The Record and Guide.

THE RECORD AND GUIDE,

Published every Saturday. 191 Broadwav, N.Y. Our Telephone Call is JOHN 370.

TERMS:

ONE YEAR, in advance, SIX DOLLARS.

Communications should be addressed to C. W. SWEET, 191 Broadway.

J. T. LINDSEY, Business Manager.

| Vol. XXXVII. | MAY 8, 188 | 36. No. | 947. |
|--------------|---------------------------------------|---------|------|
| | · · · · · · · · · · · · · · · · · · · | | |

The disturbances at Chicago, Milwaukee and elsewhere are not calculated to help the general business of the country. The stock market recovered somewhat after the news came of the Anarchist demonstration in Chicago. The street reasoned, and very correctly, that the mass of the workingmen would disavow the use of bombs and fire-arms in their war with organized capital, and that strikers would be discouraged and strikes less frequent hereafter. But after all a check has been given to business, and as confidence is a plant of slow growth it will take time to beget a feeling of hopefulness in business circles. There seems to be no abatement in real esta'e dealings. The number of convevances show an increase of fully one-third over last year, but undoubtedly there has been a check given to the filing of new plans for house construction. If, however, the buying movement continues and the labor disturbances come to an end there will be a renewal of the building movement in the early fall, if not before.

The correspondence we publish between the editor of this paper and the Chief of the Bureau of Statistics will be read with interest not only by owners and dealers in real estate, but by the leaders of the financial world as well. Up to this time there has been no means of ascertaining the figures which would tell the story of house construction year by year. The amounts spent for lumber, brick, mortar and the other materials which enter into building operations are unknown. It is only a few of the larger cities which have building departments. There is no supervision over house construction outside of !ess than a dozen centres of population. The Chief of the Bureau of Statistics admits the desirability of collecting this information, but he thinks it should be done by the Labor Bureau. This is a matter of detail, however, which is not worth discussing here. The great point is to have the general government collect building statistics as it does figures relating to crops and the movements of our international trade. It may be necessary to memorialize Congress for legislation directing some department to attend to this matter.

What a foolish business this Third avenue strike was on both sides. The company, according to the majority of the Railway Commissioners "precipitated a conflict" rather than pay the ten dollars a day which they had agreed to do in March, and must have lost by the strike over \$80,000, and besides will have to face the permanent ill-will of the laboring people on the east side of the city, who have been their principal patrons. The employés were equally unwise, for they have lost very much more than they would have gained had the strike succeeded. How much better it would have been to have referred the matters in dispute to an impartial tribunal. No matter what the decision had been, both sides and the public would have been the gainers.

President Cleveland has commenced vetoing, and he is likely to use that prerogative frequently as the session comes to a close. He and ex-Governor Cornell gained a great deal of undeserved applause by their vetoing of all acts of the Legislature, good and bad. The President's veto of the Dos Moines bill seems to have been entirely indefensible. It merely provided for sending a matter to the courts which should have been legally determined twenty years ago. Of course he will veto the River and Harbor bill when it passes. Ex-President Arthur got unbounded praise for vetoing an excellent River and Harbor bill, and the present executive will expect a good deal of cheap applause in negativing a series of appropriations, the great bulk of which are not only unobjectionable, but are for improvements of rivers and harbors which are very much needed.

The cable rate war is an interesting one, and the public ought to profit by fuller news from the other side of the ocean as the press charge is only six cents a word. Although the stock of the consolidated cable companies is heavily watered, the old monopoly has yet several advantages over the Mackay-Benuett cable. It is clear of debt for one thing, while the rival enterprise carries a mortgage of three million dollars. Then the feeders, how in Europe and

America, to the consolidated cable companies are far more numerous than can be controlled by the Mackay new cable. If the fight continues it looks as though the younger company will be forced to the wall. The true solution of the ocean cable problem is for all the submarine telegraph wires to be put under the control of an international commission and the service so organized as to confer the greatest possible benefits on international commerce and communication. The rates should be established so as to pay running expenses and provide a fund for new construction and repairs. These occasional wars between rival telegraph and cable systems do not permanently advantage any business interests.

While the State Senate has passed the bill providing for the indexing of New York realty by lots nothing has been done with the bill shortening the forms of deeds and mortgages. The Land Transfer Commissioners unanimously recommended this abbreviation of legal forms, but our Albany correspondent says there is no reason to believe that it will be touched this session. Yet no one can read a deed, bond or mortgage, or even a lease, without being struck with the unnecessary verbiage. Our records are piled up in monstrous volumes because of the verbosity and tedious prolixity of the legal forms now in use. But this waste of words is profitable to clerks, copyists and small legal concerns. Hence the burking of the bill to effect this very necessary reform. Will not some member of the Legislature try and get a vote so as to put the responsibility upon the members who are opposing this needed reform. The action of the Assembly on Wednesday looks as if nothing will be done in the way of land transfer reform during the present session.

The Improvement on the West Side.

For years previous to the building movement now going on west of Eighth avenue and north of Fifty-ninth street, that region had seemed to the veterans of the real estate market like a field on which a gallant effort had once been made, and a hard-fought battle lost. The prices that had at one time been realized for lots on the Boulevard and the streets crossing it seemed almost fabulous in the retrospect. The west side is naturally the handsomest part of the island; and the Riverside Drive, the Grand Boulevard and other improvements show the efforts that had been made to convert it into a fashionable quarter by a liberal use of money. Even the west side of Central Park has a wider drive than the east, and shows in other ways the wish of its designers to make it especially attractive. Yet those whose money was invested in that district in the times when its expectations were the greatest were severely disappointed, and a large proportion of them were driven out of the field long before the present improvement commenced.

When the recent hard times began to relax, and real estate seemed likely to show a little activity, much of the attention of investors and buyers was turned to this long-neglected part of the city for various reasons. The most important of these lay in high and firmly-established prices of building lots on the east side. It is long since there has been much building of dwellings for the sake of the rents on that side, and the greater number of them have been built for sale to parties intending to occupy them. Fifty thousand dollars is a low price for a home in a genteel neighborhood on the east side of the city, and in a great many cases the house alone has cost more than that sum. It is evident that in such a situation of affairs, many people with moderate means, who had been condemned to live in flats and boarding-houses, would be glad to improve an opportunity to own houses in a quarter of the city that should be tastefully improved by capitalists whose methods in selling would afford a guarantee of good surroundings, and where an expenditure of \$20,000 to \$25,000 would secure the lot and building. Investors, too, who were tired of holding bonds that returned less than five per cent. on the value, saw that lots west of the park, judiciously improved, would afford them much larger incomes.

It is said that in the history of nations, when the hour of destiny has struck, the man that the time demands always appears on the scene. It is fortunate that men of the right kind to direct a newmovement were at hand, when a beautiful quarter of this city only needed the capitalist with the quick intelligence and courage to build and improve, in order to awake to a growth and thrift to which it had long been unaccustomed. Good judgment has been shown by owners and builders, almost without exception. Lots have usually been sold with carefully drawn stipulations as to the character of the buildings to be erected. The taste and tact of the architects who have designed these is very marked, and is giving a distinctive and very pleasing character to that part of the city. The styles adopted are in very many cases decidedly novel as well as tasteful, the effects being homelike as well as artistic. The designs have won the approval even of people of very old-fashioned and conservative ideas, not only by their beauty and variety, but by the good judgment and originality often shown in the ground plans and all the arrangements for convenience and comfort as well as luxury. Tt is already certain that the west side will be architecturally, as it is naturally, the most picturesque part of the island. The east their long lines of brown stone fronts and plate glass windows; but the region west of the Park will be built up in varied styles, showing the genius of young architects full of bright and tasteful ideas, and the characteristic American tact which is not to be defeated in any field in which it has a fair chance.

A few figures will give the best idea of the work that has lately been completed and that which is now going on. An examination of the plans filed in the Building Department for the year ending April 1, 1886, followed by a visit to every building and site in the list of those that are west of Eighth avenue, from Fifty-ninth street to One Hundred and Twenty-fifth street, enables us to present the following tables, which include all but public buildings and a few miscellaneous small buildings for various purposes:

| PRESENT STAGE OF BUILDINGS AND PROJECTIONS. | |
|---|-----|
| Not yet commenced | 66 |
| Unfinished | 426 |
| Finished and for sale or rent | 114 |
| Sold or rented | 126 |
| | |
| Whole number of buildings and projections | 732 |
| CLASSES OF BUILDINGS. | |
| Three-story dwellings | 375 |
| Four-story dwellings | 164 |
| Flats | 59 |
| Tenements (many of which include stores) | 134 |
| COST. | |
| Buildings costing less than \$10,000 | 84 |
| Buildings costing \$10,000 to \$20,000 | 480 |
| Buildings costing \$20,000 to \$35,000 | 149 |
| Buildings costing \$35,000 to \$50,000 | 19 |
| | |

The total value of these buildings when completed may be roughly estimated at \$12,000,000.

Among the buildings for public and benevolent purposes now in construction are the Home for the Destitute Blind, the Methodist Old Ladies' Home, the Armory of the Twelfth Regiment and the College of Physicians and Surgeons. The improvement centres a good deal in the neighborhood of the stations of the elevated roads. Every one knows the handsome character of the improvement of Seventy-second and Seventy-third street, the former of which may show the builders the way to the Riverside Drive, which commences at that street. Most of the beautiful sites on this road are still unoccupied, and the good taste of those who have selected it is thereby rendered conspicuous at the expense of their purses. A line of light coaches such as is proposed for Fifth avenue might be a good investment for owners of property on this street.

Though building is active in the districts which we have been considering, there is no craze such as has more than once prevailed in the past, when it was carried on as if the demand was insatiable, and reckless loans resulted in the ruin of builders, and often in serious loss to the lot-owners. The movement has been full of hope and courage, but characterized by a steadiness which betokens only good results to the laud-owners, the builders and the public. It would seem that the true use and value of this beautiful quarter of the city are at last appreciated, and all New Yorkers will wish that the improvement may go on with benefit to everybody concerned in it.

It is not to be disguised that there is an impression among conservative builders that taking the city through there is more building than is warranted by the demand for new houses. Since January 1st, plans have been filed to erect five structures where less than three were projected in the same length of time in any former year. Now while it is quite true that New York is growing there is no reason to believe that the ratio of increase is much if any greater than in former years, and hence it follows that there is danger of a surplus of houses when those under way or shortly to be commenced shall have been completed. Of course the greater number of these new houses will be on the west side, and builders may find it more difficult to sell than construct them. Hence there are those who believe that the check given by the labor troubles to building operations is a wholesome one. Builders of course will gladly execute any order given them by an investing capitalist, but they should be careful not to build on speculation or put more new houses in the market than they can hold until they are sold.

The decision of the Court of Appeals justifies the position always taken by THE RECORD AND GUIDE, that the bonds which had been paid could not be regarded as a part of the debt of the city. There are some fictions in book-keeping and a great many in law, but the object in every case is to get at the truth. The Corporation Counsel and the lower law courts were deceived by technicalities in regarding the paid-up bonds as a municipal liability, and the Court of Appeals is to be congratulated upon taking a common sense view of the matter instead of a technical one. Measures should now be taken to cancel a great part of the paid-up bonds. It is not safe to have a mass of securities in existence which may be reissued. There is no sense in keeping alive a dead bond. This may seem like an Irish bull, but it correctly represents the present condition of many of the so-called securities in our sinking fund. The debt we really are liable for is some ninety-two millions of dollars. There is now a sufficient margin between what we actually owe and what the State constitution prevents us from borrow

ing to make needed public improvements. We want new schoolhouses, more docks, more street openings; and then we should pay for the new parks north of the Harlem. Some eight to ten millions of dollars are now asked for these necessary outlays, but we hope that the press and the public will insist upon economy in all new expenditures. When we urged the cancelling of the fictitious debt it was not to open the flood-gates of unwise expenditure. A close watch should be kept upon the appraisers having in charge the assessments for the new parks. The city will pay too much for the condemned lands, of course, but, in the name of the taxpayers, we protest in advance against excessive valuations. Mr. Luther R. Marsh and his associates must see to it that the new parks do not cost more than their original estimates, when the matter was first brought to the attention of the public.

Real Estate Statistics.

The tables which follow, showing the conveyances for the past four months compared with corresponding months of former years, also the projected buildings making similar comparisons with former tables heretofore published, throw a great deal of light upon the real estate situation. A study of these figures makes clear the fact that the real estate movement, both in building and trading, has been larger than in any previous four months in the history of the city. The conveyances down to April 30th were 5,129, against 3,996 in the first four months of 1885 and 4,494 in the first four months of 1884. Then, the consideration given shows that in the first four months of this year there was \$98,026,834 expended in real estate purchases, against less than \$65,000,000 for the same period last year and \$74,000,000 for 1884. The April of this year shows a much larger business than in any of the previous three months. But then the largest number of transactions always take place in April and May. One very reassuring fact in the following table should be noted. In 1884 the proportion of mortgage liabilities to the total consideration was about 56 per cent.; in 1885 it was 54½ per cent., while in 1886 it was only 48¾ per cent. This shows how solid has been the buying of real estate recently. Α great deal of cash has changed hands and the indebtedness is less because more people have bought outright or put up larger margins than was usual in times past. Another fact to be noted is the increase in the number of mortgage loans at less than five per This is another proof of the substantial character of the cent. Clearly the purchasing of real estate is for investment, buying. not speculation. The following table of conveyances and mortgages tell their own story:

*Includes transfer of N. Y. & Brooklyn Ferry Co. for \$3,000,000. ‡Includes mort, of same for \$1,000,000.

Turning to the building statistics the same activity, as compared with former years, shows itself. For the four months just past 1,536 new buildings were projected, the estimated cost of which is \$24,816,243. Last year, for the same period, the number of projected buildings was 1,119, which were to cost something over \$16,000,000, while the new buildings planned in 1884 for the first four months was 967, costing \$15,727,000. From the tables we give it will be noticed that the business of this year, both in transfers and new buildings, was about one-third greater than last year. But it is also to be noted that the April business in building falls off somewhat relatively as compared with former months. The nference we draw is that a check has been given to excessive building and it would not be surprising if next fall should show some falling off as compared with former years. The analysis which we give in the following tables show in what parts of the city new construction is going on, and it furnishes a hint to dealers where vacant lots are most likely to be in demand.

The Annulment of the Broadway Railroad Franchise.

Ex-Lieutenant-Gov. Dorsheimer, in the *Star*, of which he is editor, denounces the three bills intended to annul the Broadway charter as being "a disgrace to New York." In taking this position he stands almost alone among the New York editors, who must be credited with having secured the passage of these bills. Albany correspondents agree that two-thirds, if not three-fourths of the legislators who voted for them believe they are unconstitutional and should not have been passed, but had they voted according to their convictions they would have been attacked as being in the pay of Jake Sharpe.

In denouncing these bills editor Dorsheimer speaks with no bated breath. As his views are peculiar, we give them in his own language.

"So far as we can remember no disgrace so deep as this has ever fallen upon a civilized community.

"Let us state the matter: The Board of Aldermen was bribed; the bribers were the officers of a corporation created by our laws, and for these acts the Legislature has forfeited the charter of the corporation.

"So far as this measure is in punishment of the crime, it is a punishment inflicted before conviction, and worse, if possible, than that, it is a punishment not provided by the law. It is an act of tyranny the most odious that can be inflicted upon free men, the imposition and the enforcement of an expost facto law.

"But it cannot be a punishment for crime, for it does not reach the guilty persons. It reaches, so far as is known, only the holders of the securities of the corporation.

"They are, in law and in fact, innocent holders. They have bought the bonds in open market; they paid more than their par value for them. Some of them are residents of other States and cities. Some are institutions for guarding the savings of the poor. Others are women, and the trustees of estates. Upon their heads alone falls the only punishment which these laws inflict upon any one. Thus not only do the guilty escape, but the innocent are made to suffer.

" If it should happen, as is likely, by reason of the discredit that attaches to the testimony of informers, that the bribe takers are not convicted, why then the only persons who will suffer any punishment whatever will be these purchasers, who, trusting to our honor and good faith, and to the just administration of our laws, made their purchases in the open market.

"For whose benefit is this monstrous iniquity accomplished? Why, it is for our benefit. These laws provide that the forfeited franchise shall be sold to the highest bidder, and that the proceeds of the sale shall be paid into the city treasury. On account of crimes committed by officers whom we elected, and who were our representatives and acted for us and in our name while committing the guilty act, we take the property of others and turn it to our own use. As between us and the holders of the bonds we are the guilty ones, and we make our crimes an excuse for robbing them. Surely one needs to descend deep into the archives of human infamy to find an example fit to go with this.

"Is there no defense? We answer there must be one. Some court informed by the high spirit of Marshall or of Nelson will deal with these laws as they deserve."

This is rather strong, perhaps, but the points made it would be factory to employers of labor. How well to keep in mind. If Sharpe should not be punished—if the eight hour movement is a wise one?

Aldermen are not found guilty, and if the Court of Appeals should declare these laws to be unconstitutional our daily press will cut a very discreditable figure. We are inclined to believe that the lawyers will be the only ones benefitted by the laws just passed. It was clearly they who pocketed most of Jake Sharpe's money. Sharpe will be bled again, of course, but the legal leeches will, in addition, have a chance at the treasury of the city. The lawyers' bill for helping the Senate Committee is \$48,000.

Our Prophetic Department.

EMPLOYER-What will be the result of these disputes as to wages and shortening the hours of labor?

SIR ORACLE—I should say the inimediate result will be hurtful to the business of the country. Employers, like yourself, will become timid, and will not engage in new enterprises or extend their old lines of trade, hence I think there will be more idle men than there should be during the coming summer; while producers will not be as well satisfied as they might be, because of their inability to keep stocks of goods on hand. Then I judge the stock market will be affected unfavorably. People will reason that the shorter hours, the higher wages and the enforced idleness will check production, and hence the railroads will not have as many goods to handle. Therefore capitalists will not be disposed to hold large lines of stocks.

EMPLOYER—But the conditions may change, and that very shortly. Stock operators have short memories and only recognize existing facts. But it is not the price of stocks in which I am interested. We people who hire labor desire to know if it is likely that this striking mania will continue; also, will the hours of labor be permanently shortened? If we increase the cost of the production of manufactured goods on this side of the Atlantic it will put us at a still greater disadvantage with European manufactures, and our tariff, high as it seems to be, will be inoperative in keeping out the far more cheaply-produced goods of Europe. It will be ruinous if we increase the cost of production, which it seems to me would be inevitable with higher wages and shorter hours of employment.

SIR O.-Nevertheless, I but repeat a belief now current in business circles that the time is not distant when eight hours will be as generally a day's labor as ten hours has been for years past. The drift of things is all in that direction. A half a century ago the working people very generally were kept at their tasks for fourteen and fifteen hours a day. In the factories of England, even the women and children were pressed in and worked in a way which would now be considered inhuman. The Parliament of Great Britain had to interfere on the behalf of the laboring people. Children of tender years were prohibited from working, while the hours of labor for men and women were reduced to ten. In this country the early closing movement, the demand for a half-holiday on Saturday and the multiplication of holidays is all in the direction of less work for all classes of our people. When I was a lad there were only two holidays in the year-New Year's Day and the Fourth of July. Now we have Washington's birthday, Good Friday, Decoration Day, Thanksgiving and Christmas in addition. In years past all classes of Americans worked in a way that would be considered excessive in England and on the continent. But the present generation has its outdoor sports, which involves many idle days in the course of a year. The civilized world is taking life easier.

EMPLOYER—But won't we in this country lose what business we have if we create conditions which make production more costly than it is now?

SIR O.--I can see a serious objection to the eight hours demand in the case of large factories, where a costly plant would be kept idle for sixteen hours out of the twenty-four. Why not take advantage of the electric light and work the laborers and mechanics in shifts or sections, as is done in many mines throughout the country. The electric light is an excellent substitute for daylight. In former conversations I have held that this brilliant illuminant would some day effect a revolution in our industrial habits. What sense is there now in people working in midday during July and August. The labor could be far more easily performed in the cool of the morning or in the evening, or, better still, during the night. The electric light solves the difficulty. There need be no waste of plant and no loss of time if the working people are employed in shifts, outdoors as well as indoors. We ought to turn night into day more than we do. Photographers, dentists, and scores of other professionals could ply their craft quite as well in night as during day time. I could never see why our police magistrates, or a portion of them, should not sit during the night. It should be considered illegal to lock a man up without an examination by a magistrate. If a person is falsely arrested at seven o'clock in the evening he is now locked up all night to consult the convenience of a high-priced police justice.

EMPLOYER—I do not think the views you express would be satisfactory to employers of labor. How can you convince me that the eight hour movement is a wise one?

EMPLOYER-Do not the scenes in Chicago during the past week recall the prophetic warnings of Macaulay, who said the time would come when our institutions would be severely tested by the mobs of unemployed and hungry workmen in our large cities. What is to prevent a recurrence of the scenes recently enacted in St. Louis, Chicago and Milwaukee?

SIR O.—The American people will, I think, be able to grapple even with more serious problems. THE RECORD AND GUIDE has suggested one way in putting a stop to strikes on railway lines for all times. This was to make the conductors, engineers and brakemen a part of the police of the nation. Let them be under the regulation of the government and wear its uniform. Employés of a nation never strike. Employers of labor outside of railway circles could easily handle the operatives they employ if the transportation system of the country was uninterrupted by dissatisfied work-people.

EMPLOYER-The railroad managers would not consent to any programme which involved a surrender of their control of the men they employ. Is there no other plan to put a stop to strikes?

SIR O.-Yes; but you employers will never consent to it of your own free will. The work-people themselves will never strike if they are organized into powerful unions. Some thirty years ago there was a great engineers' strike in England. It was a bitter contest; but there has never been a strike since, simply because of the perfect organization of the "amalgamated engineers." Jay Gould gets the credit of beating the Knights of Labor in Texas. That strike really came to naught because the engineers, under the control of Chief Arthur, would have nothing to do with the Knights of Labor. Had the engineers and firemen joined the malcontents Jay Gould would have been brought to terms in two days' time. But the Brotherhood of Engineers never strike until all other means of settlement are exhausted. Nor are these industrial wars found necessary in trade organizations which are under good discipline and which are national in their character. The really serious trouble is with the unorganized or half-organized laborers confined to certain localities. If employers were wise they would, like Andrew Carnegie, encourage the formation of labor unions. But that the mass of employers will not do. They look upon the unions as natural enemies, and hence strikes and lockouts will continue.

EMPLOYER-Are you disposed then to take a hopeful view of the outlook of industry?

SIR O.-I confess to having the gravest doubts as to the future. We may have a little flurry in stocks and improvement in business after the scare is over, but a real estate fever and demands for more wages by working men usually precedes a collapse. Then the demonetization of silver and the scarcity of both gold and silver is so narrowing or rather shortening the measure of values that the distant outlook is to me gloomy in the extreme.

EMPLOYER-What would be the cure for a shrinkage of the measurer of values?

SIR O.-The rehabilitation of silver as a money metal and a larger production of the precious metals on some financial plan that would add to the stock of real money for use in the commercial world. But I see no prospect of securing any betterment in the general business of mankind.

The proposition to widen Elm street and to open a new thoroughfare parallel with Broadway, from Brooklyn Bridge to Harlem River, would, if put to vote, be indorsed by five-sixths of our city property-holders. Of course, all interested in Broadway property would object, for the reconstructed Elm street and its continuaations would naturally take a great deal of the travel and business which is now monopolized by Broadway. But this one selfish interest should not be considered. A new thoroughfare such as has been planned is fast becoming a necessity in view of the engorgement of the traffic and travel at the lower end of the island. Not only should Elm street be widened and continued up to the upper part of the island, it should also have surface cars and elevated cars to accommodate not only the Brooklyn travel but the local wants of passengers along the new route. By all means let this improvement be authorized forthwith.

Building Statistics Called For.

Wm. F. Switzler, Chief of Bureau of Statistics, Washington, D. C.:

DEAR SIR-Could you suggest some way by which building statistics for the whole United States could be gathered? Outside of a few of the leading cities there are no building departments which keep a record of new structures and their cost, nor is there any supervision of the work done by the local architects and builders. We have sent letters asking and offering to pay for building statistics to mayors, county clerks and other local officials, but have found it impossible to get any data outside of a few of the leading cities of the Union.

While earnest and successful efforts have been made to secure trustworthy figures relating to the trade of the country, to its yearly productions of grain, cotton, wool and petroleum-while we know to a mile the length of new railway construction by the week and month-we are entirely in the dark as to the number of new houses erected year by year and their cost; yet the amount involved must be larger than that expended in the building of new railroads. The periodical depressions of business in this country, as well as in England, have been traced to floating capital being changed to fixed investments by excessive railway construction; yet, so far, financial economists have failed to recognize that excessive building of houses has the same result.

Will you kindly let us know if there is any necessity,"for Congressional legislation to empower you to collect these building statistics? At the same time it would also be desirable to know the amount expended yearly in brick, cement, lumber and the other materials which enter in house construction. On these subjects there are estimates, but no trustworthy figures. Very respectfully, Editor RECORD AND GUIDE.

TREASURY DEPARTMENT, BUREAU OF STATISTICS, WASHINGTON, D. C. April 30th, 1886.

Editor RECORD AND GUIDE:

DEAR SIR-I am in receipt of your letter of the 28th inst., in regard to the collection of building statistics for the whole United States each year.

There is no existing law by which such information can be collected. If collected by the government it will be necessary for the passage of a law prescribing the manner in which it will be done, and the appropriation of a sufficient sum for that purpose. Such statistics if collected will be very interesting, instructive and useful.

As this subject is more closely connected with that of labor than of commerce, to which the duties of this office pertain, I suggest to you to address a communication upon the subject to Mr. Carroll D. Wright, Chief of the Bureau of Labor, in this city.

There is now a proposition about to be submitted to Congress on the part of those interested in the labor question, recommending a Department of Labor. The collection of statistics suggested by you would naturally fall under the direction of such a department if created.

WM. F. SWITZLER, Chief of Bureau. Very respectfully,

Concerning Men and Things.

Theodore Roosevelt is making for himself a kind of reputation which may help in the political career which it is to be hoped lies before him. He did himself great credit as a legislative reformer. He gained the approbation of all kinds of men in what he did at Albany. He showed tact, judgment and executive ability while his integrity was never impeached. Since his retirement from active politics he has spent his time on the plains, where he has managed a large cattle ranch and achieved quite a reputation as a hunter. He has shot deer and buffaloes, diminished the number of grizzly bears, and one of his recent exploits was to capture a number of cattle thieves with a smaller force than the outlaws, who were handed over to justice. Then Mr. Roosevelt has written picturesquely and instructively about matters on the plains. The adventurous life he has been leading will not detract from his popularity should he come before the voters again for their suffrages. The plain people, as Mr. Lincoln called them, always admire a sporting gentleman of the right type. Mr. Roosevelt ought to be made Mayor of New York, and after that would be a good candidate for Governor.

Mr. Jay Gould has to pay for his prominence as a financier. Morosini acted for years as his body guard to protect him from personal danger. It is understood that recently he never ventures into the street without his son and an armed athlete being very near him. Rich men do not in this or any other country always lie on a bed of roses. Apart from the worries, incident to the management of a great fortune there are personal enmities and public dangers which they are forced to face, and from which ordinary people are exempt. An operator like Gould must have interfered with the plans and reduced the bank accounts of thousands of high-strung passionate men, and it is surprising that some crank has not made his appearance in Wall street to avenge real or fanciful wrongs in connection with stock operations.

The latest device to attract the attention of passers-by to shop windows is what is termed "the electric tapper." It consists of a hand-painted figure about eighteen inches high, of any unique design that may seem desirable. It is suspended in the middle of the plate-glass window by wires from the top, which are connected with a battery which causes the arm of the figure to keep up a constant sharp rapping upon the pane. In an optician's store on Broadway, where one of them is exhibited, there is also a figure of the "Three Little Maids from School," with a similar attachment, which shakes their heads in the inimitable manner which those young ladies do in the "Mikado."

The exodus to Europe promises to be very large this season. The best cabins of all the first-class steamers are engaged up to the middle of June, Brass lamp-shades in open work with a lining of red glass are pleasing | and a good deal of American money will be spent on the continent and in

Great Britain this summer. Fortunately the dreated cholera has not put in an appearance in any of the haunts of American travelers. A few cases are reported in Spain and Italy, but so far the pestilence has not made its appearance north of the Pyrenees and the Alps. It is curious to note that in the first visitations of cholera, before the railroad era, it traveled steadily and swiftly from one country to the other, but notwithstanding our more rapid steam communication of recent years the cholera does not spread as of yore. It has been expected for the last two summers in Central Europe: but, so far, has not come.

New Features in the Real Estate Exchange.

A bureau of real estate information will soon be opened in the Real Estate Exchange. It will be under the supervision of Mr. Hugh F. Dolan. A good sized room has been set apart on Liberty court, on the ground floor of the Exchange building, and in about two month's time it will be found filled with maps and reference books of the utmost value to all who buy and sell improved or unimproved property within the city limits. Any stock or annual member who wishes to know about property in any part of the city, who are its owners, what was paid for it and when the taxes. assessments, improvements in its neighborhood, etc., will be promptly and accurately answered by Mr. Dolan. Provision will also be made for supplying stationery, contracts and other facilities for members of the Exchange who wish to transact business within its walls. Active members will be permitted to have letter-boxes in which they can receive their mail. The Information Bureau of the Exchange has been steadily growing in favor. Since January over 1,300 inquiries bave been made respecting real estate. Sometimes dealers want to know who owns a certain parcel. In other cases a client of a member wishes to find out if there is an asse sment on his property or whether any action of the Common Council is likely to render him liable to an assessment. But the full value of this department of the Exchange is not yet realized. Of course subscribers to THE RECORD AND GUIDE do not need the information, as it can be found in the pages of this publication by those who have been wise enough to keep files. But careless people will find this bureau at the Exchange handy to furnish real estate information which is often very valuable.

It is supposed, and with some show of plausibility, that these newlydeveloped features, when known, will largely increase the annual membership of the Exchange. It has become the natural headquarters of real estate dealing, and brokers who do not belong to it are at a serious disadvantage. The room soon to be opened will naturally be a meeting place for those who wish to seek information, to draw contracts, and to do other business.

At the last meeting of the directors it was announced that every room in the building had been rented, and that the income from this source would be nearly \$3,000 more for the coming than for the past year. The total of the rentals will be over \$26,000, while the auction room will probably bring in \$10,000 more. There are over sixty annual members, all but a few of whom pay \$60 per annum.

It is not improbable that a semi-annual dividend will be declared, payable in June. There is money enough to pay 2 per cent., but the Board of Directors is conservative, and some of its members are opposed to paying any dividend. If one is paid it will probably be the same as the one declared last December—that is, $1\frac{1}{2}$ per cent. The Real Estate Exchange is the only one in the country that declares dividends, all the others levy assessments on their members for the privilege of doing business within their walls.

It should be borne in mind that the expenses of the Real Estate Exchange have been much greater this last year then they will be in the future. It is the first steps that cost in founding any institution. The time is not distant when, if the annual members increase in number, the dividends will be more than doubled.

Real Estate Exchange Committee on Legislation.

The regular weekly meeting of this committee was held Monday afternoon, the following members being present: Messrs. James M. Varnum, chairman; William Crnikshank, W. C. Orr, Leonard J. Carpenter, Thos. F. Murtha, C. A. Andrews, Myers S. Isaacs, and George H. Scott, secretary.

There was very little business transacted, the most important being the announcement, made by Mr. W. C. Orr, that the County Clerk Search bill had become law, and had been signed by the Governor. Under its operations searches would be now returned in ten days.

Mr. Scott wished to know whether a search could really be obtained in ten days.

Mr. Orr replied that it could be secured in two days if the "expedition fee" was paid.

A motion was then made that the thanks of the Committee on Legislation be extended to Messrs. W.C. Orr, Myers S. Isaacs, John T. Lockman and C. N. Bovee, Jr., for their efforts in securing the passage of this bill. Carried.

The chairman stated that it was his intention, next Monday, to lay before the committee the amount and nature of the work which had been done by the various sub-committees during the time the Legislature had been in session at Albany.

The committee then adjourned.

New Members Proposed. stockholders.

W. H. Benjamin, real estate, No. 61 West One Hundred and Twentyfifth street. Proposed by M. Littman, seconded by L. W. Phillips. John Hoge, soap manufacturer, Zanesville, O. Proposed by John M. Jones, seconded by George F. Gantz.

The First Congregation of the Society of Humanity have purchased the five-story brick and stone front private dwelling No. 28 Lafayette place, near the Astor Library, for \$40,000. The dimensions of the building and lot is 30x65x150, and it will be utilized for meeting and discussion in con-

junction with the society. The congregation has only recently been organized, and is composed of persons who are adherents, more or less, of the Positivist doctrines of the great French philosopher and scientist, Auguste Comte. The president is Courtlandt Palmer, the well-known founder and organizer of the Nineteenth Century Club. Among the trustees is Thaddeus B. Wakeman.

Home Decorative Notes.

-The reign of yellow is not over yet, notwithstanding the popularity of this color during the winter. It is still shown in great profusion for decorative purposes. Yellow of a pure tint is very beautiful in small quantities, and when artistically combined with another color is most effective.

-Quite a pretty effect is gained by the use of Japanese umbrellas for lamp-shades, and since the "Mikado" has thrown his flowery influence over everything fashionable they are much sought after.

-Huge Japan lilies perfectly represented in paper serve the purpose of lamp-shades.

-A linen cover for a work-table bears the appropriate legend: "Get thy spindle and thy distaff ready and the Lord will send thee flax." A spinning-wheel etched in red cotton is in one corner.

-Jute velour is used for table-covers. They have centres of solid color, either crimson, sapphire blue, olive or golden brown, and rich borders and fringes of Persian colors mixed with tinsel.

-Even refrigerators are made with the decorative effect in view, and have a sideboard back, with a little shelf for choice pieces of china; a long mirror is oftentimes underneath the shelf, the top of the refrigerator is covered with a linen scarf and a few ornamental pieces of china or silver.

-The newest furniture coverings are in very delicate shades, to meet the requirements of the Louis XIV. style of decoration.

-A pleasing fashion is to make spreads and pillow-cases of colored silesias, trimmed with colored laces.

-There is everything pretty in the way of stationery nowadays. The American Specialty Company, of Broadway and Twenty-third street, are showing all sorts of novel and dainty notions in the way of paper and correspondence cards.

-The newest floral decorations for the dinner table are in solid colors; pink and yellow being the favorites.

-Furniture upholstered in plush can be enriched by being embroidered in floral, geometrical or heraldic designs.

-Headboards of bedsteads are sufficiently high to be handsome, without reaching to the altitude they once attained; a freak of fancy is to have panels of embossed leather inserted in them above the mirror on the bureau, in the backs of chairs, etc.

-Purses of silver or gold threads and knitted silk purses, with jewelled rings, are shown for coins.

-Embroidered scarfs are still very fashionable; they drape the mantel, table, easel or piano, and are arranged over the top of the sideboard or bureau. A pretty style and ornamental for a chair or sofa is made by taking the etamine scarfs, which are mixed with tinsel, and fastening on either side three shades of Nile-green satin ribbon about two inches in width. At intervals, where the ribbon joins the scarf, fasten on in clusters six or eight brass sequins, finish the edge of the scarf with long silk tassels varying in color.

Building Down Town.

Several architects and builders having complained of the effect of the unsettled condition of the labor market upon building, and the consequent delay in the erection of new work which otherwise would have now been well under way, it will doubtless be of interest to our readers to learn what downiown structures are now in course of erection. With this view we present the following summary :

On Wall street there are to be several new buildings and improvements, most of which are to be intended for offices. Nos. 34 and 36 is to be an eightstory brick structure with solid stone front and to be used as a bank and office building, 53:5x92.10x53.1x95.11. It will cost \$350,000. The owner is Frederick D. Tappan and the architects are J. C. Cady & Co. No. 38 is to be a six-story brick and stone front office building, 21.9x93, rear 22.1, and will cost \$60,000. James Thomson is the owner and the architects are De Lemos & Cordes. A nine-story office building of stone, brick, terra cotta and iron, 50.5x70.6, rear 50.1, is under way at No. 54, which will cost \$200,000. A sixstory brick office building, 35x32.4, to be constructed of fire-proof material and cement, to cost \$100,000, is being built in the rear of the above. The owners in each instance are the Central Trust Company of this city, and the architect is Charles W. Clinton.

On Pine street, Nos. 60 and 62, there is being erected a five-story brick, granite and cut stone front club-house, 46.1×134.11 , rear 44, and which will take in Nos. 22 and 24 Cedar street. The building has been designed by Chas. C. Haight, architect, for the Down-Town Association, and will cost \$120,000.

Elaborate additions are to be made to the Equitable building which when completed will contain 1,500 offices. The additions will take up Nos. 108, 110 and 112 Broadway, Nos. 2, 4, 6, S and 10 Pine street, and Nos. 17 and 19 Nassau street, so that the building when finished will cover the entire Broadway frontage of the block between Cedar and Pine streets. The architect is Geo. B. Post.

Nos. 41 to 45 Broadway, extending through to Trinity place, will comprise a nine-story and basement brick and stone front office building, 80.2x 190, which is to cost \$400,000. It will be one of the handsomest offices down town. It will have four elevators, electric lights and all the modern improvements, with conveniences for about 200 offices. The building will be owned by the Aldrich estate. The architects are Youngs & Cable.

A four-story brick building, intended for St. Paul's School, is going up in

the rear of St. Paul's Church, corner of Church street, east side, extending from Fulton to Vesey street, to cost \$100,000. The building is owned by the Corporation of Trinity Church. The architect is Charles C. Haight and the builders are Messrs. Robinson & Wallace.

In addition to the above, work will probably be begun shortly on the northwest corner of Broadway and Thirty-sixth street, intended for a sixstory brick hotel, 145.6x115.5x135.10x86.6, which is to cost \$245,000. The owner is Louis L. Todd of the Hotel Vendome. Augustus Hatfield is the architect.

On the southeast corner of Twentieth street and Broadway a six-story brick store, of which the Goelet estate is the owner, is to be built at a cost of \$200,000. The dimensions are 96.3x100.6x72.1. The architects are McKim, Mead & White. The occupants of the building, when completed, will be Archer & Pancoast, the well-known makers of gas fixtures.

An eight-story structure with stores, 72x125, is to be built by the Metro politan Telephone and Telegraph Company at Nos. 16, 18 and 20 Cortlandt street, to be used as general offices and store rooms. Messrs. Eidlitz are the architects. The cost will be in the neighborhood of \$100,000.

County Clerk's Office Business.

Real estate lawyers and members of the Real Estate Exchange are highly gratified at the passage of the bill through the Legislature expediting the real estate business in the County Clerk's office. The Real Estate Exchange should have the credit of having put this measure through in the interest of dealers as well as the lawyers. The following is the text of the bill as amended and signed by Gov. Hill:

AN ACT to amend chapter two hundred and ninety-nine of the laws of eighteen hundred and eighty-four, entitled "An act in relation to the office of the clerk of the city and county of New York."

The people of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. Section four of chapter two hundred and ninety-nine of the laws of eighteen hundred and eighty-four, entitled "An act in relation to the office of the clerk of the city and county of New York," is hereby amended so as to read as follows:

§ 4. The fees for searching in the office of the said clerk shall be as follows: For searching the dockets of judgments and decrees, and transcripts of decrees, ten cents per year. For searching the dockets of notices of pendency of action, five cents per year. For searching the dockets of all other liens, five cents per year respectively. For returning upon his search any judgment or other matter of lien, five cents for each return.

§ 2. Section five of said act is hereby amended so as to read as follows:

§ 5. It shall be the duty of said clerk, on the receipt of any order directing searches in his office to be made, to cause the same to be made without delay, and to certify the correctness of his return within ten days from the receipt of the requisition therefor, and he shall be held legally liable for all damages resulting from errors, inaccuracies or mistakes in his return certified by him in pursuance of this act or any section thereof. And in the event of an order calling for a return by the said clerk at a date prior to the expiration of ten days from the receipt by him, said clerk shall direct the said search to be made by one of the seachers appointed by him for that purpose, and shall certify the correctness of the return thereon and deliver the same at the time designated on such search, and said clerk shall charge and collect for such search, in addition to the fees prescribed in the fourth section of this act, an additional charge of one-half of such fees, which additional fees are to be included in the account of fees provided for by the 7th section of this act, and accounted for and paid over into the treasury of the city and county of New York as provided for by the 2d section of this act, except the actual expenses incurred by said County Clerk to meet the payments required in carrying out the provisions of this section, and which shall be without additional cost to said city and county or any additional payment to said clerk \S 3. All acts and parts of acts inconsistent with the provisions of this act are

hereby repealed.

§ 4. This act shall take effect immediately.

City Improvements.

At the regular meeting of the Morningside Park Association held at the Murray Hill Hotel, Tuesday evening, May 4th, 1886, the following resolu-

Resolved, that this association heartily approves the determination of the Park Commissioners to improve that portion of Central Park which is to afford an entrance thereto from Eighth avenue and One Hundred and Tenth street.

The following resolution was also unanimously adopted :

The following resolution was also unanimously adopted : Whereas, it is stated that the Department of Public Parks proposes to remove its propagating houses from the place where they now are located on the easterly slope of Mount St. Vincent to the northerly end of Morn-ingside Park; and whereas, such removal appears to be without any suf-ficient reason, and the same would be to the destruction of that end of the park as a pleasure resort and to the great injury of the surrounding neigh-borhood where houses are now being erected with great rapidity and would delay the proper improvement of the park. Therefore it is resolved, that this association emphatically protests against the use of Morningside Park for the purpose named. It is further resolved, that this association respect-fully demand the immediate enclosure and improvement of Morningside Park in a manner suitable to a public park, and will discountenance the diversion of any of the city funds to up-town parks until Morningside Park have been laid out after Morningside was paid for by assessments on prop-erty-owners, and while all other parks have been improved to greater or less extent, Morningside, which—excepting Central Park—is the most important of any, has received no material improvement. The next regular meeting is to be held at the Murray Hill Hotel, Park

The next regular meeting is to be held at the Murray Hill Hotel, Park avenue and Fortieth street, in parlor J, Tuesday evening the 18th inst., at eight o'clock sharp.

All property-owners in the vicinity from One Hundred and Ninth to One Hundred and Twenty-fifth street, Seventh to Tenth avenue, are requested to attend.

Not Going to be Built.

Early in January plans were filed for the erection of a five-story stone and iron front store, for the use of Ehrich Bros., Nos. 361 to 371 Sixth avenue, Nos. 110 and 112 West Twenty-third street, and Nos. 108 to 109 West Twenty-

43 on Twenty-third street, and which was to cost \$300,000. A. Zucker & Co., were the architects. We notice, however, that there is no indication of the plans being followed out, inasmuch as No. 361, of which it formed a part, has been entirely refitted, and that there are no signs of the adjoining premises coming down.

Changes in the Renting Season.

Real estate brokers say that the dullness of the renting season that has just passed is ascribable, in part, to the fact that there is an increased number of renters of dwellings who choose to store their furniture and wait till autumn before taking leases. An unusual number of people are leaving the city early this season. The renting business of the autumn has of late years become about as important as that of the spring, and the rents obtained in September are better than those of April. A leading broker on the west side pre-dicts that a few years hence the bulk of the leases will be made in September instead of the first of May. Even the spring renting ssason is, perhaps, becoming a little more extended than in former years, as people who are about to commence housekeeping and have no furniture to move or store, have generally learned to wait till after May 1, in the expectation of getting greatly reduced rents. When the rents asked before that date have been reasonable the reductions made will probably average ten or fifteen per cent., though there are a few landlords who begin the season with too high demands, and, finding their houses vacant on the first of May become disouraged and make much larger concessions.

Whatever the reasons may be, it is certain that the first of May is every ear becoming less generally observed as the day for moving. There are some important advantages that will be gained by the change. There is no sound reason why leases should not be given from May 15th or September 1st as often as from May 1st, and the business should be so arranged that the renter should have no excuse for demanding a great reduction in the As the moving season becomes rent immediately after a certain date. less crowded into a single day there will be less annoyance, confusion and expense in moving, and it will oftener happen that the move will be made into a vacant house instead of one which the Thompsons are moving out of while the Smiths are moving in, involving risks of an almost hopeless mixture of the bric-a-brac, books and kitchen utensils of the two households.

Besides the gradual change in the renting season, the increase in the number of dwellings in the city and surrounding country that are offered at moderate prices and on easy terms has something to do with the dullness of the renting business this spring. Many people who have been paying rents have become purchasers of new houses on the west side or in the suburbs. There is a village that can be reached in twenty minutes from New York in which one hundred and fifty houses have been built, by an association within the past two years and sold for \$3,500 each, only ten per cent. of which is required in cash. Again, the uncertainty resulting from the labor situation is mentioned by leading brokers as an important cause of retrenchment on the part of renters. In a great many cases the occupants of four-story houses have removed into three story houses or flats. This feeling of uncertainty has also affected the renting of stores, and an unusual number of these, as well as of dwellings, will remain vacant during the summer.

A Critical Moment for Sixth Avenue Progress.

Editor RECORD AND GUIDE:

In your article in the issue of April 17 of THE RECORD AND GUIDE, entitled "The Chief Secret of Local Improvement," you strike the nail on the head. It should be followed by another, entitled "The Chief Obstacles to Local Improvement," and deal with the follies of a policy that has never failed to kill progress whenever it manifests itself, and which I now foresee, if continued on the Sixth avenue boulevard, will put an end to the hopes that have been entertained of that avenue becoming the choice seat of fine and costly residences in the upper part of the city. I allude to the grasping monopolizing by rich men and syndicates of choice lots and blocks for the purpose of speculative holding and fictitious prices, so that practical builders are frozen out and go elsewhere for their improvements. The instances cited in your article are in point. The cause of no improvement on the tract west of the park is the shortsighted narrow-minded policy of the property-owners of that section-fencing in and holding for fictitious prices that is not warranted by the demand. It was that same policy that drove improvements in Washington City down into the flats behind the Capitol and left the high grounds in front that were greatly to be preferred unimproved, until it was too late to change the direction of progress or save the choice section from the improvement that its advantages offered.

For years Sixth avenue boulevard property has lain dormant, almost eaten up by taxes and assessments and interest on the capital invested, until within twelve months last past a brisk demand has arisen for lots between One Hundred and Tenth and One Hundred and Twenty-fifth streets which has resulted in an increase in their value of from 50 to 100 per cent.

What caused this demand ? The improvements on the avenue near One Hundred and Twenty-fifth street, and more particularly the building of the fine residence on the southeast corner of One Hundred and Nineteenth street. The results : The rushing in of capital, not for further improvment but to secure and hold for high profits. Capitalists have come and bought up from four to thirty and forty building lots and demand such exorbitant prices for them that the practical builder can realize no profit and is driven away to more profitable sections. And the sequel : A lull in the market-a falling off of demand-cessation of improvement and the prospect of a desertion of the avenue by the "magician who conjures up cities and villages into being" for more fruitful fields of investment and improvement. And what will become of the beautiful avenue if this policy is continued ? This, indeed, is a question of deep concern for the owners of property along the avenue, as well as those who have purchased property on the adjacent cross streets, in the expectation of an improvement of the avenue indicated by the building activity of a few months ago. You strike the key-note when second street, 115 feet on Sixth avenue, 91 on Twenty-second street and | you say "the initiative for a building movement must come from the property-owners, and if it does not come from them, it will either not come at all, or it will be delayed until it is forced into more enterprising neighborhoods." The builder cannot create a demand, nor will he invest his capital where there is no profit or prospect of profit, but will naturally go where the building movement is well under way and where he may anticipate a demand for his products.

The purchaser seeks property where there is' life and progress and improvement. The builder and the buyer then come together; demand and supply meet, and local improvement is the natural consequence.

Will not the capitalists of Sixth avenue read the hand-writing on the wall before it be too late—encourage, not hinder the improvement of one of the finest and most beautiful boulevards of the city, and make of it what nature seems to have intended, an avenue of splendid private residences and an ornament to the whole city. PRACTICAL BUILDER.

Important Decisions as to Up-town Assessments.

The court of Appeals, on Tuesday last, in the matter of the application of the Manhattan Railway Company and Judge Lawrence last Monday, in the matter of the petition of the Trustees of the Academy of the Sacred Heart, handed down decisions affecting two of the heaviest assessments laid upon up-town property for street improvements within the last ten years. The assessments in question were for regulating, grading and macadamizing One Hundred and Tenth street from First avenue to Riverside avenue, and for sewers in St. Nicholas avenue, between One Hundred and Twentyfourth and One Hundred and Fifty-fifth streets. In both cases the work was done by "day's work" by the Department of Public Works between the years 1873 and 1876. The city claimed the right to do the work in this manner upon One Hundred and Tenth street under the Eastern Boulevard Act of 1873, which authorized the Commissioner of Public Works to do the work " in such manner as he should deem for the best interest of the city and the property owners," and to build the sewers without contract under the old Act of 1866, which laid out St Nicholas avenue and authorized the Commissioners of the Central Park to do the work of improving and sewering by day's work or by contract, or in such manner as the commissioners should deem most advisable. Upon the trial in the Supreme Court, it was shown by the testimony of the engineer who had charge of the work, contractors and others, that at the market prices for work in the years named the One Hundred and Tenth street improvement could have been done for, and would not have cost more than, \$96,090, whereas, there was actually expended upon the "day's work" plan \$436,270, to which was added as interest from the time of completion \$85,205,90, which, with the other charges, made the sum assessed \$530,132. And in the sewer cases, it was shown on behalf of the petitioners, that the sewers which cost \$140,724 by day's work could have been built by contract for \$49,000. In the latter case, rock excavation cost the city \$3,35 per yard which contractors would have done for \$2.50.

The principal point argued by Mr. James A. Deering, attorney for the petitioners in both cases, was that the charter of 1873 superseded all previous special laws and absolutely required all public work to be done by contract, and that no valid assessments could be levied for a street improvement done otherwise. The Corporation Counsel contended that the special laws authorizing the improvement of One Hundred and Tenth street and St. Nicholas avenue, permitted the same to be done in any manner the Commissioner of Public Works might determine, and that as these improvements were authorized prior to the charter of 1873 the authority to complete them by day's work was conferred and continued by the charter. He also claimed that the property owners, in any event, were not entitled to have the entire assessments cancelled, but only reduced to what the work was fairly worth, and that to this extent, the assessment should stand. In both cases, however, the court decided that the charter of 1873 did not exempt the works from the contract system, and that as every dollar expended was in clear violation of law that no part of it could form the basis of a valid assessment.* The decision is important as showing the necessity on the part of the city officials of carefully following the law in making and carrying on public works intended to be paid for by taxation on property benefited, and as indicating the extent to which the courts will afford protection to property owners against unjust and unlawful and oppressive taxation.

*In delivering the opinion of the Court of Appeals, Judge Andrews said: "The prudential value of the charter provision requiring work to be let by contract is illustrated in this case, since the claim that the assessment should be reduced and not vacated in toto proceeds upon the concession that the work for which the assessment was laid cost the city nearly three times as much as it would have done if it had been let by contract."

Croton Water Taxes.

The Commissioner of Public Works having levied additional water taxes for 1835 on certain property in different parts of the city, on which the tax for that year was duly paid and receipted for before August 1, his right to do so was lately contested before Judge Lawrence, and an alternative writ of mandamus was granted. It is expected that a peremptory writ will be applied for to cause all claims against the property arising from the additional charges to be cancelled. The property-owners say that if such a right could be admitted the commissioner might go back still further, and there would be no limit to the charges that might be made on account of past oversights of the department or on other pretexts.

At a dividend meeting of the managers of the Bank of England the other day it was shown that England's supply of gold had been shrinking for five years past at the rate of \$10,000,000 a year—a total shrinkage of \$50,000,000 in five years. This happened although England is not driving out gold by coining silver dollars. In spite of the Bland bill, in the same five years— 1881 to 1885, inclusive—the net increase of our supply of gold, as shown by the director of the Mint, has been \$105,351,726. Our gain has been more than twice the amount of Great Britain's loss, and on the 20th of last June, according to Director Burchard's estimates, we had \$636,422,646 of gold

coin and bullion, while Great Britain and Ireland had only \$583,500,000.--St. Louis Post-Dispatch.

Co-operative Apartment Houses.

Mr. James M. Varnum, chairman of the Committee on Legislation of the Real Estate Exchange, informed a representative of THE RECORD yesterday that nothing definite had been done so far with reference to listing the stock of the following co-operative apartment houses at the Real Estate Exchange, viz.: The Knickerbocker, Gramercy, Randolph, Rembrandt, No. 80 Madison avenue, No. 121 Madison avenue, Berkshire and Hawthorne. Gentlemen representing the above houses had formed a committee to consult with the Exchange in regard to the subject. A special committee had been appointed to meet them, but no meeting has yet taken place.

Real Estate Department.

Brokers report a much better feeling in the market during the past week. Private sales have been quite good, and, what is gratifying and somewhat unexpected, there has been an unusual inquiry for high-priced houses, and, as will be seen by our Gossip column, several very important sales have been made. It may be remarked also that the volume of transactions was never larger than just at present and mortgages are relatively smaller than in previous periods when there were large purchases. There has, it is true, been a check to new building plans; but there has been no stoppage of investment of money in real estate.

The principal feature of the week's business at the Real Estate Exchange has been the sales of lots, and the indications are that similar lines of property will be offered during the next few weeks. These have been principally on the west side, although there has been a fair representation in the Twenty-third and Twenty-fourth Wards, with the probability that more will follow. Very few houses have been offered, the most valuable being those sold under foreclosure or partition.

There were no sales on Monday.

On Tuesday a number of desirable properties were offered and attracted a large attendance. These included sixteen building lots on New avenue, between One Hundred and Fortieth and One Hundred and Forty-first streets. There were only four lots actually sold, those fronting on One Hundred and Fortieth street, at \$2,600 each, to Dore Lyon. The lots adjoining on the same street sold a year ago for \$2,000 each, with builder's loan. Four lots on the northeast corner of New avenue and One Hundred and Fortieth street were bid in for \$11,000, and afterwards sold privately for \$12,500 to Dore Lyon. A short time ago they were offered at private sale for \$8,500. Four lots on the southeast corner of New avenue and One Hundred and Fortyfirst street were bid in at \$12,600; two facing on One Hundred and Forty-first street at \$2,100 each, and two adjoining were withdrawn. Mr. Lyon, however, subsequently became the purchaser of the eight lots last mentioned. New avenue, although "opened" by law, is not yet opened in fact, there being several market gardens thereon which are about 6 feet below the street grade. One Hundred and Forty-first street is regulated, graded and curbed, guttered and flagged. One Hundred and Fortieth street, however, is neither opened nor graded, neither has it any sewer connection. A parcel of four lots, situate on the northeast corner of Riverside avenue and Eighty-first street, were also offered. Three out of the four were bid in by Henry James, two at \$11,200 each and one at \$10,900. the only sale being the corner lot which, starting at \$11,000, was sold to William Lalor, for a client, for \$15,000. The sale in partition of Nos. 53 and 55 Roosevelt street, comprising two three-story brick tenements, extending through to New Bowery and New Chambers streets, was sold for \$19,250 to John Eichler. The more noteworthy of the remaining sales were: A fourstory brick house, lot 25x92, No. 104 East Nineteenth street, 175 east of Fourth avenue, to J. K. Howland for \$27,850; the four-story brown stone dwelling No. 48 East Seventy-ninth street for \$23,500 (this same house was sold November 15, 1885, to Meyer Auerbach for \$24,000); No. 23 Coenties slip, consisting of a four-story brick house with store, 20x50.6, was knocked down to John M. Eitel for \$13,000-this house is rented at \$1,200 per year. A three-story brown stone house, known as No. 14 Mitchell place, East Forty-ninth street, east of First avenue, lot 18x80.10, was sold for \$7,875. Despite the attractive poster-sheet, on which an outgoing and an incoming ship were represented, with the explanation that it is was the sea upon which they were sailing and that the view was in front of Ocean avenue, Long Branch, the six De Peyster houses, corner of Ocean and Morris avenues. with large vacant lot, were knocked down but not sold, the prices not being considered satisfactory.

Much interest was manifested on Wednesday in the partition sale of seventeen lots on Ninety-fifth and Ninety-sixth streets, and Madison and Fourth avenues. Three of the four lots fronting Ninety-sixth street, between Madison and Fourth avenues, on all of which there are ten feet of rock, were sold to Francis J. Schnugg for \$5,100 each, and the fourth for \$5,600 tolR. C. Rathbone. Mr. Rathbone also purchased one lot on Fourth avenue, next to the corner of Ninety-sixth street, for \$5,250, and a lot on the northwest corner of the avenue and Ninety-fifth street for \$7,000. The same party also bought the four lots on Ninety-fifth street, 100 feet west of Fourth avenue, for \$6,000, \$5,900, and two for \$5,800 each. Seven lots were next offered, four on the west side of Madison avenue and three adjoining on Ninety-fifth street. The lot on the northwest corner of the avenue was started at \$9,500, and finally sold for \$11,670 to Chas. S. Brown, who also purchased the remaining six lots-three on the avenue for \$3,000 each, one adjoining on the street for \$8,000 and two next adjoining for \$7,950 each. The aggregate amount of the sales realized \$111,050. The ten lots on the block between Fourth and Madison avenues realized \$56,650, or an average of \$5,665 per lot; about a year ago the city paid \$350,000 for thirty-two lots, or an average of \$109.38 each, on the block below bounded by Fourth and Madison avenues and Ninety-fourth and Ninety-fifth streets, which is intended as a site for an armory. A parcel of lots with dwelling and stable on Boston and Caldwell avenues, near One Hundred and Sixty-fifth stree t created much attention-it was sold to John R. Foley for \$11,000; a gentleman who is well posted said the property was worth \$18,000. The eight lots on One Hundred and Forty-second street, between Grand boulevard and Diagonal avenues, were sold, four for \$2,025 each and four for \$2,000 each. A parcel of twenty-two building lots and plots on Mosholu avenue, the boulevard at Riverdale, attracted several buyers. The proceeds of the sale aggregated \$6,080. L. S. Quackenbush paid \$310 for the corner lot on Moshola avenue and \$300 each for the ten adjoining lots, as also \$210 each for two lots fronting the boulevard. P. B. Ross was the purchaser of a corner lot for \$250 and eight lots adjoining at \$310 each. The partition sale of West Twenty-sixth street property comprised No. 311, a four-storybrown stone dwelling, which was sold for \$15,400 : No. 327, a four-story brick tenement with store and three-story brick tenement on rear, realized \$17,800, and No. 329 with similar buildings \$17,250. A two-story frame building No. 7 East First street, 22.5 x77.5, realized \$12,450. The four-story brick flat with brown stone front (Astor leasehold), ground rent \$210 per year, was sold for \$6,400. A hotel property at Parkville, L. I., iu the township of Flushing, on the Coney Island plank road, 255.2x324, brought \$8,500. No. 132 East One Hundred and Ninth street, a four-story brick tenement, upon which \$9,352 was due, was sold to plantiff for \$8,000. The foreclosure sale of the one-story frame stable No. 212 Forty-ninth street, 90 feet west of Broadway, 50x18.10x50x19.4, upon which there are incumbrances amounting to \$12,500, was bought for \$13,500 by William B. Lockwood, who owns a lot in the rear extending through to Broadway. A three-story brick store No. 540 East Thirteenth street, upon which \$4,745 is due, was bought by James Judge for \$5,500. The foreclosure sale of several lots on Anderson avenue was adjourned until May 12th.

Among those in attendance on Thursday's sales were: John Livingston, John Carlin, Dore Lyon, Myer Finn, H. W. Coates, J. Rufus Smith, J. Romaine Brown, A. D. Duff, T. S. Walker, J. J. Smith, Morris Steinhardt and Jacob Bookman. One of the principal sales of the day was the offer of twenty-five lots on Seventh avenue, Fifty-seventh, One Hundred and Ninth, One Hundred and Tenth, One Hundred and Twelfth, One Hundred and Eighteenth and One Hundred and Thirty-third streets, owned by Burdett & Pond, the insolvent rubber firm. The sale, however, was poorly attended, few people of prominence being present. The bidding on a plot of four full lots, situate on the southeast corner of Fifty-seventh street and Seventh avenue, was started with difficulty, and after repeated efforts the auctioneer succeeded in getting a bid of \$80,000. It was finally bought for \$100,000 by J. Romaine Brown, for W. Conover, for improvement. There is a mortgage of \$75,000 on the plot. Twelve lots were also offered, six facing One Hundred and Ninth and six One Hundred and Tenth streets, Four lots, 400 feet east of Tenth between Ninth and Tenth avenues. avenue, were bought by B. P. Fairchild for \$4,250 each, and eight lots, 150 feet west of Ninth avenue, by the same party for \$4,500 each; a plot of six lots on the south side of One Hundred and Twelfth street, between Fifth and Madison avenues, were sold to L. Toplitz, the four nearest Fifth avenue for \$4,850 each, and the two adjoining lots for \$4,825 each. A lot, 20x100.11, on the south side of One Hundred and Eighteenth street, east of Manhattan (New) avenue, realized \$3,450, and two lots on the north side of One Hundred and Thirty-third street, east of Madison avenue, \$3,700 each. They were bought by J. Romaine Brown in each case. The total amount of the sale was \$192,900. A number of lots belonging to the Welsh estate, on Madison avenue, One Hundred and Eighth and One Hundred and Ninth streets, One Hundred and Sixteenth and One Hundred and Seventeenth streets, near Eighth avenue, and on Eighth avenue, west side, near One Hundred and Twelfth street. were offered. The lot on the southeast corner of Madison avenue and One Hundred and Ninth street, was started at \$5,000 and struck down at \$8,475, which bid was claimed by William Cohen and T. S. Walker; the lot was again put up and sold for \$150 advance to William Cohen, making the figure realized \$8,625. Mr. Cohen also bought the three adjoining lots on the avenue for \$6,000 each, and the two next adjoining, each 25x70, for \$4,575 each. Two lots on One Hundred and Eighth street, 20 feet east of Madison avenue, were sold to O. T. Mackey for \$3,600 each. A plot of eight lots, four on the south side of One Hundred and Seventeenth street and four on the north side of One Hundred and Sixteenth street, 200 feet east of Eighth avenue, brought each \$5,000 and \$6,500 respectively. The former were sold to John R. Foley, and the latter respectively. to Thomas McNell, of Smith & McNell. Mr. Foley was also the purchaser of a lot, 25x100, on Eighth avenue, west side, 100.11 south of One Hundred and Thirteenth street, for \$7,000, and L. Z. Bach that of an adjoining lot for \$3,550. The result of the sale brought for the Madison avenue property \$42,975 ; for the property on One Hundred and Sixteenth and One Hundred and Seventeenth streets \$45,800, and for that on Eighth avenue \$10,550, or a total of \$99,325. A lot on Madison avenue, 77.2 north of Eighty-first street, was bought by John D. Crimmins for \$13,400. A plot of three lots on the south side of Eighty-third street, 160 east of Fifth avenue, realized \$16,500 each. The following Ryerson & Brown property was also offered : A plot of four lots on the northwest corner of Park avenue and Seventy-sixth street, which are nicely situated, were bid in at \$12,800 each by A. J. Smith; the three-story brick boarding-stable with two and one-story brick extensions, Nos. 114, 116, 118 and 120 Forty-sixth street, between Broadway and Sixth avenue, was sold to R. B. Caldwell for \$72,500; a plot of five lots, three fronting St. Nicholas avenue, west side, near One Hundred and Forty-fifth street, and two in the rear, fronting on New avenue, were bought by S. C. Hopkins, the lots on St. Nicholas avenue bringing \$3,900 each and those on the rear \$1,500 each. Among other transactions were the following: The partition sales of two three-story frame dwellings, Nos. 251 and 253 West Twenty-sixth street, for \$16,400; the four-story brick store No. 44 Fulton street for \$29,000; and a five-story brick store, No. 40 Fulton street, for \$62,500. The foreclosure sales of the four-story stone front dwelling No. 146 West Fifty-eighth street realized \$12,200 over \$24,800, and four four-story brick tenements, Nos. 407 to 413 East One Hundred and Twefth street, \$4,800 over \$25,270. The partition sale of No. 81 Third street was adjourned until May 27th. The sale of the St. George flats on East Seventeenth street did not transpire, as it was stated that the company intended to rebuild the fiat.

On Friday there were only three unimportant sales, viz : The sale in partition of the four-story brick store and tenement, No. 324 Eighth street, south side, east of Avenue B, for \$13,525; a three-story frame dwelling, northeast side of Lawrence street, southeast of Tenth avenue, for \$9,500; and a Manhattan street property.

Adrian H. Muller & Son will sell on Tuesday, May 11th, by order of the executors of Alfred C. Post, eleven lots on Riverside avenue, between One Hundred and Twenty-second and One Hundred and Twenty-seventh streets, opposite Riverside Park, eighteen lots on the west side of Claremont avenue, between One Hundred and Twenty-second and One Hundred and Twenty-Seventh streets, and one lot on the north side of Ninety-ninth street, 300 feet west of Eighth avenue; 60 per cent. of the purchase price may remain on mortgage for three years at 5 per cent.

H. Henriques will sell on Tnesday, May 11th, by order of the executor of Mary Kent, the three-story and basement brick house and lot No. 110 Lewis street, and the two-and-a-half-story brick house with two-story brick extension No. 113 Goerck street.

Richard V. Harnett will sell on Tuesday, May 11th, for executors and trustees, the four-story brick tenement No. 163 East One Hundred and Twelfth street, west of Third avenue.

Mr. Harnett will sell on Wednesday, May 12th, the three-story building No. 29 Mangin street; the full size lot on the north side of One Hundred and Sixth street, 200 feet east of Riverside Park; the two five-story brick tenements Nos. 158 and 160 East One Hundred and Eighteenth street, and the four-story brown stone dwelling No. 155 East Forty-sixth street, between Lexington and Third avenues; and, for executors, the buildings Nos. 1345 and 1347 Broadway, near Thirty-sixth street; and No. 1612 Broadway, at the northeast corner of Forty-ninth street; a lot on the east side of Fifth avenue, 75.6 south of Ninetieth street; No. 33 East One Hundred and Tenth street, between Fifth and Madison avenues, and the three-story hotel opposite the depot at New Rochelle, Westchester County, N. Y. The hotel is well built and contains thirty-six rooms.

John F. B. Smyth will sell on Friday, May 14th, by order of the Supreme Court, in partition, sixteen building lots, each 25×102.2 , the plot being 200×204.4 , running from the northwest corner of Seventy-sixth street and Ninth avenue to the southwest corner of Seventy-seventh street and Ninth avenue, eight being on each street. The choice situation of these lots, being in the midst of improvements, with the fact that the sale must be absolute, being by order of court, gives this property special claims to the attention of buyers.

Mr. Harnett will sell on Saturday, May 15th, by order of David C. Link, assignee, the plot of about six lots on the northeast corner of Hudson and Christopher streets, with the brick buildings Nos. 502, 504, 506 and 508 Hudson street and Nos. 125 and 127 Christopher street.

John F. B. Smyth will sell on Wednesday, May 19th, the two-story and attic brick building and lot No. 473 Greenwich street and the four-story and cellar brick building and lot No. 41 Broad street,

Lespinasse & Friedman will sell on Thursday, May 13th, a plot of four lots on the east side of the Edgecombe road, 632.7 feet north from the centre llne of One Hundred and Sixty-second street, if extended, together in size 109.4x130.8x70.2x124.6. These lots overlook the Harlem River, are in an improving district and promise a handsome increase in value. The firm will also sell, on the same day, four lots on the north side of One Hundred and Fifty-ninth street, 75 feet east of the Grand boulevard; three lots on the north side of One Hundred and Thirtieth street, 275 feet west of the Grand boulevard, and the three-story brick house on the south side of East Twenty-third street, No. 312, east of Second avenue.

Richard V. Harnett will sell for the executors of Edward J. King, on Thursday, May 20th, a number of lots on Sixty-fifth street, west of Eighth avenue, Sixty-eighth street, between Eighth and Ninth avenues, the northwest corner of the Grand boulevard and Ninety-second street, and the north side of One Hundred and Twentieth street, near the Seventh avenue boulevard.

Gossip of the Week.

W. H. De Forest has sold the elegant four-story brick and stone private dwelling No. 23 West Fifty-seventh street, 50x100.5. We understand the consideration was about \$235,000. Broker, W. P. Seymour.

C. W. Luyster has sold another of his elegant four-story brown stone front private residences on the south side of West Seventy-second street, between Eighth and Ninth avenues, No. 40, 25x60x102.2, for 62,000, to Andrews Soher. Broker, T. Judson Kilpatrick.

Ogden & Clark have sold for Anthony Mowbray the four-story brick and stone dwelling No. 13 East Sixty ninth street, 33x70x100.5, to C. C. Colgate on private terms.

W. P. Seymour has sold the four-story brown stone full-sized dwelling No. 5 West Thirty-seventh street. The price is said to be about \$75,000.

A. C. Lamson has sold the four-story brown stone dwellings No. 32 West Thirty-seventh street, 35x60x98.9, for \$42,500 to A. de Castro, and No. 115 East Thirty-ninth street, 16.8x50x98.9, for \$22,500 to L. Haight. Mr. Lamson also negotiated the sale of No. 37 East Thirty-ninth street for \$51,000. reported in issue of April 24th.

F. Zittel has sold for Mrs. Armstrong the three-story high stoop brown stone house No. 225 East Seventy-second street, 16x50, for \$12,500, and for Arthur L. Meyer the four-story high stoop brown stone house No. 25 East Sixty-fourth street, 17x85, to Mr. Livingston, for \$50,000.

Tichborne & Melrose have sold for Mrs. Hull the four-story brown stone house No. 148 East Sixtieth street, 20x55x100, for \$20,000 to Mr. Kraus; for John Reynolds the five-story brick house with two stores on the west side of Second avenue, No. 1323, between Sixty-ninth and Seventieth streets for \$20,250 to Henry Stuckhausen; and for Edward Killduff, the four-story brown stone flat No. 874 Lexington avenue, between Sixty-fifth and Sixty-sixth streets, 20x50x70, for \$15,000 to Mrs. McCabe.

J. B. Ketcham & Co. have sold for R. Clarence Dorsett the four-story brown stone house No. 2124 Sixth avenue, 16.6x60x75, to M. L. Tiffany for \$21,000; and for M. L. Tiffany thirteen lots on the Southern boulevard, between Lyons and Freeman streets, each 25x100, for \$11,000 to R. Clarence Dorsett.

M. McCormick has sold for A. F. Walsh four lots on the north side of Ninety-sixth street, 150 feet east of Fifth avenue, to Samuel and Isaac Untermever for \$40,000, and two lots on the north side of Manhattan street, about 120 feet west of Ninth avenue, for \$20,000 to John W. Warner.

Mrs. Margaret Deeves has sold to Mrs. Elizabeth C. Murray the four story basement and cellar brown stone house No. 371 West Eighty-second street for \$27,500. This is one of a block of thirteen new houses, only one of which remains unsold.

Howard G. Badgley has sold for E. S. Whitman a three-story frame cottage, with plot 60x100, on the south side of One Hundred and Fifty-fifth street, 206 feet east of Tenth avenue, for \$15,000.

William Kennelly & Co. have sold the four-story brick building with store, and the irregular lot No. 804 Ninth avenue, for \$7,400; the threestory and basement brown stone dwelling No. 163 West Forty-seventh street for \$19,000, and the lot of ground on the north side of One Hundred and Fifteenth street, 100 feet east of Fifth avenue, 25x136.8, for \$7,000.

Picken & Lilly have sold for James A. Frame the five-story house on the southwest corner of Ninety-seventh street and Third avenue to J. F. Schroeder for \$38,000.

H. H. Bliss has sold for Mrs. Lynch the two four-story brown stone flats Nos. 302 and 304 East One Hundred and Seventeenth street, 40x100.11, to Jacob Altschul, and for the latter two lots on the south side of One Hundred and Second street, 100 feet east of the Boulevard, 25x118 each, to Mrs. Lynch.

C. B. Hoffman has sold the four-story brick tenement No. 64 Varick street, 25x100, to B. B. Johnston for \$16,000. Broker, H. H. Bliss. I. E. Sayre has sold for John C. Brown the office building No. 63 Pine

street, about 28x79, for \$63,000 to Edith C. Iselin, and for Wm. F. Nisbet the plot on the southeast corner of Madison avenue and One Hundred and Thirteenth street, 45x100.11, to George F. Johnson.

Benner & Zeller have sold for the Ames estate the three story and base ment brick dwelling No. 69 Second avenue, northwest corner of Fourth street, 24.6x78, to August Schaefer for \$25,000. Mr. Schaefer will alter the premises into a five-story flat.

Wm. L. Turner has, it is reported, sold eight lots on the southwest corner of Eighth avenue and One Hundred and Eighteenth street, four on the avenue and four on the street, for \$52,000 to A. H. De Witt.

We hear that Arnold Lustig has purchased from the Wood estate seven lots on the south side of One Hundred and Fifteenth street, east of Eighth avenue, for \$5,000 each.

Four lots on the south side of Seventy-first street, 375 feet west of Eighth avenue, have been sold to C. W. Luyster.

Gen. Adelbert Ames and wife have sold the four-story brown stone dwelling No. 208 West Fifty-ninth street, 25x100.5, to Joseph Battin, of Elizabeth, N. J., for \$55,000 and exchange of property. Broker, P. P. Todd.

George H. Stayner has sold the six-story brick factory No. 145 and 147 Mulberry street, 50x100, to Mrs. Matilda J. Perrine for \$85,000. The latter has sold to Mr. Stayner the five-story brick apartment house on the southeast corner of Park avenue and One Hundred and Twenty-fourth street, 30x90x100.

P. J. O'Brien has sold thirteen three-story brick and brown stone houses on the south side of Ninety-ninth street, between Ninth and Tenth avenues; size of each, about 15.4x48, lots 100.11. Mr. O'Brien has also sold eleven similar houses on the north side of One Hundred and Forty-fifth street, between New and Edgecombe avenues, each 16x45x99.11, for about \$9,500 each for the inside houses, and about \$18,000 for the corner house, to different buyers.

J. S. McQuillen has sold six lots on the southwest corner of Edgecombe avenue and One Hundred and Forty-fifth street, to P. J. O'Brien for improvement.

Gorham & Dowling have sold for F. E. Hanson three lots on the west side of Eighth avenue, 25 feet north of One Hundred and Fifty-third street, 75x100, for \$10,500 to Benjamin Bernard.

Brooklyn.

T. W. Swimm has sold the three-story stone front dwelling, 18.4x54x100, No. 242 Putnam avenue, to Julia E. Gorham for \$9,200, and a plot, 80x100, on the south side of McDonough street, 160 feet west of Sumner avenue, to H. Search for \$8,000.

D. H. Fowler & Co. have sold the three-story brick flat, 25x60x100, No. 535 Nostrand avenue, to W. C. Giles for \$9,675.

W. F. Corwith has sold the lot on the south side of Java street, 320 feet east of Franklin street, 25x100, to Henry Guse for \$2,500.

Out Among the Builders.

Joseph M. Dunn is preparing plans for the following structures: A five-story stone and brick flat with stores, 20x85, at No. 384 Grand street, at a cost of \$15,000, Mrs. Helen Burnet, owner; also for a first-class five-story brown stone flat, 25x90, at No. 146 East Thirtieth street, between Third and Lexington avenues, to cost \$30,000, of which Hellmuth & Kranich are the owners. An alteration to the flat No. 402 West Forty-third street, consisting of an extension 15x28, to cost \$2,500. P. Carroll is the owner.

Plans are being made by E. E. W. Schneider for a three-story brick stable, 25x125, on the north side of Morton street, east of West street, to st \$10,000. The owner is D. D. Naugle.

Chas. P. H. Gilbert has plans for the construction of a three-story and basement residence on the north side of One Hundred and Fifty-third street, west of St. Nicholas avenue, 23x90, with 'a two-story stable 21x40. The first and second stories of the cottage are to be of rock-faced brown stone, and the third story of slate and alron tile, with pitch roof. The owner is F. W. Seagrist, Jr. The cost is not yet decided.

Cleverdon'& Putzel are the architects for seven five-story brick tenements, 26x65, to be built on the south side of Seventy-third street, between Avenue A and First avenue, for N. Buckhardt. They will cost about \$91,000.

Andrew Spence has the plans for a four-story brick flat, 20x60, to be built on the west side of Tenth avenue, 140 feet north of One Hundred and Forty-Seventh street, for John M. Cahill, to cost \$12,000. The same architect will make the plans for a block of three-story and basement brown stone dwellings for W. P. Tompkins, which will be built on the five lots recently purchased by him on the east side of Seventh avenue, north of One Hundred and Thirty-fifth street. The cost is estimated at \$60,000.

A. B. Ogden & Co. are making the sketches for ten five-story stone and terra-cotta front flats, 25x85, which Peter N. and William H. Ramsay will build on the north side of Sixtieth street, 100 feet west of Ninth avenue, at a cost of \$80,000. They will be constructed in the best manner. These architects are also making plans for a block of five brick flats and stores to be erected on the northwest corner of Attorney and Rivington streets for Fay & Stacom, at a cost of about \$150,000. Three will be on Rivington street, six stories high, 25x89; the corner building will have five stories, 25x 96, and one on Attorney street, six stories, 25x89. 'All these structures will be built by day's work.

J. B. Snook has plans on the boards for a three-story brick building, 23.9 x106.11x192.10, No. 34 Pell street, the cost of which is not yet decided. The owner is J. W. Hamersley.

Brooklyn.

By the will of John McDonald, of Brooklyn, just admitted to probate, his executors are directed to erect a Catholic Church on a piece of land extending to the ocean on Surf avenue, Coney Island, and to convey the building and land to Bishop Loughlin.

H. Search is about to erect five three-story brown stone dwellings 16 feet front each, on the south side of McDonough street, 160 feet west of Sumner avenue.

Out of Town.

Tarrytown.-A one-story stone chapel (undenominational), containing a library, 50x75, Gothic in style, is to be built on "the Heights," for which plans are being made by J. R. Thomas. The cost is not yet estimated.

Orange, N. J .-- Llewellyn Park will in a few months receive an addition, in the shape of a handsome stable, the erection of which has just been commenced for John Burke. It will accommodate about twelve horses, with carriages, etc., and will cost about \$29,000. The architect is John Walter, of New York.

Removal Notices.

J. E. Brugiere has removed his real estate business from No. 8 Pine street to No. 25 Pine street.

A. M. Jones, the real estate broker, has removed from No. 108 to No. 128 Broadway

H. H. Elliott, whose real estate office has been at No. 202 Broadway, has emoved to No. 26 Pine street.

T. S. Clarkson & Co. have removed their real estate business from No. 4 Pine street to the Bryant building, No. 55 Liberty street.

John Davis, the real estate broker, has removed from No. 8 Pine street to No. 170 Broadway, Room 1.

Special Notices.

Stoecker & Whittle, the well-known real estate brokers and insurance agents of East One Hundred and Eighth street, have removed to 2101 Third avenue, near One Hundred and Fifteenth street, where they will give special attention to negotiating loans and renting and collecting, take full charge of estates, and carry on a general real estate business. Mr. Stoecker makes a specialty of fire and plate-glass insurance.

E. Thiele, of 78 William street, is the agent for the United States of the Dyckerhoff Portland cement, which is used and recommended by wellknown parties in all parts of the United States. Mr. Thiele will send, on application, free of charge, a pamphlet giving full information concerning the use of Portland cement to any who are interested in the subject.

- Investors desiring to loan money where a contingent inducement, in addi-

\$211.990

606

tion to the regular 6 per cent interest, is offered, are referred to an advertisement in another column.

Mr. Geo. W. Dawson, who has recently opened a real estate and insurance office at No. 475 West Sixty-fourth street, is one of the most active brokers on the west side. By his unexceptional references and his prompt attention to business he has already secured the patronage of several large capitalists who have heavy investments in real estate. In addition to his real estate business Mr. Dawson has the agency for the London and Lancashire Fire Insurance Company, one of the staunchest in the city, and is the New York manager for Wm. Goeller's window shades for store windows, flats and private houses.

BUILDING MATERIAL MARKET.

BRICKS .- The market for Common Hards has been in very good general form during the week, indeed better than expected, owing to an agreeable disap-pointment in the matter of the labor question. When pointment in the matter of the labor question. When it was found that no difficulty with workmen would immediately take place, both buyers and sellers ap-peared to feel much relieved, and business was taken up in good form with a continued healthy tone since preserved and no radical change made in the line of values. The quantity of stock available has at all times been equal to the outlet and frequently some-what in excess, a feature that acted adversely to auy attempt at advancing cost, and may in some excep-tional instances have given buyers a slight advantage. but on the whole the position was kept very well in hand and receivers seem to think they may yet secure a little further gain before the annual break takes place. The cleaning up of old stocks has made fur-ther progress of quite decided character, and it is thought quite likely that if no unexpected check to be consumption takes place there will yet be something of a scarcity of desirable supplies that may lead to stimulating competition. No over-faith has been strong enough, however, to induce the with drawal and holding back of stock, and full bids were in all cases promptly accepted. At the present writ-ing the valuations are placed at \$8.50@9.00 for Haver-straws, and \$8.00@8.50 for "Up Rivers," much the same as a week ago, though of the latter we hear of a few choice exceeding the figures named and some very poor selling at a lower range. No new stock as yet received from the Hudson, but the first is expected on Monday next, and from the forward condition of a ble to steadily increase the shipments. From New Jersey the new stock has commenced to appear with sufficient freedom to make a market, and \$7.50@8.00 per M is shown on the average run of quality, not in-cluding Hackensacks, of which none are reported, and the rate would probably be higher. Pales continue firm, with buyers quite willing to pay \$5.00, and some nave gone up to \$5.25 and even \$5.50 per M. For North River Fronts the market is firm and the demand about as before, say \$324 it was found that no difficulty with workmen would

CEMENT .-- For domestic stock the demand is reported as "good" by pretty nearly all makers, and some say they have just as much as they can altend to, giving the market a generally healthy tone. distribution is toward all regular outlets, and former distribution is toward all regular outlets, and former rates are ruling steady on the various brands. Do-mestic Portland is also in good request, indeed manu-facturers assert that they are crowded to full capac-ity, and can promptly place their product without change in cost. Imported cement, all things con-sidered, is doing remarkably well. Last month's im-portation was the largest on record approximating 60,000 bbls, with the arrivals since January 1st show-ing 120,000 bbls, against 15,000 bbls, for corresponding much larger proportion than in 1885. This is due to the great difference in freight rates, the Continental steamer charges being almost prohibitive while some of the engagements from Great Britain are about as low as ever known. Notwithstanding the full offering, how-ever, receivers seem to have been very successful up to date in finding a market for the stock at various points throughout the country, one Southern contract alone showing over 50,000 bb's. to meet which large out, and the present unsold accumulation of standard brands is very light. Sellers, however, have of late come in contact with the common enemy of all busi-ness this year, the labor troubles, and especially feel the influence at the West where the uncertainty regarding transportation has led to a modification, and in some instances a cancellation of orders. Just at the moment, too, there is a scarcity of canal freight room, owing to small number of boats at this end of the route, and except on local account it is difficult to distribute stock. Some little irregularity in quotá-tions is noticeable, but figures on landing parcels may be placed at \$2.15@2.40 per bbl., as to brand, quantity, etc. rates are ruling steady on the various brands. Do

GLASS .- Within the past fortnight there has been some falling off in the demand, the flush of the season having passed with the turn into the present month. Buyers, however, have by no means disappeared, and in a steady easy-going way there is a fairly active and healthy sort of business taking place with the condition of affairs cheerful and satisfactory. Stocks are plentiful enough to make any ordinary selection possible without difficulty, but there is no excess of accumulation, and the reduced importation is coming out in good assortment tending to prevent an unsale-able accumulation. Home production meets with a good average share of attention and is firmly sus-tained, with everything reported as "quiet" on the labor question at primary points. Any quantity of "rumors" come over from Europe upon the subject of renewal of strikes, etc., but the trade here does not give the reports more than passing attention. Buyers, however, have by no means disappeared, and

HARDWARE .-- Out of town demand continue somewhat moderate and uncertain, but on local account business has of late been a trifle better. Buyers, could business has of late been a trille better. Buyers, to be sure, operate with a great deal of caution, but their actual wants compel the handling of a great deal of stock in a small way and this gives a slightly encouraging feature to the situation. Supplies are available at former cost to the full actent of the out-let, but show no excess of a noticeable character and values continue to be well maintained on all standard articles. No changes on any of the principal lists of builders' hardware have of late been announced,

LATH .-- Receivers appear to be very well satisfied with the condition of the market. They have not succeeded in establishing a further advance as yet, but succeeded in establishing a further advance as yet, but maintained full former rates without difficulty, and disposed of the arrivals about as fast as they came to hand with \$2.10, \$2.150,2.20 made on the poor and medium grades and \$2.25 ner M for the best quality, and some sold to arrive at the latter figure. Dealers are understood to be distributing about as fast as they can secure first-class parcels, and few yards are moment.

LIME .- After the heavy amounts of late handled demand has not been quite so active, but this found a good balance in smaller offerings, and the market was preserved in steady form. Receivers report a rather light production at the Eastward and more or less difficulty to contend with in the matter of dissat-isfied workmen. The State kilns are all busy and their product finding a good sale.

LUMBER .- A considerable amount of complaint over lost business has been indulged in of late, but probably in a somewhat more emphatic form during the current week. Dealers in many cases had become hopeful that contractors were only standing off for effect, but now find that the questionable position of labor since the first of the year has materially modified the plans regarding contemplated improvements, as shown by a refusal to proceed with work on a great deal of property not available until the first of the deal of property not available until the first of the present month, and which, in the natural order of the already have been giving employment to a large number of workmen and afforded an outlet for a doubt be stimulated, but the season has been over outly crippled for full recovery descriptions of trade-could no doubt be stimulated, but the season has been to be service the doubt be stimulated, but the season has been doubt be stimulated, but he season has been doubt be the season has been doubt be doubt be stimulated. The streads doubt be more difficult. There is another plase of the labor crisis, however, already developed that may act as a benefit to holders of desirable stocks to make good natural deficiencies at this season, and is suggested as a possible partial balance to a diminuiton of demand. Perplexing and unsatisfactory as matters are at the moment, however, neither building consult of demand. Perplexing and unsatisfactory as matters are sto indicate that work in hand at least is being pushed for ward vigorough and fresh contracts taken up to some extent. Even in the simple matter of repairs and alterations alone, arising through the change of tenants at the annual moving, the consumption desirable stock are deal of incluse that work in hand at least is being pushed for ward vigorough and fresh contracts taken up to some extent. Even in the simple matter of repairs and alterations alone, arising through the change of tenants at the annual moving forward cases feel this cumber to possible of the set of

Contractors Notes.

Bids will be received by the Commissioner of Public Works until Friday, May 14, at 12 o'clock M., for furnishing the Department of Public Works with eight thousand (8,000) cubic yards clean, sharp sand.

Street Opening.

Corporation Counsel Lacombe will make application to the Supreme Court on Friday, May 28th, for the appointment of Commissioners of Estimate and Assessment in the matter relative to the opening of One Hundred and Fiftieth street, from Tenth avenue to Avenue St. Nicholas.

from Tenth avenue to Avenue St. Nicholas.
are also occasionally brought under treaty, but not to the extent it was hoped would be shown by this time as the curtailment of operations consequent upon labor difficulties has fallen particularly upon certain contemplated improvements where this class of lumber would have been used. Prices remain nominally steady, but shrew buyers never regret letting two or three sellers try to accommodate them. We quote as follows: Randoms, \$180, 19.50 per M; Specials, \$19.500,21 do.; Green Flooring Boards, \$20,022; Dry do. do., \$23,0243; Sidings, \$30,15 for rough, and \$18,020 for dressed; Cargoes f. o. b. at Atlantic ports, \$13,011 for rough, and \$18,020 for dressed; Cargoes f. o. b. at Atlantic ports, \$13,011 for rough, and \$18,020 for dressed. Thardwoods continue to go abroad in small parcels to a fair extent, but rather below the average shown at this time last year. On home account the open demand at the moment is moderate but most leading in the way of really choice and attractive supplies and are ready to regotiate on a fair basis of valuation. Offerings only fair. We quote at wholesale rates by carload as follows: Walnut, \$00,010 per Mi, white ash, \$33,040 do.; oak, \$30,040 do.; do.; quarter sawed clear, \$50,060; maple, \$20,032 do.; chestnut, \$28,032 do.; cherry, \$72,090 do.; whitewood, \$28,035 do.; eherry, \$72,090 do.; whitewood, \$28,035 do.; eherry, \$72,090 do.; whitewood, \$28,035 do.; eherry, \$72,090 do.; whitewood, \$28,035 do.; dord, \$23,023,25 for 16 inch, as to quality and to quantity. Eastern shaved to quote clay they are a \$50,010 per M. for 6 x03 and 10,011 dor 6 x03 or guilar assorted shipping; cypress large \$16,018. Pine shipping stock, \$3,25,05,05 or 18 inch, and Eastern saw grades at \$30,325 for 16 inch, as to quality and to quantity. Eastern shaved clear, \$4,50,200 for No. 1; for 20 inch, \$50,050 for A and \$12,000 for No. 1; for 20 inch, \$60,930 for A and \$11,000 for No. 1; for 20 inch, \$60,930 for A and \$11,000 for No. 1; for 20 inch, \$50,000 for A

GENERAL LUMBER NOTES.

THE WEST.

SAGINAW VALLEY.

SAGINAW VALLEY. LUMBERMAN'S GAZETTE, BAY CITY, MICR. The uncertainty and confusion which the labor troubles and expected -ight-hour demand have caused to prevail in the Eastern markets, where the Saginaw product is sold, have operated to take the activity out of the cargo trade in this market. The boom which began to rise in March slowly petered out in April and at the moment quietness and distrust obtain. The la-bor excitement has affrighted capital to some extent, and the situation in industries in which lumber is con-sumed is disordered. Building enterprises have been dismissed or delayed, and the disposition of the year, which was toward activity, has been suspended. We suspect, from the difficulty of getting at facts, that in some sales figures which shade former prices asked have been made. The general feeling of the market is that it is better to wait and see how the eight-hour demand is met, and not let the feer of disaster de-moralize prices. Wm. F. Whitney has just completed the sale of 1,500,000 feet of lumber on his wharves at Point Lookout at \$8, \$16 and \$36, and 600,000 feet of Norway to be cut at to \$8,75. Other lots have sold \$21 and \$35 straight and \$36, 18 and \$38. There is some hopeless feeling expressed, but we believe this is with-out reason and that trade will recover before a great while. We continue cargo quotations unchanged. CABCO QUOTATIONS.

SOUTH AMERICA.

Mail advices this week report the Rio Janeiro market as foilows:

Pitch Pine—There have been no receipts since our last. The last sale was at 40\$000 per doz., at which the brokers still quote nominally. Receipts last month were 1,161,678 feet, against 427,833 in March.

Month Were 1,101,010 100, against 1,101,010 100, against 1885. White Pine—No arrivals and the market firm at 115 —120 rs per foot. Receipts in March were 307,550 feet, against 137,416 feet for the same month last year Spruce Pine—No receipts since our last, nor during the past month. In March, 1885, none was received. Swedish Pine—The Hanna, from Christiana, brought 589 doz. red deals, which were sold at 385500 per dozen. At this price brokers quote the market steady. Receipts in March were 1,265 doz., against 737 doz. for the same month last year.

The Chicago Northwestern Lumberman reports as follows:

follows: The panicky feeling among the yardmen on account, of the demand of their employees for an advance of wages has almost struck dead a market that scarcely manifested life before. A number of cargoes have been sold this week, but it has required hard work to dispose of them. The spectacle has been witnessed of seeing a small bunch of loads stand at the docks for days with no buyers—a thing never witnessed before at a like season of the year. Commission men admit that this is the dullest market opening they ever ex-perienced, and attribute the cause to the condition of labor. Yet it must be acknowledged that if all were serene in labor circles there would still be a gulf be-tween the yard dealers and the manufacturers on the other side of the lake. There is too small a margin between cargo and yard prices. The mill men have nominated their figures, and promise pact to recede from them. The jobbes are unable, as a class, to cor-respondingly raise prices in the yards. Under the cir-

cumstances the latter cannot be expected to buy lum-ber freely.

cumstances the latter cannot be expected to buy lumber ber freely. One cargo of partly dry piece stuff from Pentwater was sold this week at \$10 a thousand. The same cor-mission house making this sale reports the sale of a dry cargo of dimension at \$11 a thousand. A cargo of argo argo of dimension at \$11 a thousand. A cargo of argo argo of dimension at \$0.50. Another was held at \$9.75. One was sold at \$9.50. Another was held at \$9.75. One was sold at \$9.50. The price of a good pren dimension at \$9.50 to 9.75. The price of a good short dry stuff is placed at \$11, but it is prob-able that a cargo to bring that figure would have to be all white pine and bone dry. Long joists and inber are sold at special prices. This spring there has been a considerable call for more so is such stuff at \$7.50 to \$8 a thousand. The box makers want it, and the demand is in advance of represent there is in the cargo market pertains to call umber and very promising feature, but good at a sit goes. The week the demand for hardwood, except for building purposes, has probably touched the lowest perhaps, right at its close. The general apprehension is so great that almost every romes and will be ourse this year, matters are likely to improve in the ourse of a lew weeks, when the situation becomes to the source for the situation becomes the source of a feature week and the situation becomes and will be ourse of a lew weeks, when the situation becomes to the source for a feature.

LUMBERMAN AND MANUFACTURER, { MINNEAPOLIS, MINN. { Trade at St. Louis is a little better this week than last, but is very light. The mills along the river are all in operation, but there is a lack of orders for special bills which usually come at this time. Logs and lumber are moving on the river freely, but no sales are reported. The St. Croix has no logs on the market worth mentioning, but the drives are progress-ing so fast that the new sloes reported. St. Paul is doing better than Minneapolis, as will be seen by the tables of receipts and shipments for the week. It is suspicioned that Wisconsin is rather forcing sales, but a visit to nearly all the leading St. Paul offices found all ready to give us assurance that they were firm on prices. The Wisconsin stocks are getting cut down to a min-imum, and there seems no reason why there should be any break on list figures. The dives on the Wisconsin River have been de-

imum, and there seems no reason why there should be any break on list figures. The drives on the Wisconsin River have been de-layed by the strike. A heavy and troublesome jam has kept them back on the Chippewa. Black River drives are doing better than usual and will come out sull right. all right.

ENGLAND.

We find the following report of sales at Liverpool as published in the *Timber Trades' Journal*:

Honduras mahogany, ex Alaska, from New York, 65 logs, 14,037 ft, 234d, to 756d., average 3 7-16d. per ft.

Honduras cedar, ex Alaska, from New York, 11 logs

Honduras cedar, ex Alaska, from New York, 11 logs, 2,471 fr, 2¾d, per ft. Lancewood spars, ex City of Chicago, from New York, 421 spars, 5s. to 14s. 6d., average 7s. 9¾d. each. Uity St. Domingo lancewood spars, ex Istrian, from Boston, 1,441 spars, 3s. to 8s. 6d., average 3s. 2¼d. each. City St. Domingo mahogany, ex Istrian, from Boston, 16 logs, 897 ft, 3¼d. to 8¼d., average 4 21-23d, per ft. City St. Domingo Satinwood, ex Istrian, from Boston, 27 logs, 1,068 ft. 4d. to 4s. 6d., average 8 23 32d. per ft. American whitewood, ex Ruby, from Norfolk, 17 logs, 1,078 ft, 1s. 9¼d. per cubic ft. California sequoia, ex E. T. Crowell, from San Fran-cisco, 298 planks, 1,115 ft, 1s. 9d. to 2s. 6d., average 2s. 0 5-16d. per cubic ft. GLASGOW.

GLASGOW.

GLASGOW. A public sale of timber took place at Greenock on 15th inst., prices as noted below. Catalegue submitted comprised Quebec pine timber and hardwoods, also teak and pitch pine. Transactions were to a fair ex-tent, but a large proportion of the goods was with-drawn for want of competition. The low prices ruling for Baltic goods and for pitch pine weaken demand for Quebec common yellow pine, stock of which is pretty heavy. heavy.

NAILS .- Hopes of improvement in this market have not been realized. Labor difficulties tend to reduce production, but also retard consumption and interfere with transportation and business is very closely figuned down to a line of the most absolute necessity. On the whole, however, the selling side of the market carries rather the greatest advantage, and fairly steady prices are maintained without much apparent difficulty. Quotations stand at \$2.15@220 per keg, and large invoices obtainable a fraction lower.

PAINTS, OILS, ETC .- A light uncertain sort of trade reported, and nothing very new or interesting on the general market. Buyers cannot be induced to invest beyond their most positive wants, even in thorinvest beyond their most positive wants, even in thor-oughly standard goods, and jobbers, manufacturers and importers are compelled to nurse their patience and await developments. Stocks are not weighty and that prevents pressure to realize, but the situation tends to give prices an easy tone. Linseed Oil meets with about the usual trade call and the present valua-tion is at 38@30c. for Western, and 39@40c. for City. Spirits Turpentine has been unsettled at another con-siderable drop on value, with present quotations placed at 36½@37½c. per gallon, according to quan-tity.

PITCH AND TAR .- Not much animation and most of the business on a sort of special order trade guided by immediate wants. Supply ample and former rates readily accepted. We quote Pitch at \$1.50@1.75 per bbl.; Tar, \$1.90@2.05, according to quantity, quality and delivery.

SALES OF THE WEEK The following are the sales at the Real Estate Ex-

change and Auction Room for the week ending Mav 7: * Indicates that the property described has been bid.

MORTGAGES.

Nore.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgages. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mort-gage was handed into the Register's office to be re-corded. Whenever the letters " P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Furchase Money Mortgage, and for fuller particulars see the list of transfers under the corre-sponding date.

PLANING, SAWING AND MOULDING MILL, Goodvear's Old House, of 3d Av. and 120th St., Citv. 493, 495 & 497 EAST 133D STREET (Southern Boulevard

The Record and Guide.

MISCELLANEOUS.

These blinds require no hinges, and all trimmings are supplied. They do not interfere with curtains or win-dow ornaments, and are so constructed that light and air can be admitted from any part of the window. Be-ing easily and rapidly operated they neither rattle nor get out of order. They economize space by doing away with pockets and the necessity of furring out, and can be removed and replaced instantly without even drawing a screw. They require no special frame as they can be attached with equal facility to any win-dow. For workmanship or style these blinds are not evcelled by any in the market. Call and see them, or gen if or circular.

WM. HAMILTON, Sole Agent, 1193 Broadway. "Also Improved English Venetian Blinds in any desired wood handsomely finished."

SCHADER & CORRIGAN. BUILDERS' HARDWARE, 265 WEST 125th STREET, N. Y. SEWER GAS DESTROYED!!

All poisonous and disease-breeding gases, germs of levers in residences and buildings of all description thoroughly destroyed. Perfect ventilation of sewer, drain, soil and closet pipes guaranteed. Endorsed by the **Board of Health** Physicians and Scientists of New York, Philadelphia and Boston.
