directly afterward he again went to Europe, so as to be out of the way when the inevitable decline should set in. He returned again in a few months and began abusing Manhattan stock and everybody connected with it. Of course he dared not just then attack it too violently, as he could not well explain why, if he had just before been a holder up to 60, it should so soon become worthless. Shortly afterward, he went away on a trip around the world, and it is only since his return that he has made an open, uncompromising fight with the Manhattan Company.

When the Atlantic Cable was completed. it will be remembered that at the celebration held in New York, one solitary message was received, whereupon the cable ceased Manhattan Company commenced to operate working. The shares which had been com-

A lagrad vector madic of

manding a high figure suddenly fell, and somebody bought them up. After a time it was found that some one had tampered with the cable; a nail had been driven into it in the interest of some speculative scoundrel who wished to buy the shares cheap. Subsequently, a great deal of money was made out of the Atlantic cable, and among others who got rich by it was Cyrus W. Field.

CHRONOLOGICAL DATA.

CHRONOLOGICAL DATA.

Nov. 5, 1877—Cyrus W. Field first becomes connected with the Manhattan Company, which at this time had nothing but its charter; no money, consequently something must be done for it.

May 20, 1879—Lease of elevated roads made to Manhattan Company, wherein this company, without capital, agreed to pay \$2,400,000 per year.

May 21, 1879—Mr. Field prudently resigns from the Manhattan Company.

July, 1879—Having failed to sell his stock in England, he returns to this country and again becomes a director of the Manhattan Company.

heretards to this country and again
becomes a director of the Manhattan
Company.

Nov. 10, 1879—Sells all his Manhattan stock at about
\$61 per share.

Decem., 1879—Thinks it prudent to again take an European trip.

March, 1880—Returns to this country and sells thinteen shares Manhattan, just enough
for a poor widow who wanted a good
investment.

July, 1881—Begins suit to recover his property, and
prays to the Court to declare the
company bankrupt, the shares of
which in Nov., 1879, he sold for \$61
per share.

THE MONEY MARKET AND VALUES.

The figures printed in the financial journals to-day, will show that the railroads did a much larger business in September of this year than they did during September of the previous year. The August returns showed an advance of 23½ per cent. over the same month last year, and 1880 was 34 per cent. in advance of 1879. There has undoubtedly been loss of traffic on some of the grain roads, but the aggregate railroad business of the country is larger to-day than in any other period of our history. Yet, at this time last year prices were advancing on an excited bull market, when to-day prices are steadily receding after having gone off an average of over twenty points.

How is this to be accounted for? Wall street responds that the difficulty is because of tight money, and that tight money is due to the absorbtion of current funds by the growing business of the country, as well as by the demands of the speculators who are bulling corn and wheat. Whatever the reason, the fact remains that prices in Wall street have started downward, and there are not many comforting assurances for the bulls in the immediate future. Europe wants all her gold, and the great national banks abroad are putting up their rates of discount so as to retain their money. Instead of gold they are sending us goods. Our speculators have so advanced the price of cotton, corn, and wheat, that exports are light—so very little exchange is made. Secretary Windom, it is said, will do nothing more for Wall street. Tight money may break the Chicago corner in grain, which would be a benefit to the country.

Of course, the tide will turn some time. Prices cannot always go down, any more than than they can always go up, and there will be more than one bull market before the

opening of spring. But the impression nevertheless remains among conservative people, that the final result will be a lower range of values than those which even now obtain in the stock market. Of course, there will be special combinations to lift the price of certain stocks, and a great deal of money will be made on the bull side by those having special information. But the great rise in stock values was the belief that money was to be as cheap in the United States as it is in Europe. If money is worth only three per cent., and gilt edged securities realize only three and a half, it follows that New York Central or any other certain 8 per cent. stock is worth 200. But this dream of permanent cheap money on this side of the Atlantic has been rudely dispelled. It is now found that there are so many profitable openings for investment in business and land, that money is worth more than 31/2 or even 4 per cent. Hence the reaction against the high prices based upon the cheap money theory.

The point of this for real estate investors lies just here. Instead of an extravagant enhancement in the value of land and houses with low rentals, that is, a small return for the money invested, there will be a better return in the purchase of improved property than was anticipated. In England, rents are low and the price of land is very high; the conditions are reversed in this country. Were the cheapening of money process to have gone on, there would have been an unwholesome appreciation of mere land and the general reduction in rents, for rent is but interest in another form.

THE CRUSH OF CARTS.

Something must be done, and that before long, to relieve certain sections of downtown from the loss of time and cost to commerce of the delay caused by carts, wagons and street cars crowding together and putting a stop to general business. There are quite a number of these congested thoroughfares. All lower Broadway is in this condition frequently during the day; the same remark applies to Church street, between Canal and Chambers, but the most seriously impeded portion of New York is the corner of Broadway and Fulton street, and at the point where West Broadway reaches Cham bers street. The steady increase of the business of the city is making matters worse Carriages with passengers day by day. often fail to get to the piers they are bound for in time for the transportation lines; goods are delayed till past the time when they can be shipped, and confusion reigns supreme in certain business circles, because of this gorging of vehicles at points where the various streams of travel converge.

It is idle, at present, to discuss remedies. An elevated road running around the island upon warehouses built on the piers, would save an immense deal of cartage and would give New York a great advantage over all rivals in trade. Were the Arcade road built under Broadway, or any road that would admit of the passage of heavy carts, that would put a stoppage to the interruption of vehicular travel. Perhaps local tunnels, where the crush is greatest, might expedite the transit of carts and wagons; but certainly some scheme should be devised to relieve the congested portions of the city between 9 A. M. and 4 P. M.

There is a great deal of feeling in the Twenty-third and Twenty-fourth wards over the refusal of the Corporation Counsel to appoint commissioners, as required by law, to proceed with the work of sewering and draining the Twenty-third and Twenty-fourth wards. For two years this work has been delayed because Mr. Whitney alleges that the compensation allowed the commissioners is not sufficient. Many persons have died and hundreds are constantly sick and their lives rendered miserable because of the malaria which results from the non-drainage of these two wards. The Legislature, it seems, has refused to increase the compensation of the commissioners. should not the people of the district submit to the Corporation Attorney the names of some dozen or more competent persons who would be willing to serve as commissioners for the present compensation, so that these long-neglected drainage improvements could at once be undertaken? If the proper persons are proposed it is difficult to see how the Corporation Attorney could refuse to appoint them. Let the eagerness of the politicians for local plunder take some other direction than in stopping improvements which will save populous neighborhoods from poisoned air and foul diseases.

It really would pay builders to put some extra embellishments upon the fronts of their new houses. The plain, high stoop brown stone front is elegant but monotonous. A fancy porch, a well-constructed bay window, pillars on each side of the door, a novel window design, and other improvements which cost only a few hundred of dollars, are often worth a couple of thousand in the market value of the property. American women of the wealthier class are generally well educated, and have some artistic training; they have a great deal to say about the purchase of houses, and builders would do well to employ architects to furnish them designs of unique and striking exteriors. Of course, all sensible heads of families will care more for the internal comfort of a house than for the outside decorations; but then the latter do tell, as a price list would show if the bills of sale of a plain house could be compared with those of one in which some taste was shown in the externals.

From the comparative table herewith given, it will be seen that with the coming of colder weather, there is quite an increase in the number of real estate transactions. Of course, the bargains made recently will not appear on the official lists till some time further on. But here is the table.

The price of wheat and corn at Chicago is clearly artificial. It is practically the result of a corner made by a tremendous speculation in futures. Europe will not take our grain at Chicago figures. We undoubtedly have a surplus and some time or other there must be a disastrous break. It looks as if

the end is not far off. New York trade is being injured, the country is suffering by this artificial withholding of grain from Europe. Russia, Austria, Egypt and California are profiting by the greed of our speculators.

The American Architect utters a word of timely warning against the huge caravanseries erected recently on the sea shore. Two sea-side hotels were recently destroyed by fire and the guests barely escaped with their lives, losing all their luggage. These great structures seem specially designed to be destroyed by fire. The corridors, passage-ways and elevators are so constructed that in case of fire they would act as huge chimneys and imperil every part of the building. Why has not some one thought of a series of detached houses, with a central building for dining and ball room purposes and special arrangements for laundrying. The English and French build substantial houses for summer resorts and they are used throughout winter. As it is becoming fashionable here to frequent the watering places in winter time, it would be well to erect structures suitable for winter tenants. There is no need here of pointing out specially dangerous hotels, but they can be found at Conev Island and along the southern shores of Long

Another great railway bridge is to be constructed over the Hudson River. It is to connect the Erie road with the New York & New England, or, what is more popularly known as the Boston, Hartford & Erie. This bridge will utilize the coal fields of Pennsylvania, situated near the Erie, for the manufacturing interests of New England. It will be remembered that the New York & Northern road crosses the New England at Brewster's Station. This bridge will divert some traffic from New York. Passengers from the West to New England will not have to pass through this city. We will probably loose some trade also.

Repeatedly in these columns we have pointed out the value it would be to the business of the world if silver was fully remonetized. Every one realized how powerfully prices are affected by the withdrawals of money, from whatever cause. The growing commerce of the world suffers when gold is the sole unit of value. We have already stated that the failure of the Paris Conference has had a great deal to do with the bear market since the Paris Conference came to naught. While this is not the view taken of bi-metalism by New York bankers, it seems that it is held by Mr. Burch, the President of the Bank of England, as well as the Rothschild family. Said the President of the Bank of England to a Herald reporter:

reporter:

"You must not take it as the expression of an official opinion, or as being the views of the bank, but my own conviction is that the position of the Bank of England, as of the Bank of France, would have been much stronger at the present moment and the money market generally less unsettled had the recent Paris Conference arrived at a conclusion favorable to bi-metalism. The struggle to retain gold would be prevented or lessened at all times, and the Italian loan, the most recent cause of disturbance, would have been arranged on terms more favorable to monetary stability. I am aware that my views are not those of the majority of my colleagues at the bank, and are opposed to what may be called the orthodox view of the establishment, but they are shared by Messrs. Rothschild and other leading houses, whose tongues are, however, tied by the fact that they are more or less interested in the question. For myself, as a manufacturer or in my private capacity, there need be no such scruples."

The market for building materials is showing full healthy activity and all kinds of stock are going into consumption with a steady volume, showing a slight tendency to increase if anything. On work at all advanced contractors are pushing matters, in order to get under cover before cold weather sets in. Most of the heavy jobs commence to appear well above ground, while new operations are opening daily, and an active fall and early winter seems well assured. Values generally are fully sustained but no important changes have taken place during the week except on brick. These show quite a sharp advance on temporary scarcity and the natural re-action after the late break, but the buoyancy is checked at the close.

People in search of houses to rent or purchase, do not pay much respect to the Sabbath. More houses are seen on that day than any other in the week. Women hunt up these places during the week days, and, Sunday, being a leisure day, the wife takes her husband to the residences which have suited her fancy. In houses just built and for sale, there is always some one on hand to show them to would-be customers. After the plumbing is put in, a watchman is necessary to protect the buildings against the depredations of thieves, and somehow this watchman always knows the prices and can tell where the owner can be seen; nor does it require much coaxing to get the watchman to show you the house.

THE STATE OF THE BUILDING TRADE.

The subjoined table gives the results of a careful canvass made by The Real Estate Record reporters, in the district situated between Third and Fifth avenues, south of Eightieth street, and in the district between Third and Fifth avenues, north of Ninety-eighth street. Our reporters found the builders in good spirits.

Indeed, so encouraged is the trade, and so promising the outlook, that nearly all the prominent builders are making new engagements and putting out additional contracts. The work of excavating for the foundation of new houses is rapidly going on. Even where the houses recently built have not been sold, the capitalists interested are not discouraged, for they think from the inquiry, that later on good houses well located, will command a ready sale, and so they are preparing to erect additional dwellings.

Some builders have been seriously embarrassed by the failure of those who supply trimmings to meet their contracts in time. Building has been so active that in certain special departments the manufacturers could not supply the demand, but there will be no trouble of this kind hereafter. Labor is not so dear as it was, and some of the materials for buildings is more easily procurable. The general impression is that there will be no further advance in the price of labor, and that brick, lumber and stone are not likely to increase in market value.

There is a general feeling among builders that New York will need new houses, and a great many of them, for several years to come. The demand for dwellings to rent is largely in excess of the supply. Were the choice parts of the West Side built up, every house would be rented and return a good interest upon the capital invested.

The annexed table, in the first column, shows the number of private houses and flats, both with and without stores, that have been erected in what may be termed the growing part of the east side of the city, the second column the number sold, and the third column the number of houses on hand nearly if not quite ready for sale, also, the exact location, a description of the building and the name of the builder. Where no description of building is given, it is a four-story brown stone front, and the abbreviation a. h. denotes an apartment house, in contradistinction to an f. for an ordinary flat. No account is taken in this table of private houses built by persons for their own use.

MINING INFORMATION.

The present management of Chrysolite have done something which is unprecedented in the history of mining speculation. Under the stimulus of repeated dividends, the stock advanced from 5 to 9, whereupon Professor Raymond makes a public announcement through the Engineering and Mining Journal, that that price is not warranted by the condition of the mine. It may be worth, he says, a great deal more, but all mining, especially Leadville mining is very uncertain. The ore bodies may pinch out, and the value of the minerals extracted may become After this outgiving, the price very low. naturally fell off. The usual way in ordinary stock transactions is, when the price advances. for the insiders to do all they can to mark up the values and then unload on the public. When they get out the facts are made known, and when prices break the stock is bought back again. The present managers of Chrysolite found the mine wrecked by the California swindlers, who first put it upon the New York market. Ray-mond, Gurnee & Co. paid off a debt of nearly half a million, accumulated a surplus of nearly some \$300,000 more, and are now paying dividends; hence the rise in the market value of the The officers are quite right in advising the public not to buy. The Chrysolite mine has a valuation of \$1,800,000. But what a pity it is that more mines are not run as honestly as the Chrysolite.

And so the Bull Domingo is to be bonded after all. It is over \$100,000 in debt. This property has been a heavy tax on many well-known people. David Dudley Field, Richard M. Field, ex-Governor Dorsheimer, Silas Dutcher, Senator Barnum, and a great many leading people in the New York Central road were large holders of this stock when it was solling at \$10 and \$12 a share. This mine was very rich on the top and showed an immense fissure, but it seems to have been a disappointment down below. It does not necessarily follow that the stock will decline because the mine is bonded. Big Pittsburg jumped from 50 cents to \$4.50 after the bond was taken up, and the same thing occurred when other properties have become mortgaged.

Mining shares are still very dull. The promised boom on the Comstock has not taken place, and so the New York market is without animation.

The great apartment house of Mr. Edward Clark, on Eighth avenue between Seventysecond and Seventy-third streets, is now up to the second story. As, however, this magnificent structure is to be eight stories in height, it is hardly to be expected that it will be under roof before the winter sets in. There is to be good, honest work on this building, which cannot be hurried. It is understood that Mr. Clark intends to erect a fine block of buildings on Seventy-third street. They are to be first class dwellings. Rumor has it that the whole block bounded by Eighth and Ninth avenues, Seventy-third and Seventy-fourth streets is to be built upon by Mr. Clark, Half a dozen capitalists, like Mr. Clark, would soon work a marvellous change on the West Side.

FINAL RESULT OF THE RAILWAY WAR.

The Railroad Gazette of September 30, contains an exhaustive article on the losses by the railway war. It admits they are heavy and thinks the contest will last some time yet; but the conclusion of the Gazette is summed up in the following:

"The local freight and travel are probably larger than ever before. There will not be so much grain to carry East as in the two years previous, doubtless, but the other through traffic will probably be larger. The farmers have been enriched by four successive abundant crops, and enriched by four successive abundant crops, and are not going to be made poor and to greatly limit their purchases by one bad one. Those who have a merely tolerable crop will receive so much from it on account of the high prices that they will often be quite as well off as last year. The enormous activity in railroad and other construction requires of itself a vast amount of traffic, and this construction cannot be checked

by bad crops; nothing but serious financial disaster will do this. The remarkably large profits shown by the vast Pennsylvania system in July and August, in spite of the railroad war (and this company probably carries one-quarter or more of the whole freight affected), and shown also by the Erie in July, indicate that whatever the losses by the railroad war, there is not likely to be any positive financial embarrassment resulting from it. The Pennsylvania, the Baltimore & Ohio and the New York Central will continue to pay dividends at the old rate; the Erie stock-holders and those of some Western roads will have their hopes of dividends still further deferred, probably, and some Western roads will probably pay (as they will certainly earn) less than last year. But there is not the slightest sign as yet that anyone is going to be bankrupted.

In the New York Times of Thursday was a letter from Paris, under date of September 14th, in which the following paragraph occurs:

which the following paragraph occurs:

The grave had scarcely closed over the remains of Emile de Girardin, when a sentence was pronunced by the Tribunal Civil of the Seine which stigmatized him as one of the chief instigators of one of the most disgraceful frauds ever perpertated in a civilized community. A syndicate known as the "syndicate of the three G's," composed of MM. Girardin, Genty, and Gibiac, took up the Vendee Railway stock, used the influence of their names and political situation to run up the shares 80 per cent. above par, and then sold out, after which, the enterprise being entirely false, the company became bankrupt, and a too confiding public was the loser for the sum of \$,000,000f., which the three G's and their acolytes pocketed. The shareholders turned crusty and attacked the Board of Directors, otherwise the aforesaid syndicate; suit was brought against them, and they have been sentenced to refund, each in certain strictly defined proportions.

With some difference, this looks very much

With some difference, this looks very much like the floating of the Manhattan stock by certain well-known speculators. Morally, that New York transaction was as iniquitous as that of the French three G's. The law ought to have a remedy for the innocent investors in Manhattan, but then, unfortunately, our court decisions, under our lawyer-made laws, generally favor wreckers and plunderers.

POINTS ABOUT REAL ESTATE.

"What is the prospect for real estate this fall?" asked the writer of an operator well known on the Exchange.

"Property is very strongly held," was the reply, "and there are not, to my mind, many bargains at present figures. If money continues tight and there is a bear market in Wall street, I do not see how you can get up much of a furor in real estate."

"But," urged the writer, "does not the speculation seem to be going out of the stock market and into other things? Look at the great advance in corn and wheat, the higher prices of the metals."

"As to higher prices, I think we are having them now. What I was thinking about was the activity in real estate. I am a dealer and I would like to see people buying and selling. But understand me, I am alluding to vacant lots, unimproved property. There is quite a buying demand for houses, and builders have been encouraged to enter into new contracts."

"You do not think, then, that New York is overbuilt, and that new houses are likely to be a drug upon the market?"

"Certainly not. The present demand is for very costly houses, showing that rich people are coming to New York from every quarter. The advance is by no means so marked in houses costing from \$18,000 to \$40,000. Within a couple of years I expect to see a great enhancement in the values of what are called cheap houses. Rents are rising and house property is becoming more valuable."

"So there are no bargains in unimproved real estate?"

"O, I think that some lots can be bought west and north of the park, which will advance in price. The only real speculation I know of is in those two quarters. It is noticeable that building is going on north of One hundred and Twenty. fifth street and to the northwest of that street."

"Why is not the flat country north of the park being built upon more?"

"On account of the delay in the improvement of Morningside Park. The streets are not yet opened, nor is the work done on New avenue and the other streets near that locality. This will keep back building to the ultimate advantage of the neighborhood, which will be a very choice one as soon as Morningside is put in proper

SUBURBAN RAPID TRANSIT.

Editor REAL ESTATE RECORD:

SUBURBAN RAPID TRANSIT.

Editor Real Estate Record:

It was not the Third Avenue Elevated Road which advertised for laborers, but a Fordham horse-car company. The proposed elevated road on Third avenue, north of the Harlem river, has a great deal to do before it can commence work. The company is to be organized, subscription books opened, the consent of the city government obtained, right of way secured, surveys made, and, more than all, the money for the work must be subscribed, and the writer for one cannot see how they can raise a dollar. As for the suburban rapid transit, the old company is going ahead all right and will be heard of in due time. It has done everything it could do up to date, and is now securing the right of way. Those who know say that the Third avenue scheme is wholly impracticable, and that it will never be built. The route is a preposterous one, as it expects to run parallel for quite a distance with the Harlem road. People can come now from Mount Vernon to the Grand Central depot in twenty-one minutes. The proposed elevated road would consume thirty minutes before it reached the Harlem river. As yet the population north of the Harlem river is not sufficient to support local rapid transit routes, and it would not be wise to construct any suburban lines unless it had in view the peopling of the Twenty-third and Twenty-fourth Wards.

ABOUT ASSESSMENTS.

ABOUT ASSESSMENTS.

Editor REAL ESTATE RECORD:

Editor Real Estate Record:

There seems to be misapprehension about the city assessments for Morningside Park. In some quarters it is supposed that the money paid in by the property holders in the neighborhood of the park was for improvements. But such is not the case. The money raised was spent in purchasing the ground which forms the park. The State has authorized the expenditure of \$150,000 to improve the park, and a portion of that sum has already been made a part of the tax levy.

NINTH AVENUE.

ABOUT PARTY WALLS.

A question of party-wall rights, which has some general interest, is submitted to La Semaine des Constructeurs for decision. Two men, A and B, owned in common the division wall between their owned in common the division wall between their houses. A added to the height of his house, extending the party wall upward, as he had an unquestioned right to do; but after the completion of the work, it was found that the new gable, being exposed to the rainy winds, was rapidly deteriorating, and that some means must be taken to protect it, so he arranged to cover it with metallic slates. B, however, forbade the application of any protective covering to the wall, on the ground that being a virtual addition to its thickness, it would project over into the estate of which he was the sole owner; the party-wall right covering only the bare thickness of the masonry. To this claim La Semaine makes response that, although B is not obliged to pay any part of the expense of building or protecting that portion of the wall which he does not himself use, he cannot prevent his neighbor from ing that portion of the wall which he does not himself use, he cannot prevent his neighbor from taking any reasonable means for preserving the upper portion of the masonry, provided he suffers no actual injury thereby. Moreover, since A pays the whole expense of the masonry above B's roof, it belongs to him, until B chooses to use and pay for half of it; and he is the sole judge of what steps may be necessary for protecting his property. This doctrine seems rational enough, but cases often occur where neighboring owners make unreasonable claims in regard to party walls, and the example of an actual case may be of use.—American Architect and Building News. -American Architect and Building News.

In London, as well as in New York, Chicago, and Boston, the past year has been one of great activity in building operations. According to the report of the Metropolitan Police quoted in the Builder, the number of houses erected in the city in 1880 was 24,945. Seventy miles of new streets were placed under the care of the police during the year. The increase of population is almost exclusively on the outskirts of the town; the interior parishes lose, both in the number of houses and of inhabitants, year after year. Thus the small district known as London City lost one-third of its population, and nearly one-third of its population, and nearly one-third of its buildings in the last ten years, and St. Giles, the Strand, Holborn, Shoreditch, Westminister and Marylebone also show diminution, while Lembeth, Chelsea, Fulham, Hampstead, Islington, Camberwell and Poplar, which were not long, ago quiet suburban villages, have gained

much more than the older portions of the metropolis. In some of the sub-districts half the houses have been removed since 1871 and replaced by commercial buildings. This steady movement of population indicates a returning prosperity of affairs in England which is very gratifying. Certain manufacturing centres, such as Manchester, have decreased within the last decade, instead of sharing in the general advance, but these are fortunately exceptional.—American Architect and Building News.

A manufacturer of elevators has estimated that there are at least four hundred passenger elevators in New York city, each carrying an average of seven hundred persons a day to an average height of sixty feet. This represents a total height of 3,181 miles, if traveled by one person. It is forty-one thousand times as high as the great Pyramid of Egypt, and fifty-nine thousand times as high as Trinity steeple, which is 284 feet high. Allowing ten minutes as a reasonable time for climbing to the top of Trinity steeple (482 steps), it would take one person, walking up stairs ten hours a day without stopping, about three years to accomplish the same work that is done by New York elevators every day.—Builder and Woodworker. Woodworker.

NOTES AND ITEMS.

The fall business was so heavy that it reduced stocks of goods to such a point that there was a perceptible falling off in the demand for fire insurance. Instances are given of large mercantile houses which never failed to renew their policies in September, but have done so this year because of the light stocks on hand.

There is a growing indisposition, on the part of insurance people, to take risks on seaside hotels. Of course, some injustice is done to reputable people, but insurance companies have been stuck so repeatedly by adventurers, who would hire a summer hotel and set fire to it at the end of the season, that they are chary of such risks. The Rockaway Beach Hotel is said to be in the market for a 3½ per cent. risk.

A variety of freestone from Nova Scotia is

A variety of freestone from Nova Scotia is now being extensively used in this city for house fronts. It is in a number of colors, such as dark and light brown, blue, salmon, olive and light red. It is easily cut, and admirably adapted to elaborate architecture and fine lines. The use of this stone will be a relief to the everlasting brown stone front.

In the Philadelphia public schools the experiment is making of teaching industrial and decorative art. Metal work, painting, carving, hammered brass decorations and needle work are nammered brass decorations and needle work are taught with the regular school studies. Techni-cal and industrial schools are very much needed in this country. We are far behind other nations in the proper industrial training of our young people.

OUT AMONG THE BUILDERS.

H. J. Schwarzman is at work on the plans for a large six story brick building, 130x120, to be built at New Orleans, La., by Hernsheim Brothers, for use as a cigar factory; cost, \$75,000.

Mr. Wilhelm A. Juch will build five four-story brick flats, on the southeast corner of One Hundred and Fourth street and Second avenue, four fronting on the avenue, and one on the street. He also will erect five similar flats on the southwest corner of One Hundred and Eighth street and Second avenue, and eight on the south side of One Hundred and Eighth street, west of Second avenue. All of above to be 25x100.

R. Rosenstock is preparing the plans for six threestory and basement brown stone residences, varying from 16 to 18 feet from, and all 55 feet in depth, to be erected by Mr. Dean, on the northeast corner of One Hundred and Twentieth street and Madison ave-

M. Braender will build five five-story double flats, of brick, with Ohio stone trimmings, on the south side of Sixty-fourth street, 100 feet east of Third avenue, to cost about \$17,000 each. Each will be 25x70. John Brandt is the architect.

Mr. John Brandt is also making the plans for a four story brown stone double flat, with all modern improvements, 25x68, to be built for F. Schuck, at No. 311, north side of East Eighty-fifth street, and to cost about \$15,500.

Hugh Meehan will erect a number of new houses in the spring, upon the block of ground bounded by One Hundred and Eighth and One Hundred and Ninth streets, and Madison and Fourth avenues.

Mr. W. H. Wallace will add a three-story brick extension, 22x23, to his house, at 451 Clinton av, Brooklyn, cost about \$4,500. The architect is Mr. Mercein Thomas.

N. B. Cook intends to build a country residence near Sag Harbor, to cost about \$4,500. R. B. Eastman is now preparing the plans.

Estimates for repairing and extending the pier at ne foot of West Ninety-sixth street, North River, will be received by the Board of Commissioners at the headquarters of the Department of Docks, until October 19th, at 12 m.

MARKET REVIEW.

REAL ESTATE.

For list of lots and houses for sale See pages il and lii of advertisements.

There are quite a number of negotiations pending for changes in the ownership of real estate, which will in due time be announced. The number of conveyances and mortgages recorded are increasing daily, and will continue to grow in number and importance up to the beginning of the winter season.

The attendance at the Exchange Salesroom this reek shows a marked increase over that of any similar period during the past three months, and a general feeling of cheerfulness in regard to the fall market seems to prevail. The sale of the New Rochelle Brewery on Tuesday, brought out but two bidders, due, probably, to insufficient advertising. The first bid was \$20,000, and after crying for more than half an hour, auctioneer Muller knocked the property down to Mr. Kipp for \$70,000, at which figure it is said the property is not dear. On the same day, R. V. Harnett offered four choice corner flats with stores, located in Harlem, three of which were sold at low figures, and the fourth withdrawn. On Thursday, A. H. Muller sold the three four-story brick flats, Nos. 130 to 134 East Fiftieth street, 54.10x105, for \$36,625, a very fair price.

On Friday the salesroom was crowded, the attrac tion being the sale of thirty-nine choice lots on Riverside drive, Eighty-eighth and Eighty-ninth street. Among those present were Dwight H. Olmstead. Gen. Viele, John D. Crimmins, ex-Mayor Ely, Alexander J. Mayer, Patrick Fox, and John A. Monsell. The sale which was conducted by Richard V. Harnett was a very successful one, ten parcels being disposed of, realizing \$81,300, which being sufficient to meet all pressing claims against the property, the remaining lots were withdrawn. The four lots fronting on the drive brought a total of \$34,900, a very fair price, the next four immediately in the rear and fronting on Eighty-ninth street, were sold to Henry Merz for \$5,500 each, a high figure, and had Mr. Merz been posted in the way business is transacted at the Exchange he could of obtained the last three of these lots, after securing the key, for a much less sum, the third four brought \$3,300 each and the last \$2,800.

The price of the lots on Eighty-ninth street, is

higher than they commanded in their palmiest days and the opinion was freely expressed that the good influences of this sale would soon be felt in the

Next Thursday there will be a sale of very valuable property at the Exchange. On that occasion E. H. Ludlow & Co. will sell the splendid store and residence property on the southwest corner of Twentyrinth street and Fifth avenue. The building is five stories in height and covers the entire lot, 29.9 feet on the avenue and 100 feet on the street. This is among the choicest investment lots on this island. It has large vaults under the sidewalk, an elevator, and all the modern improvements. The store is now rented to Howard & Co., the jewelers, while the building above the ground floor is rented in elegant suites of rooms to tenants who are willing to pay a high price for so choice a location. Fifth avenue, between Thirty-fourth street and Madison square, is steadily growing in favor as a business centre for very costly and rare goods. The restaurants and hotels near by, the last the most famous in the country, furnish a plentiful supply of rich customers. Ladies who shop in carriages do not care to venture in the vortex of vehicles below Twenty-fifth street; hence the desirability of this splendid property as an investment. On the same day the same auctioneers will sell some valuable property in Water street, Nos. 97 and 99. The sale of these two properties is imperative, under the order of C. R. Robert, Esq., the executor.

Messrs. Adrian H. Muller & Son will sell on Thurs

day next three houses on Twenty-first street, one of which fronts on Gramercy Park. This is an old neighborhood, but it is a very choice one, and likely to remain so for many years. It is so convenient to down town, and so near places of amusement and clubs, that it will long continue to be among the most desirable locations on this island.

A. H. Muller & Son will sell on Tuesday next, by order of trustees, the three four story brick buildings and lots, Nos. 173 and 180 Division street, and No. 3 Norfolk street, being 55.101/2 on Division street, and 75,316 on Norfolk street.

Gossip of the Week.

S. M. Blakely has sold for John Coar the four-story high stoop brown stone dwelling, No. 132 West Fiftyeighth street, 16.8x55x100, to Mr. See, of Pine street.

Isaac E. Wright has sold the three-story brown stone house, No. 245 East One Hundred and Sixteenth street, 16.8x75x100, to Hugh M. Gartlan, for \$10.500.

Deliah A. Gartlan has sold the lot and two-story brick cottage, No. 127 East Fortieth street, 20x100, for \$11,500. to John L. B. Mott, who will pull down the cottage and improve the premises.

It is reported that the owner of the front on the east side of Madison avenue, between Fifty-sixth and Fiftyseventh streets, 200.10x75, has refused an offer of \$50,000 per lot for his holding.

T. Crawford has sold the four-story flat, No. 312 East One Hundred and Fourteenth street, 20x50x100, to Mr Bergman, for \$8,000.

The sale of two of William Noble's houses reported last week, should have read south side of Seventy-sixth street, east of Madison avenue, instead of west, the houses between Fifth and Madison being much more

Peter A. Lalor has sold the four-story tenement houses, Nos. 424, 426, and 428 East Fifty-ninth street 25x60x100, to the Hyman Brothers, the cigar manufacturers, for \$30,000, and the four adjoining lots to James E. Ray for \$18,000.

Mr. Whitelaw Reid is having his house on the southwest corner of Lexington avenue and Thirty-sixth street, placed in thorough repair, and is also having a bay window built on the Thirty-seventh street side, preparatory to occupation by himself and bride on their return from Europe.

As an indication of the renting demand for dwelling houses, it may be stated that an up-town broker advertised the house, No. 251 West Fifty-first street, in one of the morning papers, one day this week, and that by 8 A. M., the same day, the house was rented and by 1 P. M., there had been sixty-two applicants for

An offer of \$55,000 has been refused for the plot of ground containing about six lots, on the northeast corner of Seventy-seventh street and Riverside drive.

Mr. Styles has sold his two four-story brown stone flats, on the south side of Seventy-sixth street, be-tween Lexington and Third avenues, for \$44,000. These flats rent for about \$2,500 each.

Messrs. Bradley & Currier have sold the four-story brown stone flat house on the south east corner of Seventy-first street and Fourth avenue, 22x74x100, for \$29,000

Messrs. L. J. & I. Phillips have sold the lot of ground on the northeast corner of Fifth avenue and Seventyfirst street, 27x150, to Mr. William Vanantwerp for \$110,000; and it is also reported the two four-story brown stone flats Nos. 31 and 33 West Sixty-first street, 25x80x100, for \$58,000.

The following are the sales at the Exchange Salesroom for the week ending October 7:

Indicates that the property described has been bid

BUILDING MATERIAL MARKET.

Total......\$33,892

BRICKS.-Common Hards have again been on the upward turn, indeed the advancing tendency since upward turn, indeed the advancing tendency since our last was quite sharp, and a decided addition is made to values. Without any particular reason shown or assigned the arrivals ran moderate, and at times were quite limited, while the demand kept up to full volume, and receivers were in a position to insist upon better terms with much success. On the average run of offering the rates now stand at \$5.50@7.00 for Jerseys, \$6.75@7.25 for "Up-Rivers," and \$7.50@8.00 for Haverstraws, and in a few cases, and for extra fine stock we have heard of sales 25c. and 50c. per M higher, but hardly in such shape as to fairly establish a regular market value at the extreme. At the close, also, there seems to be a little hesitation among buyers on the reports that supplies are coming forward with greater freedom, but no indication that sellers will submit to a reaction of any magnitude. On the contrary, the prospects appear fair for holding the market well up during the balance of the season. As before noted, there is considerable effort among builders to get jobs forward as quickly as possible, especially those of a speculative character, and with new work steadily coming in, the consumption must be large, while on the other hand production is diminishing, and in the natural course of the season must soon be suspended altogether, while manufacturers in the majority of cases manifest no haste to realize, although some carry pretty full supplies. Pale Brick are having a good sale and rule very firm on a range of \$1.00@4.50 per M, as to quality. Fronts firm, with the moderate offering finding plenty of buyers to .ake it. our last was quite sharp, and a decided addition is

HARDWARE.—Business has again proven full and generally acceptable to the majority of dealers, with the market retaining a cheerful tone throughout. All the market retaining a cheerful tone throughout. All seasonable kinds of goods are moving and in greater volume than had been anticipated, in many instances, with dealers quite confident that the prospects are good for a still further increase as the fall progresses. Manufacturers are all busy and a great many still find it difficult to keep up with back orders for standard descriptions of stock. Export calls are fair in volume and form. Prices remain generally firm, and if anything tend toward an advance. The new rates for cordage referred to in our last are as follows:

Manilla Rope.—14 inch cir. and upwards, 15½c. per lb; 12 thread, or ½ diameter, 16c. do.; 6 and 9 thread, or ½ diameter, 16c. do.; 6 and 9 thread, or ½ and 5-16 diameter, 16c. do.; Stave Leather and Hop Twine, 16c. do.

Sisal Rope.—14 inch cir. and upward, 10c. per lb.; 12 thread, or ¾-inch diameter, 10½c. do.; 6 and 9 thread, or ½ and 5-16 diameter, 11c. do.; Hay Rope, 2, 3, 4 or 5 thread, 10c. do.; Tarred Rope and Lath Yarn. 9½c. do.

The Manufacturers announce that the price of

9,40. do.

The Manufacturers announce that the price of galvanized iron has been advanced to 35 per cent. discount for B. B. and 45 per M from list for second

LATH.-Some irregularity has been shown on a range of \$1.90@2.00 per M, but sellers appear to have retained a pretty good advantage, and in a general way the feeling is firm and confident. Arrivals have been full for several weeks, but did not leave any surplus accumulation, and on lots now known to be afloat negotiations are already pending to a full extent, with receivers generally asking the outside price, while manufacturers do not seem satisfied with returns, and talk about increasing their limits. Consumption is full and daily increasing.

LIME.-No change of a positive character has as yet taken place on the market and we continue ol

quotations. It is, however, noticeable that a very strong tone prevails, and the hints are that cost is likely soon to increase. The Eastern producers are dissatisfied with the rates ruling here and threaten reduced shipments unless they secure better terms, while from various causes the State production is low and everything offered finds a ready sale. Consumption is also full and tends to increase.

LUMBER.-Not much positivly new has been developed on this market since our last. Demand in some cases was a little slow, rather behind calculations if cases was a little slow, rather behind calculations if anything, but this does not appear to discourage selers and about former rates are asked on all grades of stock with the offering of desirable parcels quite indifferently made. It is admitted even among buyers that really first-class pine and spruce will be scarce during the balance of the season, with no reason to believe that much of a curtailment in consumption can be looked for, and the dealers who are still short of desirable supplies exhibit anxiety to negotiate upon any thing suited to their wants. They bid pretty low in some instances as compared with cost at primary points, and the views generally entertained by manufacturers and their agents, but full and strong prices are about all that will bring such stock as now wanted. Back purchases continue to come in and increase the accumulation in certain quarters, but a goodly number of goods would look better with more lumber in them. Export orders are more plentiful and the foreign trade tends to a revival.

Eastern Spruce has not shown much strength on values owing probably as greatly to bad management as anything else that of the receivers seem to become a little demoralized the moment any small surplus of stock drags on their hands and infuse some of their nervousness into the centre market. Buyers however, who have been unwilling to handle anything except choice, wide and sound stuff, were in no case successful in securing any positive advantage, not has it been possible to influence manufacturers to negotiate for the future, except upon an extreme basis. Transportation charges cannot recede again this season except under unusual influences, and the assortment of logs is not of a character to permit of any abundance of the choice stock not so necessary to meet the requirements of this market. We quote at \$12.014 for ordinary randoms, \$15.000/17.00 for good to choice do., and \$16.000/18.00 for specials.

White Pine has been coming forward freely and there is steady increase of stock, with the accum

From among the lumber charters and engagements recently reported, we select the following:

recently reported, we select the following:

GENERAL LUMBER NOTES.

STATE.

Albany Lumber Market, as reported by the Argus. FOR THE WEEK ENDED OCT. 4, 1881.

FOR THE WEEK ENDED OCT. 4, 1881.

The demand for the past week has been largely in excess of the proceding, and the attendance of buyers better. A sale of a million and three-quarters to a Brooklyn firm is among some of the purchases we hear of. The scarcity of certain pine grades especially sought after for manufacturing purposes is being felt, and it is apparent the "cry of wolf" is not without reason, as we hear of a prominent Michigan manufacturer shipping box direct from the saws to vessel. The lower grades of pine lumber have been sold, no doubt, too low, considering the yearly decreasing percentage of the better grades, and we see lighter stock here to day than for years past, which no doubt will produce an effect on prices during the short business season that remains. Vessels from Canadian ports are difficult to get, and the rates asked very high. The northern mills are working with a fair supply of water.

The receipts of lumber by lake at Buffalo for the week ending October 3d were 8,660,000 feet, and by rail 80 cars. The receipts by lake at Oswego for the week, were 6,266,480 feet as far as reported.

The receipts of venal at Albany from the opening of navigation to 1st inst, were:

Bds,&Sctl.,ft. Shgles,m. Timber,c.ft. Staves,lbs

1881 313,889,000 5516 1,000 6,105,000

THE WEST.

THE WEST.

Through the courtesy of G. W. Hotchkiss, Secretary of the Chicago Lumberman's Exchange. We are advised of the following changes in the official list adopted by the Chicago Lumber Dealers, for the month of October:

Prices advanced on 1st, 2d and 3d, clear, 2 in., to \$51.00; 3d clear, 1¼, and 2 in., \$43.00; A, Select, 1¼, and 2 in., \$37.00; B, Select, 1¼, and 2 in., \$29.00.

Prices declined on Shingles, Car Loads, clear, to \$3.50, dry; Extra A, to \$3.10, dry; Standard A, \$3.00 dry.

The Northwestern Lumberman reports as follows:

The Northwestern Lumberman reports as follows:

Chicago.

The cargo market, during the past week, has been an extremely quiet one. At the writing of our last report the President's death was a subject of too much moment to allow active business pursuits to engross the mind. The same influences acted upon the lumber market during the week, depressing it to an extent from which it has not yet recovered its buoyancy. By this we would not be understood as indicating a material reduction in prices, although it was but natural that under the influences of neglect, and indifference on the part of buyers, prices should suffer to an extent. The better grades of lumber, as selects and high grade boards and strips, still command full quotations. Inferior stock from No. 2 logs has ranged according to character, at from \$11.75 to \$15, in inch lumber and strips, and short piece stuff has anged at about \$11. A good proportion of long lengths would bring fifty cents higher than that, but inferior white pine and Norway, has sold as low as \$10.50. On the 28th inst. the market was quite weak under the influence of large receipts at the yards, with large offerings at the sales dock, and \$11 could have been, and probably was, shaded to \$10.75. Long length piece stuff still commands from \$12 to \$13. The receipts of lumber are now tending to the accunulating of stock upon the yards to a greater extent than before this season. but not to the extent that they must, if the season is to close with the 650,000,000 feet on hand, which the dealers have declared to be necessary in the resolution which we publish in connection with a report of the October price list meeting in another column

It is scarcely to be hoped, indeed it is hardly within the range of possibilities, that the next two months should give an increase of 150,000,000 feet, as they must if the figures presented at the meeting be correct. That the resolution states a fact, is patent to every one acquainted with the Chicago trade, but we fear that the season will close on a m

Shingles are in larger comparative supply than lumber, and prices at the dock have suffered. Brands which two weeks since sold at \$2.85, can now be obtained at \$2.65 and \$2.70, and lower grades have suffered in the same proportion.

Lake freights have advanced from all points in the list, except Menominee and Ford River, and are firm, as quoted below:

HARDWOODS.—Business has been steady at the yards, and several of the dealers report an increase of orders. Prices are firm and without change. The receipts of the week have been moderate, the greater proportion of the lumber for the week coming by rail. We have not heard of many wholesale purchases, and sellers from primary points have been scarce. Stocks have accumulated for the past few weeks, and, with the exception of walnut, ash and cherry, the yards may be said to be well supplied.

SAGINAW VALLEY.

Lumberman's Gazette. BAY CITY, MICH.

BAY CITY, MICH.

The abundant activity which has characterized this market throughout the season still continues. A good quality of lumber is more easily obtainable, as good logs are arriving and being sawed from the headwaters of the Tobacco, Cedar, and other streams. The ruling prices in the market remain unchanged at \$7.50, \$15 and \$35. Medium stock has sold during the week at \$7, \$14 and \$32, over average \$7.50, \$15 and \$35, and as high as \$8, \$16 and \$35. Several sales are reported at \$8, \$15.75 and \$35. Freights are firm at \$2.50 from Bay City and \$3.50 from Saginaw to Ohio ports, \$3 from Bay City and \$3.50 from Saginaw to Buffalo, and \$3.25 from Bay City and \$3.50 from Saginaw to Chicago.

The shipments from the Saginaw River for the season to Oct. 1, are as follows:

son to Oct. 1, are as follows:
Lumber, feet. 597,159,211 Shingles. 109,509,000 Lath. 12,251,000

Lumberman and Manufacturer. \ Minneapolis, Minn.

Lumberman and Manufacturee, \ Minneapolis, Minn. \
The conditions and prospects of the lumber business in the West remain in the satisfactory state of the last three months, with constantly increasing facilities for transportation and handling this bulk commodity. Thus in the city of Minneapolis during this year a number of planing mills have been added, and old ones added to. Besides this, long stretches of side tracks have been put in on both divisions of the city giving to the lumbermen double the yard room and chance to load. This is but a sample of all the other market cities. The recent bad weather has shown its effects in a slight falling off in shipments, but this is owing largely to the almost impassable condition of the roads and streets, and the immense number of sick horses. Several of the largest mills have had to shut down for want of teams to haul away lumber. This has seriously interfered with the operations at all the mills. Besides this, business was nearly totally suspended to participate in the funeral services of President Garfield. Advices from the pineries show them in a flooded condition, with nearly impassible roads to the legging camps. The immense amount of water will be most favorable for driving next spring. Business on the river among the raftmen is being pushed to the utmost limit of their rafting and towing facilities, and all the logs will be taken out of the booms and delivered at the mill booms if they are not all sawed up.

No change in quotations this week.

FOREIGN.

The London Timber Trades Journal reports:

The London Timber Trades Journal reports:

Whatever may be the doings of the trade elsewhere, it is doubtless very good in London, and, notwithstanding the heavy importations we had to chronicle last week, it seems to have dismayed nobody. On the contrary, the best prices of the season on some goods were obtained at the two days' sale which occurred since, and things went pretty generally 10s, to a pound a standard higher than they fetched a month ago. Whether the confidence in prices arises from a belief that the winter stocks will not be heavy, or that, whatever they may be, there will be plenty of work going on to require them all, it is difficult to say. What is evident to everybody is that there is at present a great readiness to lay in stock among the dealers around and about London. The quantity coming forward seems to have no appreciable influence on the public sales, and even some of those who watch them for the shippers abroad, and know, or are supposed to know, all about the stocks there, speak confidently of advancing prices. Others look incredulous and shake their heads. But that prices are very firm in this market just now does not admit of a doubt.

Although the business of the past week has been curtailed by the one day devoted to the opening of the new docks, during which time nothing was done, a fair weeks' work has been got through, and buyers have purchased at a rate that will not affect the figures in the statistics of the month. The demand has been steady throughout, and prices are against the buyer, for altough our stocks on hand are large for some articles, yet the approaching close of the season and the firmness with which shippers demand higher rates, owing to the probable scarcity abroad, and the continued advances in rates of insurance, have made the most popular woods, such as spruce deals, advance in value.

Messrs. Farnworth & Jardine in their monthly circular report that there has been a fair import and a fair amount of business done. Canadian Woods—The import has been small, especially square timber, and the advance in prices in Quebec for yellow pine has quite checked business here, where no corresponding advance can be obtained. Red Pine—A little more in quiry, but demand is limited. Oak remains quiet and the consumption small, with no improvement in value. Elm—Fair demand, but prices are easier. Ash of prime quality commands full prices, but demand limited. Pine deals arrive freely by steamers at low rates of freight, and, though a fair demand, there is no improvement in value. New Brunswick and Nova Scotia Spruce and Pine Deals, &c.—A full import of spruce deals, and deliveries about the same as during the like month last year. Prices show a slight advance during the month, and market is firm; the trade, however, are not without some misgivings as to the future, and it will require moderate imports for the remainder of the season to inspire confidence. Pine deals are but in moderate request, and there have been no sales of importance. Birch has been in better demand, and at higher prices. Pitch Pine—The arrivals during the past month have been seven vessels. Prices continue low and without much immediate prospect of improvement, but, with the enhanced value abroad of Canadian goods, pitch pine at present low prices should attract more attention.

Mail advices from Rio Janeiro report:

Mail advices from Rio Janeiro report:
Pitch Pine Deals.—We have no arrivals to report,
owing to which fact our market is firm at 43|000 to
44|000. Very few cargoes reported on the way.
Spruce Pine Deals.—There is one cargo expected
from Portland, Me. Market steady at 37|500 per
dozen.
White Pine Lumber.—The arrivals consist of about
154,000 feet per David Stewart from Baltimore, 37,000
feet per Sophia Cook and 287,000 feet per Sappho from
New York, sold at 115 down to 100 reis per foot. Market supplied and dult.
Just arrived about 50,000 per
Wm. Phillips from Wilmington, Del., still unsold.

NAILS.—Supplies are offered fairly, and most regular dealers continue to market a display of firmness at full rates reached on the recent revision of price list, and these are retained as quotations. Some "out-side" lots, however, taken on speculation before the rise, are offered at a fraction "off," and this with the pressure of consumption less severe, leads buyers in many cases to greater caution.

Many cases to greater caution.

We quote at 10d. to 60d., common fence and sheathing per keg, \$-@3.40; 8d and 9d, common do, per keg, \$3.65; 6d and 7d, common do, per keg, \$4.15; 3d, per keg, \$4.90; 3d, fine per keg, \$5.65; 2d, per keg, \$5.65. Cut spikes, all sizes, \$3.65; floor, casing and box, \$4.15@4.90; finishing, \$4.40@5.15.

CLINCH NAILS.

114 inch, \$5.90; 134 inch, \$5.65; 2 inch, \$5.40; 21/2023/4 inch, \$5.15; 3 inch and longer, \$4.90.

PAINTS AND OILS.—The market as a whole presents no positively new features. A very good business is doing with a tendency to increase, in such as ness is doing with a tendency to increase, in such as may be considered the standard grades of stock, and values are pretty well supported, but the force of demand has scarzely been great enough to lead to any decided buoyancy as yet, though an advance of a fractional character is predicted for Leads. Linseed Oil has been in pretty good demand and remains firm in value. We quote at about 60@63c. for city, and 64 @65c. for Calcutta from first hands.

PITCH.-A very fair average trade demand has prevailed with the supply pretty closely guaged thereto, and values held about steady. We quote at \$2.25@ 2.30 per bbl. for city delivered.

SPIRITS TURPENTINE.—The general features are much the same all around. A fair average trade demand prevails, and this is met with very little disturmand prevails, and this is met with very little distur-bance of the general line of values, but in a wholesale way the tone is unsettled and rendered to a certain extent nominal under the constant speculative manip-ulation. Appearances of late rather favored buyers. As this report is closed the quotations stand about 534,654,6c. per gallon, according to quantity of stock handled.

TAR.—Business has been a little irregular, but on the whole a fair amount of stock went out from time to time, and realized full former rates, the market ruling quite steadily as to cost. The supply is fair in quantity and assortment. We quote at \$3.50@3.75 per bbl. for Newberne and Washington, and \$3.50@3.87½ for Wilmington, according to the size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee they mean as follows:

1st—Q. C. is an abbreviation, for Quit Claim deed i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or war-

the grantor is conveyed, omitting all covenants or war-ranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

10,000 MORTGAGES. Nore.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property them follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, and for fuller particulars see the list of transfers under the corresponding date. NEW YORK CITY. SEPT. 30, OCT. 1, 3, 4, 5, 6.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. ** means not summoned. Judgments entered during the week and satisfied before day of publication do not appear in this column, but in list of Satisfied Judgments.

NEW YORK CITY.
