C. W. SWEET, 137 Broadway.

J. T. LINDSEY, Business Manager.

## WHAT VANDERBILT IS REALLY AFTER.

William H. Vanderbilt is the railroad war. All the leaders of the street, bears as well as bulls, are eager to have it ended. There is not a railway corporation in the country that would not be willing to make any reasonable sacrifice to have rates restored and the railroad system of the country again in harmony. The war, so far, has been a direct detriment to the Central road and all its tributaries. Since it has been raging, Michigan Central has fallen from 114 to 87; Canada Southern from 83 to 56; New York Central from 153 to 135; Lake Shore from 135 to 117. Strangely enough, the rival roads show no such decline. Erie sells for some 6 points lower, and Pennsylvania Central and Baltimore & Ohio have scarcely been affected at all. There has been an increased business at this port, but it is the Pennsylvania Central which has profited by it, not the New York

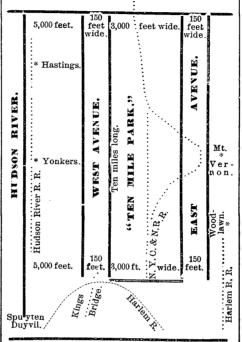

What, then, can be Mr. Vanderbilt's motive in keeping up a war in which his roads are the principal sufferers? May not the solution be found in his determination to ruin the Erie Canal? Under the law, expenditures on the canal are limited by the amount of its receipts. According to the State Engineer, the tolls this year are wholly inadequate for keeping the canal in repair. During the coming winter an application will be made for additional funds for the support of the canal. But the New York Central always controls the legislature of this state. The Senate has ever been faithful to the private fortunes of the owners of this great monopoly. Wagner, Vanderbilt's sleeping car partner, is the perpetual chairman of the railway committee.

The legislature which meets next winter will also have the deciding of the free canal question. If it refuses to submit the vote to the people making the canals free, that is the end of the matter for a couple of years. The Republican legislature last year failed to pass the amendment taking the tolls off the canal. The next legislature may be Democratic; but whatever party it represents, the members will vote as they are paid by Mr. Vanderbilt.

Should Mr. Vanderbilt succeed in ruining the Erie Canal, then good-bye to the greatness of New York. Its growth will be checked at once, and desirable unimproved lots become unsaleable. It is probably too late to organize so as to elect the right kind of a legislature, but it is quite time that the New York public knew just what William H. Vanderbilt has in mind,

THE PROPOSED "TEN MILE" PARK.

The diagram below gives an idea of the great park which it is proposed to lay out north of the Harlem river. It tells its own story and there is no need of any further description of the *locale*.

The 3,500 acres embraced in the park will cost, on an average, about \$1,000 an acre. In 3½ per cent. bonds, guaranteed by the counties of New York and West-chester, the interest will be \$108,000 per annum. The increased value of the adjoining property would, it is estimated, give an increased revenue of over \$500,000 per annum. A portion of this increase might be used for improving the park. It is understood the next legislature will be asked to appoint commissioners to begin the work.

The scheme is not so chimerical as it would seem at first sight. A park will be needed in the annexed district. There is already a large population that could use the drives at once. Yonkers, Hastings, Mount Vernon. Woodlawn, and other centres of population, would find it immediately available. Our Central Park is now overcrowded on fine days with splendid equipages and baseball matches, croquet, and lawn tennis games cannot well be played within its limits. The new park would naturally be the scene of all athletic sports. Paths could be set apart for the lovers of the bicycle. Great mass meetings could be held, a parade ground could be made, and monster shows might be permitted. The ground should be taken at once, while still cheap.

The variations in the price of the elevated stocks are due to the manipulations of Jay Gould, Cyrus W. Field and Russell Sage. The intention clearly is to shake the public out of the holding of these stocks and then a grand deal with advancing prices for each of the securities. We are upon record for

the past year as predicting that Manhattan stock would never be wiped out, but would be recognized and the leases kept in existence. The result has justified the forecast. The terms made at the last meeting of the high contracting parties were intended to shake out the long holders of Metropoli-The triumvirate, Gould, Sage and Field, seem to be buying that stock. The next arrangement will probably be to reduce the quotations for elevated and so the thimble rigging game will go on. When the proper time comes it will be found that the bulk of the stock of the companies is in the hands of the three manipulators. Then the fares will be raised, new economies effected, and out of town connections made which will largely benefit the elevated railroad system. Eventually all the stocks will be very valuable. But it will leave the citizens of New York at the mercy of three of the most unscrupulous speculators that have ever appeared on any money market.

#### THE STOCK MARKET.

The believers in higher prices on the Stock Exchange have not had much encouragement during the past week. The Treasury disbursements made money easy, the railroads are doing a better business than at the same period last year, business has been exceptionally prosperous all over the country, yet the market was weak, feverish and the tendency towards lower figures until Friday, when the offer of the Treasury Department to take the called bonds as fast as they were presented, made quite a spurt in prices.

For this condition of affairs the bears give very cogent reasons. Exchange is so high that there can be no more shipments of gold for the present, and without such shipments we have never had a bull market. Then, there is no hope of any further help from the United States Treasury after the 105th call is exhausted. All the money paid in from the customs will be needed for the ordinary disbursements of the Treasury Department and for the sinking fund. will be little or no surplus. Then, affairs do not look very promising across the Atlantic. The struggle for gold continues, and bankers believe the rate of interest in Paris, London and Berlin must go still higher. This will lead to the sending back to us of many of the securities sold at higher figures in London, Paris and Amsterdam.

Then, it is argued, the very large business of the railroads is due to the cutting of rates, and that finally the roads will loose as much as they are now gaining from the artificial movements of manufactured products. In other words, it is believed that the low rates on the railroads are making business active now, only to become inactive a few months later; that the crop deficiences and the other drains on the railway freight will show themselves next spring, and that this condition of affairs is now being discounted.

out of the holding of these stocks and then a grand deal with advancing prices for each of the securities. We are upon record for large amounts of property are to be offered

for sale during the coming six weeks. There is no indication of any excitement, but prices are firm. The country is full of money and it may be that some of it will find its way into real estate on this island, but we shall be able to tell better further along in the season.

The American people have been exceedingly generous to Mrs. Garfield and her family, and the sympathy felt has taken the substantial form of a large money contribution. Congress also will, no doubt, do what is just by the wife and family of the late President. But there is another wife of a President to whom the United States is far more indebted than to James A. Garfield. who is now in this city sick and so poor as to be unable even to employ a maid to wait upon her. Mrs. Abraham Lincoln is at Millers Hotel in Twenty-sixth street in a condition of body, mind and purse which make her an object of commiseration to all who know her circumstances. She seems to be friendless, for the only person of distinction who has paid her any attention is ex-President Ulysses S. Grant, who called upon her soon after he heard of her arrival. He seems the only one who remembered her of the thousands who eagerly sought her acquaintance when her husband was living. It is not creditable to the American people that the wife of Abraham Lincoln should pass her last days, poor, neglected, sick and friendless.

The official lists of conveyances and recorded mortgages do not show any increase over last week. There are no increased transactions and the amounts involved are about the same. The only noticeable feature is the larger business done in the annexed district.

Cross-town cars are very much needed in the centre of the city. Above Twenty-third street there are only two lines which run from river to river, the Belt road and the cars on One Hundred and Twenty-fifth street. The Thirty-fourth street cars. which now turn down Broadway, should have a branch connecting with the East River. Forty-second street needs a car-line, and one would be handy further up-town. Then there should be some way of getting across the Park, not, indeed, by horse-cars, but at Ninety-sixth street provision should be made for vehicles to get from the Fifth to the Eighth avenue side, and vice-versa.

The new houses built north and west of One Hundred and Twenty-fifth street, on the central line of the island, are said to be selling much more rapidly than the new houses to the northeast of the Central Park. Travelers on the west side elevated road note side. In quite a number of locations preparations have begun for building new struc-

A great deal of vacant property is to be sold before the close of this year. In addition to the 1,000 lots which the City of Brooklyn expects to auction off, there is the Jumel estate on this island, and a large number of partition and speculative sales. The few offerings made at the Exchanges give evidence for a healthy and active demand of realty, both improved and unimproved. This will be a better year to buy property than next year.

Jay Gould spent two hours yesterday trying to persuade E. D. Morgan to accept the position of Secretary of the Treasury, which had been tendered him by President Arthur. It is understood that the ex-Governor has decided to decline the honor on account of his feeble health and pressing private business. A knowledge of this fact leaked out in the "street" and weakened prices. Powerful influence will be brought to bear upon Mr. Morgan to induce him to reconsider his determination.

#### MINING INFORMATION.

Horn Silver promises well. There is at length an accumulation of sufficient money to pay dividends for a year. It is claimed that over fifty million dollars of ore is in sight and that everything is now ready for the manipulation of the product of this great mine. It will be remembered that the ore is of all kinds, some of it free milling, while a large portion is roasting ore. There is no doubt as to the immense extent or of the richness of the mine, the only question is as to the possibility of handling the ore economically.

The news from Chrysolite is again good. Iron Silver also seems to be well managed and to pay its dividend regularly. The deals in Hibernia have been simply scandalous. The principal operator is very rich, but, if he had his deserts, he would spend the rest of his life in prison as a common cheat and rascal.

Again there is a promise of a new development in the Comstock. So far no great ore body has been discovered below the 1,600 foot level; but all the ground down to the 3,000 foot level has been vigorously explored. Small bodies of ore have been frequently found, but no great bonanzas. There are nearly four hundred miles of underground workings on the Comstock lode. In no other district on the globe has so much work been done in so short a time.

The dark lantern policy still prevails at Silver Cliff. No report of the product of the mine is allowed to be made public. There are vague outside reports that after working in poor ore, better ore is now being mined. There is a new superintendent, but the management of the mine so far in New York does not inspire confidence.

#### ARTESIAN WELLS IN NEW YORK.

Just at this time, when the scarcity of Croton water is making itself felt, it is well to remember that we are not entirely dependent upon it for our supply. There are a number of artesian wells in this city that yield a supply of good water, and there should be more of them. Good water and plenty of it, is what our people demand and will have. The waste of water is criminal, but the free use of it should not be interfered with. Many of our large breweries are supplied with artesian wells, as well as some of our hotels and Turkish bathing establishments. Mr. Edward Clark is setting a good example to the builders of large apartment houses by boring an artesian well in the rear of his new mammoth family hotel on Eighth avenue. On last Saturmany evidences of improvement on the west | day it had reached a depth of 365 feet, and wa

8 inches in diameter, the water coming from two veins. He has also an artesian well in the rear of the Van Corlear apartment house, 275 feet deep and 7 inches in diameter, which, when it is not in use, is a flowing well. The water in these wells can be used for all household purposes, and in fact it is thought to be equal if not superior to Croton for all uses. It is said that unless we have a fall of rain, the supply of water in the Fifth avenue Reservoir will be totally exhausted within the coming three weeks.

The Groove Track Pavement Company have petitioned the Board of Aldermen that they be granted the right to lay down on Broadway a complete equipment of five sets of grooved tracks, so as to accommodate every gauge of wheels frequenting that street, and run upon the tracks vehicles for the transit of passengers, and of their baggage, at a fare not exceeding five cents, prorated with all omnibus and railroad lines that shall desire to make such an arrangement; all other vehicles, except those kirds now running in Broadway, being prohibited from carrying passengers there. In consideration of the granting of which petitions, the said company will covenant to keep the streets in which it runs well grooved-tracked and paved from curb to curb, and clean of dust and snow the year round, and will pay monthly into the city treasury one cent of every full fare received. The petition was referred to the Railroad Committee. This scheme was first suggested by Dr. Lambert, of life insurance fame. It would be a tax upon the cartage of the city, and would never be tolerated. There would be no objection for the city itself to cut grooves in a certain portion of Broadway, say below the City Hall Park. so as to direct the current of vehicles passing up and down. It might indeed be a partial solution of the crush problem. The zig-zagging of the vehicles and the opposing currents is what causes the frequent congestions of vehicles in Broadway and other streets. But it would never do to give a private company the right to use our streets as a means for taxing all the vehicles which travel over them.

The books of the new rapid transit company in the annexed district will be opened to-day. Mr. Jacob Cohen has already subscribed for \$5,000 vorth of the stock, and Judge Angel has taken a like amount.

#### NOTES AND ITEMS.

The Bombay Hook, extending from Bombay Hook, Del. to Chestertown, Md., is said to have been sold by Jay Gould to a party of Philadelphia and Boston capitalists, who have in view the construction of a ship canal across the peninsula and parallel with the Bombay Hook road.

M. Pinard, the well-known caterer, has purchased property at Newport, R. I, on which he will erect a restaurant and hotel after the style of the Elberon, near Long Branch.

The Climax Sash Cord is said to be very simple, durable and economical; it is made of steel wire, and is just what is needed for suspending all kinds of window sashes, gates, doors, and all contrivances. See advertisement elsewhere.

The recent exploration party of Colonel Mercer up the Spanish river in the province of Ontario, is said to have discovered vast pine forests containing upwards of 24,000,000,000 feet of a superior quality of pine lumber, with facilities of getting it to market equal to the best.

NEW YORK, Oct. 18, 1881.

Editor REAL ESTATE RECORD:

I beg leave to call the attention of the public and the proper authorities, through your columns, to the fact that the four lots on the south side of Seventy-sixth street, between Eighth and Ninth avenues, are being filled up with garbage, and also to the fact that immediately in front of the Museum of Natural History there is a green pool of stagnant water that is not only an eyesore, but unhealthy, and the only excuse offered for its being there, is, that the stuffed animals of the museum are not likely to suffer from malaria.

WEST SIDE.

We give below a table showing all the houses and flats built this year between Fifty-ninth and Seventy-fifth streets, and north of One Hundredth street, in the district east of Third avenue.

#### OUT AMONG THE BUILDERS.

J. C. Burne is engaged on the plans for two extensive four story brown stone flats with stores, which will be erected on the southeast corner of First avenue and Seventy-ninth street. They will be 27 and 28 feet front and 80 feet deep. Andrew Kelly the owner expects to expend \$36,000 on this inprovement.

George Martin Huss has completed the plans for an extension to the house No. 163 Sixth avenue. It will be three stories high, built of brick, with brick cornice and tin roof. This property belongs to the Wm. C. Rhinelander estate. The same architect is drawing the designs for a two-story frame cottage to be erected at Sing Sing, 30x27, the features of which are the union of the dining and sitting rooms by means of a curtained arch so that they may be trans formed into one large room, 26x14, for use on special occasions; a staircase with a seat that can be used for plants, above which will be a large stained window, and a tower that will be used for ornamentation and to contain a water tank above the level of the roof, thus affording ample pressure for all household purposes. There will be but one chimney, which, will be in the centre of the house, thus utilizing all the heat. The cottage will be finished in hardwood and the exterior painted in neutral tints.

Terence Farley proposes to erect a row of first-class four-story brown stone dwellings on the south side of Seventy-fifth street, between Madison and Fourth avenues. They will be of various sizes, from 15 to 20 feet front, and immediately adjoin the three houses Mr. Farley has already commenced on this street.

Hugh Blesson will soon commence the erection of a five or six-story apartment house, 50x90, on the two lots on the north side of Fifty-eighth street, 150 east of Ninth avenue. They will be built of brown stone, brick and terra cotta, and will contain all the latest improvements.

The large warehouse on the corner of West and Murray streets, which is now being completed for Mr. Renwick, who represents the o'd Rhinelander estate, is built of brick and Wyoming Valley stone, the brick being laid in red mortar, with dentile and other projective courses. The chief points of interest, however, are the cellar, which is four feet below high-water mark, and the walls, which were carried down sixteen feet six inches below the curb in order to do away with the driving of piles. It was a common remark during the erection of this building that it would never get out of the hole, as it looked as if it was standing on water, but now the latter has all been pumped out, the mud excavated and a patent cellar bottom put in. While the work of excavation was going on for this building the original beach bottom was struck and a portion of an old dock was discovered, the existence of which can still be remembered by a few of our oldest inhabitants. On the beach a number of shells and ancient coins were discovered by the workmen.

Mr. Edward Clark is about to commence the erection of more than thirty four-story and French roof brick dwellings on the plot of ground on the north side of Seventy-third street, commencing at a point 200 west of Eighth avenue and extending to the easterly side of Ninth avenue, 600x100. They will vary in width, some being 18.9, some 20, and some 25 feet; the uniform depth will be 60 feet. They will all front on Seventy-third street and be ornamented with variegated stone. Although the plans have not yet been drawn for the houses, it is understood that Mr. H. J. Hardenburgh will be the architect.

Mr. S. C. Thompson, President of the Chase National Bank, proposes, to erect a palatial residence on the plot of ground recently purchased by him on the northeast corner of Seventy-seventh street and Riverside Drive. Mr. Thompson is an ardent believer in the great prospective value of realty in this section of our city.

Messrs. Lespinasse & Friedman, it is said, are about to erect an extensive apartment house on the plot of ground on the east side of Ninth avenue, between Seventy-second and Seventy-third streets, 200 feet on the avenue, 46 feet on Seventy-second street, and 51.2 feet on Seventy-third street.

Adolph Kuttroff has commenced the excavation of the lot on the northwest corner of Madison avenue and Sixty-ninth street, where he proposes to erect a private residence in keeping with the magnificent improvements now being completed in this locality.

Plans have just been completed for three houses to be erected at Long Branch, by Samuel Harris, of this city, at a total expense of \$21,000. John E. Baker is the architect. He is also drawing designs for fou cottages for Mr. N. Depeyster, which are also to b erected at Long Branch.

The high price of labor is interfering materially with building operations in all our adjacent cities. In Jersey City building has almost come to a sta dell to build in this city.

#### A LONG DELAYED IMPROVEMENT.

It seems that there is at last some prospect of having Seventy-fourth street opened from Eighth avenue to the Hudson River. This matter has been held in abeyance ever since 1868, but the proceedings are now drawing to a close, all the testimony that is required having been taken and the case referred to Mr. John Berry, the referee, who, it is expected, will hand in his report to the court for confirmation at any moment. This is the only street south of One Hundred and Tenth, immediately adjoining Central Park, that has not been opened.

The Court of Appeals has just rendered a decision affirming the constitutionality of the act of 1874, concerning the opening of streets in the annexed district. The Commissioners of Estimate and Assessment about a year ago reported favorably upon the opening of One Hundred and Thirty eighth and a dozen other streets in the Twenty-third Ward, and their report was confirmed. The corporation counsel, on behalf of the city, recently moved to have the proceedings set aside, as he claimed the act upon which the proceedings were based was unconstitutional. The final decision of the above court at last settles the question, and ends a proceeding which has been pending for more than five years.

#### MARKET REVIEW.

#### REAL ESTATE.

#### For list of lots and houses for sale See pages it and lii of advertisements.

During the past week the attendance was larger at the Real Estate Exchange than at any period since last June. There was not much property offered for sale, but the bidding was confident, and the prices obtained were generally satisfactory. While it is true that the newly built houses go off rather slowly, still when good property is offered at auction it is not sacrificed. Take the case of the house 252 West Fiftyfifth street. This is a 16 foot front house, fairly well built, in an improving neighborhood. In 1876 it was sold at auction for \$16,000. In the following year it was resold for \$17,000. Last Tuesday, the price was started at \$17,000, and Mr. Bangs, a lawyer, who owns the adjoining house, bid \$21,250, and got the property, This is a good instance of the improvement in values since 1877, and it shows that the Exchange is not a bad place to sell property that will stand a great deal of investigation.

At length there are signs of a movement in real estate north of the Harlem River. Fordham lots have been selling very freely upon our Real Estate Exchange, and among the plans for new buildings will be found several for small houses in the Twenty-third and Twenty-fourth Wards. The houses to be erected are small ones, costing from \$2,500 to \$4,000, and the owners and builders are people who generally own their lots. In one case, seventeen new houses are to be erected, and we hear of quite an extensive building movement, of which the Twenty-third Ward will get the benefit. The new law permitting the erection of frame buildings above One Hundred and Fortieth street is having a good effect in stimulating building in locations suitable for frame dwellings.

During the coming two weeks a great deal of valuable property will be offered at the Exchange. On November 2d, a sale of the very utmost importance will take place. On that day Richard V. Harnett will sell 114 lots, under an executor's order. They are scattered all over the upper part of the city, on First, Second, Third, Fourth, Eighth, Ninth and Tenth avenues; some are on the Grand Boulevard, and others on Eighty-sixth, One Hundred and Second, One Hundred and Third, One Hundred and Fifth. One Hundred and Sixth, One Hundred and Seventh, One Hundred and Fifteenth, One Hundred and Thirty-sixth, One Hundred and Forty-third, One Hundred and Forty-sixth, One Hundred and Forty-seventh and One Hundred and Forty-eighth streets. From this it will be seen that the sale is of extreme importance, as it will give indications of what the shrewdest operators think values should be in every part of the town which is as yet unimproved. On the 26th of October, the two fine five-story brick tenements, Nos. 441 and 443 West Seventeenth street, will be sold also by Mr. Harnett; these houses bear a high rental. On Octo ber 25th, Mr. Harnett will also sell three fine new houses in Seventy-second street; they are 16.8 feet front and 55 feet deep, with an extension of 20 feet, the lot being 102.2 feet deep. This is an executor's sale, and the property offered is very choice. On October 25th, Mr. Harnett will also sell twelve lots on Tenth avenue, of the Braisted estate. Eight of these lots are on the east side, between One Hundred and Fourteenth and One Hundred and Fifteenth streets, and four lots extend from the corner from One Hundred and Fourteenth street. This is very choice property, as it is on the Morningside plateau, the beautiful drive of which will only be one block distant. On the 25th inst. will also be sold a superb three-story and high stoop brown stone house, No. 31 East One Hundred and Thirtieth street; this is near Madison avenue, and in an improving neighborhood. On the same day Kip's Bay Malt House will be sold by Mr. Harnett. It is situated on Thirty-eighth street, with the East River on one side and First avenue at the other. The property takes up nearly the entire block. It is a complete establishment for storing and manipulating malt. The land alone is very valuable. The property will bring. There is no other site in the city so admirably adapted for the business.

On Monday, next, R. V. Harnett will sell sixty-seven lots, located in Fordham.

The feature of the market this week has been the large number of new private dwellings that have been sold, the full particulars of which are given elsewhere. Without doubt the publication of the interesting table showing the exact number and location of the new residences offering in the market, in the Real Estate Record two weeks since, has stimulated would be purchasers, and some of the builders have already reaped the benefit of our enterprise.

On Thursday next, A. H. Muller & Sons will sell about thirty acres of land adjoining the Dyckman estate at Kingsbridge. This sales includes the Kingsbridge Hotel, a number of stores, dwellings and other buildings, also water fronts on the Harlem River and Spuyten Duyvil Creek.

#### Gossip of the Week.

Leonard J. Carpenter has sold the four story brown stone dwelling, No. 115 East Twenty-third street, 28x 60x110, to Mrs. Wheeler, for \$40,000. This house was sold six months ago for \$29,500.

During the past week Fred. Marsden, the dramatic author, signed a contract for the purchase of the three-story brown stone dwelling, No. 318 West One Hundred and Twenty-sixth street, 15x50x85, for \$1°,-000, and Mrs. J. C. Croly has purchased the adjoining house, No. 320, for the same price. These houses were built by Mr. Cunningham,

| Messrs. M. E. Crasto & Son have sold three lots, with the frame buildings thereon, on the north side of One Hundred and Twenty-fourth street, 250 feet east of Eighth avenue, for \$15,150, cash, and the plot of ground and three-story brick dwelling on the northwest corner of Fifth avenue and One Hundred and Twenty-sixth street, 74.11x110, to John G. Overhiser, for about \$45,000.

C. R. Gregor has sold the four-story high stoop brown stone dwelling, No. 23 East Sixty fourth street, to Mr. A. A. Bonner, for \$44,500.

Hugh Blesson has purchased two lots on the north side of Fifty-eighth street, 150 feet east of Ninth avenue, for \$28,000.

Terence Farley has bought three lots on the south side of Seventy-fifth street, between Madison and Fourth avenues, for about \$17,500 each. About twelve months since the lots fifty feet east of those phone decribed were nurchased for \$12,000 each.

above decribed were purchased for \$12,000 each.

Messrs. Squire & Wooley have sold the four-story high stoop brown stone dwelling, No. 19 East Seventy-ninth street, 20x70x85, for about \$43,500, to Judge Bond, and the four-story high stoop brown stone dwelling, No. 17 East Seventy-ninth street, 18x70x85, to Mrs. McCullom for \$41,000.

Messrs. A. H. Muller & Son have sold the dwelling No. 169 Madison avenue, to John T. Terry, of E. D. Morgan & Co., for \$51,000, and No. 50 East Fiftyfourth street, for \$25,500, to Mr. Wilson.

Frank Kuhn has sold a five-story brick tenement on Eldridge street, near Grand street, 25x50x87.6, for \$15.125.

Mr. Meehan has traded thirty of his four-story brick tenements on One Hundred and Eighth, One Hundred and Ninth and One Hundred and Tenth streets, between Second and Fourth avenues, for a furnished hotel, situated in Plainfield, N. J., and some cash.

Four lots on the south side of One Hundred and Twenty-third street, 100 east of Sixth avenue, have been sold for \$30,000.

It is rumored that fourteen lots, seven on One Hundred and Thirty-first street, and seven on One Hundred and Thirty-second street, between Seventh and Eighth avenues, have been sold.

It is reported that Messrs. Levy & Cole have sold the six four-story flat houses Nos. 136 to 146 (inclusive) West Fifty-second street, 25x65x100 each, for \$105,000 cash.

Messrs. Mordecai & Bellamy have sold two lots on the north side of Eighty-fourth street, 125 east of Ninth avenue, for \$12,000.

Messrs. Lespinasse & Friedman have sold twenty-five lots, on either side of One Hundred and Thirty-fourth street, between the Boulevard and Twelfth avenue, for \$62,000, and one lot on Fifth avenue, between Fifty-eighth and Fifty-ninth streets, fronting on the plaza, and known as the old hotel property, for \$62,500.

V. K. Stevenson, Jr., has sold the four-story brown stone dwelling, No. 67 East Fifty-third street, 20x50x 100.5, to S. W. Thomas for \$38,000

The scarcity of unfurnished houses to rent is illustrated by the fact that a four-story brown stone dwelling on Seventy-ninth street, near Fourth avenue, only 14 feet wide, has been rented for \$1,600 per annum, the tenant to pay the Croton water tax, paint and paper the house and keep it in repair.

The following are the sales at the Exchange Sales room for the week ending October 21:

\* Indicates that the property described has been bid in for plaintiff's account:

#### BUILDING MATERIAL MARKET.

BRICKS.-Common Hards are still doing well, and it is thought the market is now safely past the time when any depression can be looked for, except, possiwhen any depression can be looked for, except, possibly, of a fractional and temporary character. Consumption is full, including the wants of some of the heavy structures so long delayed, and requiring an unusual number of brick, and with an evident determination among builders to push work as near cover as possible before snow flies, the prospects for a continuous demand are very promising. It is claimed, however, that for the time being the demand is less of a stimulus to values as the scant supply, as arrivals have run moderate, and the prospects are that increased shipments will not be made for some little time to come. Manufacturers have been anxious to produce all the stock possible before it becomes absolutely necessary to shut down, and with labor scarce, the workmen were kept busy in the yards in preference to taking them off for loading and shipping, etc. Prices on the general run of stock are now named at about \$7.00@7.25, or possibly \$7.50, for Terseys; \$7.03@7.50, and occasionally \$7.75, for "Up Rivers;" \$7.75@8.25 and \$8.50 for Haverstraws, and favorite brands limited to a still higher range. Pales, also, show an upward turn, with a very strong market current, and free ready sale for pretty much everything arriving at \$4.50@4.75, with a strong probability that strictly choice lots would command even more money. On Fronts the position is well supported, and the sale free enough to prevent any surplus accumulation of stock. A dispatch received and published on Friday says: bly, of a fractional and temporary character. Con-

POUGHKEEPSIE, Oct. 20.—The last of 2,500 Canadian brick-makers went home to-night to Montreal from yards on the Hudson River. The 60 yards on the Hudson are now closed, after a production the past season of 500,000,000 bricks.

HARDWARE.—Business has been somewhat irregular, but does not appear to have lost much in volume, Interior buyers, or their representation through mail orders, are taking out a pretty full and quite general assortment of stock and there is, in many cases, an inclination to hurry somewhat, owing to the increasing cost of transportation. Complaints from manufacturers who are unable to keep up with their engagements may be heard, and on prices a full line of former figures is in nearly all cases insisted upon with much firmness. On wrought butts there is an advance with the present rates as follows: Reversible and loose joint. 50 and 10 per cent. discount; narrow, light narrow, table and back flaps, 35 and 10 per cent. Manufacturers of Strap and T. Hinges have advanced the price to discount 45 and 10 and 10 per cent. At a meeting of the manufacturers of Wood Screws there was also an advance along the entire line, and the discounts adopted are as follows:

Flat Head Iron, 35 per cent.; Round Head Brass, 25 per cent.; Flat Head Brass, 35 per cent.; Round Head Brass, 25 per cent.; Flat Head Iron Screws, Blued, 2½ per cent. advance on net. Interior buyers, or their representation through mail

LATH.—The general situation of this market is much the same as noted for some time past, sellers retaining most of the advantage and hopeful of still retaining most of the advantage and hopeful of still further gains. The distribution to consumers, it is claimed, has been very liberal and prevented any surplus accumulation in yard; more stock is continually called for to go into immediate use, and dealers are becoming somewhat anxious about winter supplies. Arrivals in the meantime at the best only fair, and if there is much afloat it is certainly offered constantly and with apparent indifference, while the full cost of trunsportation and advanced season offered receivers an opportunity for the display of much faith and confidence. Up to the present writing \$2 per M is as low as anything quotable has been sold, and on this basis the close of the market is very firm.

LIME-The market, as a rule, appears to be in very good shape, and the tendency in seller's favor. Supplies, as they arrived, found ready sale afloat, and the plies, as they arrived, found ready sale afloat, and the subsequent distribution was quite rapid, leaving scercely any surplus accumulation in dealer's hands, and giving ample grounds for the expectation that additional cargoes can be placed upon receipt. Values naturally were well supported, and, while not as yet positively higher, have a slightly upward turn, with daily expectations of an advance. Manufacturers, it is understood, have some trouble in obtaining packages, and are also compelled to submit to somewhat ncreased freight charges, and dealers are commencing to think about winter stocks.

LUMBER.—Parties desirous of finding fault might possibly pick a flaw in the market here and there, but taken as a whole the situation is healthy and the general tendency mainly in sellers' favor. The local conreal tendency mainly in sellers' favor. The local consumption shows some irregularity, especially in the building line, but the influences are evidently of a temporary character, while against this is a growing desire on the part of many dealers to add something to their accumulations in order to perfect assortments for winter use. There is also an occasional call from near-by points as buyers find that the selections they require can be obtained on about as good and in some cases better terms than nearer the sources of supply. The export demand is of an uncertain character, but considerable appears to be expected of it before the close of the year. Arrivals on contract continue to a fair extent, both coastwise and from the interior, but new engagements cannot be made except at an advance on cost laid down here, owing to the scarcity and additional value of transportation facilities.

Eastern spruce has not changed to any great extent, except that the line of valuation has narrowed somewhat, and those who noted a decline a short time ago would now probably be induced to record an advance. The truth is, however, that the very poor and unattractive goods have about all been pushed off in one way or another, and the more recent offering covered a better average of quality, with \$12.50a 13.00 inside, some fair stock reaching \$13.50@14.50, and from that up to \$15.00@17.00 for good to arrive, with

extra difficult in proportion. Specials are not being taking in any great volume and some of the mills have quite an amount of stock to come forward, but receivers say they can take care of the latter provided quality runs all attractive.

White Pine has secured some attention from exporters, and is going steadily into consumption for all or dinary purposes at full former rates. The supply in the meantime increases somewhat as dealers intending to bring stocks here for wintering are hurrying them through, but it is expected that not many additions will be made to amounts now en-route owing to the growing cost of transportation and the uncertainty regarding time of arrival from distant interior points. We quote \$18,021.00 per M for West India shipping boards; \$26.00@27.00 for South American do.; \$16.00@16.50 for box boards; \$17.00@18.80 for sound do. Yellow Pine shows much the same market as for sometime noted. Occasionally, a pretty good sized schedule is presented for estimate, but as a rule buyers are not plenty on cargo orders so far as the local outlet is concerned, and content themselves with picking out such parcels as they may require from the yard accumulation. This, of course, helps the position of the latter and is working the amount down to easily managed proportions. Foreign orders are secured to a fair extent, and at full rates. At the mills, the tone is easy and manufacturers would treat a better demand with some liberality. We quote random cargoes at about \$24.00@28.00 per M; ordered cargoes, \$26.00@28.00 do. green flooring boards, \$24.50@26.50 do; and dry do, do, \$28.00@27.50. Cargoes at the South, \$15.00@19.00 per M for rough, and \$20.00@24.00 for dressed.

Hardwoods continue generally firm. There appears to have been some poor lots of black walnut offered a little "off" on price, but good to choice stock is held quite as firmly as ever, and the amount available does not increase. Through lots for export are still reported to a fair extent. We quote at wholesale rates by car load about as follo

From among the lumber charters and engagements recently reported, we select the following

#### GENERAL LUMBER NOTES.

STATE.

Albany Lumber Market, as reported by the Argus. FOR THE WEEK ENDED OCT. 18, 1881.

FOR THE WEEK ENDED OCT. 18, 1881.

There is a good and general demand for lumber throughout the District. Stocks are in excellent assortment. The shipping movement has been free East and South at quotations; vessels, however, are wanted for Richmond, Va. Large piles of lumber in the District are sold and awaiting shipment. The receipts by canal, as our figures show, still continues free, but they are mostly of Michigan; very little Canada lumber is coming forward. Quotations for pine lumber are steadily held, and where a change is noted it is to higher figures.

At Ottawa lumber is firm in price; it is taken as fast as it arrives; as a consequence the docks are bare; all at the mills is reported to have been sold.

It is estimated that the stock to be wintered will not exceed one-half to two-thirds of what was carried last

inter.

In Hardwoods there is not any change in the tone

or the condition of the market.

Recent rains have enabled the Northern mills to make more lumber; yet all that can be made between now and the close of the season will be taken, for the demand continues very large at firm and unchanged prices

prices.

At Saganaw no heavy transactions are reported; the shipments are very free; preparations are being made to secure a large crop of logs next winter; the high price of labor and provisions does not seem to abate movements there. The shipments of lumber from the opening to October 8th are 633,900,000 feet. Freights from Saginaw and Bay City are unchanged.

Chicago reports receipts of lumber since January 1st at 1,471,000,000 feet, against 1,241,000,000 feet in 1880. The receipts of lumber by lake at Buffalo for the week ending October 17th were 11,160,000 feet, and by rail 77 cars. The receipts by lake at Oswego for the week, were 6,330,000 feet.

The receipts by canal at Albany from the opening of navigation to 15th inst. were:

Bds.&Sctl.,ft. Shgles,m. Timber,c.ft. Staves,lbs.

Bds.&Sctl.,ft. Shgles,m. Timber,c.ft. Staves,lbs. 1881... 349,226,003 7,065 1,000 6,105,000 1880... 311,683,300 4,784 5,400 638,200

530... 31,005,300 4,134 Freights from Bay City to Buffalo and Tonawanda, 3.00 per M.; from Saginaw, \$3.25. From Tonawanda o Albany, \$2.25. From Oswego to Albany, \$2.00, rom Port Hope to Oswego, \$1.25@1.50, From Otta-a to Albany, by boats, \$3.50 per M. feet.

#### THE WEST. SAGINAW VALLEY.

Lumberman's Gazette.

Lumberman's Gazette.

Bay City, Mich.

There have been no changes whatever in this market. Trade has been quiet, shippers and commission dealers being actively engaged in moving the stock already disposed of. There is no anxiety on the part of manufacturers to sell, and shippers will have all they can possibly do to forward the lumber already disposed of. Several light sales at \$7, \$14 and \$35 are reported, the uppers in these lots being of a superior quality. The ruling price continues at \$7.50, \$15 and \$35, while the better grades could readily be sold at \$8, \$16 and \$35. Shingles are in active request, the requirements of the trade being in excess of the offerings. Several sales at \$3.30 cash for XXX brands are reported. The range is \$3.15 to \$3.30 for XXX and \$2.10 to \$2.25 for clear butts. Lumber freights are steady and unchanged. The shipments continue heavy, and should navigation remain open until the middle of November the shipments of this season will probably be in excess of last season.

The preparations for lumbering this winter do not seem affected by the heavy advance in the price of labor, provisions and horses. The prospect is that an immense stock of logs will be ready for next season's cutting.

The total shipments of lumber, shingles and lath from the river for the season of the price of the

The total shipments of lumber, shingles and lath from the river for the season to October 15th were as

follows:	
Lumber, feet	658,107,186
Shingles	. 118,479,000
Lath	13,608,000
General quotations are:	
Shipping culls	\$7.00@ 9.00
Common	14.00@18.00
Three uppers	33.00@38.00

The Northwestern Lumberman reports as follows:

Chicago.

Prices for the week have been maintained at something of an advance over the rates quoted in our last report. As will be seen by the tables of receipts and shipments, the inflow of lumber has been heavy, and the fleets at the sales dock have been correspondingly large. For a day or two after our last report was written, the fleets were exceedingly large, and each night saw a large number of vessels lie over. As the week wore on, however, the number of vessels left over decreased, and while Monday morning saw one of the biggest fleets of the season at the docks, the number of sales made during the day was large, with a firmer feeling indicated by slightly better prices. This was largely in consequence of the fact that several canal boats had discharged their cargoes of grain, and were induced to take lumber. Could the lumber be carried either by canal or rail it is safe to say that an advance would be probable in cargo prices. Speculative corners in grain have induced large shipments by canal to this point, where it is worth more than at any point East; as a consequence, every warehouse is full, and cars and canal boats arriving are compelled to hold until room can be made for their loads. With the press upon ithe railways, the lumbermen have found it a difficult matter to obtain cars, and one road at least has refused to supply them with any at all. The lack of warehouse accommodation has been so great that canal boats have offered two cents a bushel off their freight rates for a chance to unload. Vessels engaged in the grain trade have offered to pay a half cent per bushel for grain sufficient for ballast to enable them to reach Buffalo, and thus obtain coal freights westward, but have been asked as high as five cents. These facts show the causes for a large amount of the recent depression at the cargo docks, for when lack of transportation is added to crowded yard docks, it is manifest that prices for first offerings must give way.

way.

Piece stuff may be said to have rallied during the week from the low quotations of our last report, and

is fully twenty-five cents stronger than a week ago. Quotations that were then made at \$10.25 to \$10.75 may now be placed at \$10.50 to \$11. Other of the coarser grades of lumber have stiffened in the same proportion. This is owing to the fact that more canal boats have been obtainable than for some weeks past, as the boatmen do not feel so anxious to carry grain which they cannot get unloaded promptly.

Select cargoes not having declined to the same extent are quoted as heretofore, and are firm, as the better grades of lumber are not plentiful at the yards. Stingles have changed but little with regard to values, although firm at \$2.35 to \$2.50 for standards, and from \$2.45 to \$2.75 for \*A\*, according to quality. The offerings since Sunday last have been very large, but Wednesday night saw the market wholly cleaned up.

Lake freights are firm, but not advancing to any great extent.

Lumberman and Manufacturer, \ Minneapolis, Minn.

The floods have been renewed in the Northwest. The Wisconsin, Black, Chippewa, Eau Claire, St. Croix and the main Mississippi are on the rampage again, and are doing great damage to the lumber interest by suspending the mills, destroying property, and rendering the timber country nearly inaccessible to the loggers, not to mention the difficulty of hand ling lumber in the ocean of mud and mire which is found everywhere. This is the most extraordinary condition of things, and the results cannot now be figured out, but it is certain that they will be of sufficient gravity to force up prices of logs and lumber during next season by increasing cost and cutting supply.

cient gravity to force in prices of logs and lumber during next season by increasing cost and cuitting supply.

The movement of lumber has been greatly hindered, but a respectable showing is made in the several markets as will be seen by the tables.

The complaint of a lack of cars is nearly universal, and seems to be the chief difficulty with the trade. Prices are firm everywhere except Chicago, where the fraternity seem to be afflicted with another attack of the sulks because they are not able to take the trade of the river cities, in which case they always resort to cut price lists as a remedy. It is well that the medicine they take only purges them not others.

Special reports from Clinton this week show a surplus of orders and a great lack of ears which is the si uation all along the line of markets. We note an advance at La Crosse on certain stuff the prices being given in their list. We also note some changes in the Ean Claire list for the better. The tendency is up everywhere since the damage and loss from floods but no general advance in prices is anticipated as yet,

#### THE EAST

A Boston journal reports:

A Boston journal reports:

The sales of lumber for the month of September show an increase over any corresponding period for a long time. Thus far the present month there are no complaints, and a good business is everywhere reported. Stocks of selected grades are pretty low, owing to the special call for this class of goods. Those dealers having a supply of choice grades are reaping a good harvest, as there is quite a little competition among buyers to secure large lots. As to prices generally, it is quite probable that they will advance as the cold months set in, owing to the increased cost of procuring labor, etc. Hardwoods continue to be quoted about the same, with a good demand.

#### FOREIGN.

The Timber Trades Journal Oct. 8th, as follows:

LIVERPOOL

LIVERPOOL.

The past week has been a quiet one, not only so far as the extent of the import has gone, but also for the slow and steady nature of the business transacted, which has not been marked by any show of animation. Spruce deals have held their position, but some other goods, such as prime yellow pine, of which there is comparatively little in the market at present, continue to advance. Should the supply of spruce deals continue moderate for a short time to come, then we may expect a further advance in prices; but this will in a great measure be discounted by the increased cost of freight and insurance, which will not leave the shipper in a much better position than he is at present.

The stock list shows that in many of the most im-

the shipper in a much better position than he is at present.

The stock list shows that in many of the most important articles imported we have a very liberal supply on hand compared with what was in stock last year at this time; thus pitch pine is more than double the quantity held in stock last year but much of this must be discounted by the fact that from its size and comparative cheapness it is rapidly superseding Baltie fir timber for general purposes, and it is being substituted for it in many ways. Hence, whilst pitch pine is rapidly growing in favor as a building wood, redwood fir is losing ground, not only from the limited sizes in which it can be had, but from the increased prices demanded for it, which seem to advance from year to year.

The public auction sales during the past week have been limited to that held by Messrs. A. F. & D. Mackay, who offered two cargoes of spruce deals, birch, &c., together with several other parcels of wood goods. There was a moderate attendance of buyers from the country, and fair competition, but there was no advance of moment made over previous sales:—

Spruce deals, St. John, N. B.—16 to 24 ft.3xil. £715s:

sales:—
Spruce deals, St. John. N. B.—16 to 24 ft 3x11, £7 15s; 16 to 25 ft 3x11, £7 12s 6d; 9 to 11 ft 3x11, £7 5s; 16 to 25 ft 3x9, £7 12s 6d; 12 to 15 ft 3x9, £7 2s 6d; 9 to 11 ft 3x9. £7; 16 to 26 ft 3x7, £6 17s 6d; 12 to 15 ft 3x7, £6 1x8 6d; 12 to 15 ft 3x7, £6 12s 6d; 10 to 21 ft 3x13, £7 2s 6d; 9 to 19 ft 3x12, £7; 9 to 22 ft 3x10, £6 15s to £6 17s 6d; 9 to 25 ft 3x8, £6 12s 6d; 0 £6 15s; 9 to 23 ft 3x6. £6 17s 6d; 9 to 24 ft 2½x7, £7; £5 17s 6d.

With deal ends—Palings, 5 ft 3x1, £3 10s per 1,200 pieces.

with deal ends—Faings, 5 15 x1, 23 18 per 1,200 pieces.

Spruce battens, Miramichi—9 to 22 ft 2x7. £7 10s; 9 to 26 ft 2½ and 3x7. £6 15s; spruce scantling, Miramichi, £6 7s 6d; spruce deals, Stramichi, 1st quality—9 to 21 ft 3x14 to 18. £13 7s 6d; 9 to 24 ft 3x11 to 13. £13; 9 to 25 ft 3x10, £11 5s; 9 to 25 ft 3x9, £11; 9 to 25 ft 3x8, £10 12s 6d; 9 to 26 ft 3x7, £10 12s 6d; 9 to 26 ft 3x7, £10 12s 6d; 9 to 26 ft 3x7, £10 12s 6d; 9 to 27 ft 3x14 to 18, £9; 9 to 25 ft 3x12, £9; do. 3d quality, 9 to 24 ft 3x 7 to 19, £6.

Birch timber, St. John, N. B.—20 in. and up. 22d per ft. 18½ and under 20 in. deep 19½d to 20½d do; 18 do 18½ do 19d to 19½d to 20½d do; 18 do 18½ do 19d to 19½d do 16 do; 15 do 15d do; 14½ do 14½d do; 13 do 16½d do; 13½d do; 13½d do; 14 do 14 do 4d do; 13½ do 153½d do.

NAILS.—Business has been a little irregular and the distribution in some instances shows a falling off. Still there is apparently nothing positively discouraging in the general situation of the market and dealers

mg in the general situation of the market and dealers generally speak cheerfully, while on prices they look for full previous figures.

We quote at 10d. to 60d., common fence and sheathing per keg, \$-@3.40; 8d and 9d, common do, per keg, \$3.95; 6d and 7d, common do, per keg, \$3.99; 4d and 5d, common do, per keg, \$4.15; 3d, per keg, \$4.90; 3d, fine per keg, \$5.65; 2d, per keg, \$5.65. Cut spikes, all sizes, \$3.65; floor, casing and box, \$4.15@4.90; finishing, \$4.40@5.15.

CLINCH NAILS.

1½ inch, \$5.90; 1¾ inch, \$5.65; 2 inch, \$5.40; 2½@2¾ inch, \$5.15; 3 inch and longer, \$4.90.

PAINTS AND OILS.—The demand has not as a rule been active, yet in one way and another a goodly

amount of stock finds an outlet and sellers do not have to modify their views to secure customers. We have to modify their views to secure customers. We hear complaints of an absence of whiting and values are a little nominal for want of testing sales. Red lead, orange mineral and ochre also show a small stock in first hands. Of other goods a fair amount can as a rule be found, but no great surplus, and values generally remain steady. Linseed oil is firmly and confidently held in the majority of cases and secures a satisfactory amount of attention, though business is not unusually liberal and a concession would probably be necessary to increase the amount of supplies. We quote at about 60@63c. for city and 64 365c. for Calcutta from first hands.

PITCH.—A fair general trade is doing on the ordinary outlets for stock, and the market, as a whole, preserves a steady, uniform tone. Supplies about balance the call. We quote at \$2,25@2.30 per bbl. for city delivered.

SPIRITS TURPENTINE.-A steady movement of small lots into consumption reported and business reasonably full. Buyers have gained a trifle of late, but the shrinkage is comparatively small. On the wholesale market there was quite a break under the

influence of decided weakness at primary points, and a strong desire to realize upon the accumulation here, but latterly the tone has been better again with some recovery from the lowest point. As this report is closed the quotations stand about 52 2 54c. per gallon, according to quantity of stock handled.

TAR.-A good, fair trade is reported for small lots on consumption account and at uniform rates. From first hands the distribution is a little slow, but holders unwilling to shade on cost. We quote at \$3.5 @3.75 per bbl. for Newberne and Washington, and \$3.50@ 3.87½ for Wilmington, according to the size of invoice.

#### CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur. pre-ceded by the name of the grantee they mean as follows: 1st—Q. C. is an abbreviation, for Quit Claim deed i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or war-

the grantor is conveyed, omitting at covenants or war-ranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

JUDGMENTS	_

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (I) means judgment for deficiency. \*\* means not summoned. Judgments entered during the week and satisfied before day of publication do not appear in this column, but in list of Satisfied Judgments.

#### BOARD OF ASSESSORS.

Report for the quarter ending September 30, 1881.

Report for the quarter ending September 30, 1881.

At the date of last report (June 30, 1881) there were ninety-one assessment lists on hand, amounting to \$2,052,054.68, which, with thirty lists received up to September 30, 1881, make a total of 121 lists, amounting to \$2,150,316.65.

Thirty-eight assessment lists, showing a total of \$133,068.39, were made up and advertised in conformity to law, and transmitted to the Board of Revision and Correction of Assessments for confirmation, leaving still in this office eighty-three lists, amounting to \$2,017,247.82.

#### ADVERTISED LEGAL SALES.
