VOL. XLII.

OCTOBER 13, 1888.

No. 1,074

While the bulls in the stock market have had all the active factors apparently in their favor the course of speculation has hardly been with them during the past week. The reduction of the Atchison dividend was a serious blow; yet it ought to have been anticipated. There does not seem to be any other disaster in sight to destroy confidence, and unless the unexpected should occur an advancing market seems probable. Congress will very likely adjourn early next week, and this will put an end to any further legislation until January or February next. The heavy appropriations and the bond purchases, as well as the January disbursements, will keep down the Treasury snrplus. In the meantime the volume of currency is increasing, and as all the other conditions are favoring we ought to have a tolerably buoyant stock market. The result of the Presidential election is not likely to affect prices materially—certainly not more than it did when Cleveland was chosen President four years ago. The business of the country is good, and railroad earnings promise to be phenomenally large from this time forth.

After every era of speculative building of railroads in England a partial panic was in order. The change from a floating to a fixed capital resulted in a money pinch which for a time depressed all the industries of the United Kingdom. Yet the various railroad lines of Great Britain were well planned; they all met a public want, and, except in a few rare instances, were constructed through populous neighborhoods where there was plenty of business for railroads. We, too, have suffered when there has been excessive building of railroads, even necessary ones, but of late years the strain upon our monetary resources have not been so great because European capital has come so largely to our aid. We would, indeed, have been in the "dumps" had the vast extensions of our railway systems been made with our own money. Fortunately we had the capital of Europe to fall back on, but at the same time there was a heavy drain on our own resources, for a great building activity usually accompanied the widespread construction of railway lines.

These remarks are germain to what has been taking place west of the Missouri and Mississippi Rivers. Chicago, Burlington & Quincy, Northwest, St. Paul, Missouri Pacific, Rock Island and the Atchison & Sante Fe corporations have been adding largely to their mileage during the past four years. A great deal of the money required was contributed by foreign capitalists, but inevitably large amounts of American funds were also expended in a way that was not immediately reproductive. We would never have had the set back of 1887 in our stock market were it not for excessive railway construction. Missouri Pacific was the first to show weakness; then followed Chicago, Burlington & Quincy. St. Paul made the next break, and now Atchison & Sante Fe has slumped in a way to demoralize the stock market. Everything foreshadowed an active demand for securities this fall, but the weakness of these overbuilt roads has for a time taken the snap out of our market. The business of the country is good. Our hay, oat and corn crops are enormous and our cotton crop is fair. Wheat does not make so good a showing, but it will command an excellent price. All these considerations would have given us a buoyant stock market, but the distress in the overbuilt roads and the necessary reduction of the dividends has temporarily, at least, checked the enthusiasm of the "bulls." We expect, however, to see better prices further along.

The Newark election gives Mr. Cleveland's friends a chance to felicitate themselves, but the large Democratic vote is said to be due to the liquor interest, which has determined to punish the Republicans for the high license and local option laws. The brewing, distilling and saloon interests are very large in Newark. Still the fact remains that a large manufacturing centre has not been frightened by the Mills bill nor by the clamor about free trade. The Presidential contest is not settled yet by a good deal.

New Yorkers will have a choice among four candidates for Mayor—all of them honest and able men. The contest will appar-

ently be between Hewitt and Grant. The running of Coogan, the labor candidate, will help the former, as it will withdraw the labor votes from the Tammany candidate. Still, the position of Mr. Hugh J. Grant will be very strong. Tammany is now, by all odds, the most powerful section of the local Democracy. It is ably led and will offer patronage to the local leaders of the County Democracy to win them away from supporting Mayor Hewitt. The latter is running on a platform which forbids his supporters from expecting consideration from him after the election. Then the local leaders of the Republicans, that is the "boys" who are in control and who keep it despite the protest and humiliation of the respectable Republican vote, are on very friendly terms with Tammany and will help Grant and Hill all they know how. Mr. Hewitt is, of course, personally very strong. His one chance of re-election is a stampede of Independents and Republican voters in his favor. Employers of labor will back him up heartily, and then his personal admirers comprise thousands of active voters of all parties. But the outlook for the local tickets is very much mixed. As we have said, however, any of the candidates would make a good Mayor.

One of the most notable events of the day is the practical division of Africa among the great powers of Europe. Great Britain and Germany claim the lion's share; but Italy, Portugal and even Belgium have their fingers in the pie. The close of this century will see Africa practically parcelled up, and under the direct government of the various European nations. France has a good slice of Northern Africa. Italy will doubtless soon own Tripoli, and were there an energetic ministry in Spain, Morocco would fall to the share of that kingdom. It will be curious to note what success the several nations will have in utilizing the resources of the several parts of Africa. The United States, although it has some claim on Liberia, is not destined to have any share in the trade of Africa; but perhaps its turn may come sometime in the early part of the next century after the "Dark" Continent has been opened up to the commerce of the world.

Few people appreciate the responsibility they incur when they undertake to build a house. They are contented if they can erect four walls and a roof, which will give a good return for the capital invested. They never consider whether their construction harmonizes with the buildings adjoining, or whether in general it will help to beautify the city. As long as people can live in it, who cares for its looks? Yet it should be remembered that when a man erects a house he owes something to the street, the neighborhood and the city wherein it is located. He ought to strive for something better than a mere return for his outlay. What if he does get 1 per cent. less for his money, ultimately he will lose nothing; for when a neighborhood is filled with fine buildings, from that very fact, property thereabout increases in value. It would be well if our builders regarded their individual whims less and their social obligations more.

One of the most extraordinary actions by any civilized nation in the Ninteenth Century was the confiscation of the Mormon Church property by the United States government. It cannot be said that this was an unpopular measure, for the most remarkable feature in the matter is its apparent hearty and unanimous indorsement by American people. The excuse for this wholesale confiscation is that some few of the Mormons practice polygamy. It is not claimed to be widely diffused, for only very few of the richer Mormons can afford the luxury of more wives than one. Polygamy is an honorable form of marriage in many countries to-day, and has come down to us from the distant past. It was practiced for generations by the chosen people. We have forms of the sexual relation right among us which are far more objectionable. Of course polygamy has not produced as good results as monogamy; but are we justified, in view of free divorces and the social evil which is producing such direful results, in robbing an industrious community of their property because of a difference of view as to the desirability of recognizing plural marriages. The current discussion as to whether the monogamic marriage is a failure throws a curious side light on this whole matter. The Sun ventures upon a criticism of the action of the government in the following paragraph:

Much as Mormonism is disliked by everybody except the Mormons, no one can fail to think that it is sharp practice and hard lines to take from them, on a legal technicality, all the property of their Church and turn it over to uses which they do not wish for. They worked for it, made it, saved it, and nobody else has a right to it. Confiscation is a very rough business here in the United States.

This is very timidly put, but it must be that there are millions of Americans who would speak much more earnestly if the matter were presented to them in the right light. If the Mormons can be robbed of their property because they differ from the rest of their countrymen in one social practice, then can any sect by this precedent lose its property whenever a violent popular prejudice is excited against it? Law and justice are of no account when a whole nation is willing to do an act of plunder to satisfy an insane prejudice. Owners of real property cannot afford in any way to sanction the infamous Edmunds law.

Changes in Business Methods due to Modern Inventions.

In a vague way the public understands that we do not transact business by the same methods which obtained a half or even a quarter of a century ago. The railroad, steamship, telegraphy and the telephone have effected changes of a most radical character throughout the commercial world. The tendency has been to utilize the wealth of the world. There is greater economy in production and distribution, the main object being to save time and money.

One striking fact is the diminution of great stocks of goods. Before electrical communication and steam transportation it was found necessary to keep in store at certain points vast quantities of all raw and manufactured material. No one could tell from where the demand would come, and dealers were forced to be ready for any emergency. Hence a waste of material and capital in keeping up reserves to meet all possible contingencies. This is no longer necessary. Take the case of cotton as an example. Visible supplies in every direction have decreased. There is a very small margin between the demand and the supply, for the reason that the latter could be utilized in a way undreamt of in former years. The spinner can telegraph to hundreds of points where cotton is in sight and his wants can be supplied in a very short time. Hence the stocks of cotton seem to be abnormally low. A New York dealer does not now find it necessary to keep any large supplies of fine groceries or wines. He can telegraph to London, or wherever the article he desires is most abundant, and in ten days he receives the goods, which he promptly places at the disposal of consumers-And a similar course is pursued in all the ramifications of trade. Less capital is now needed to carry goods, and this has abridged the credit system. Trade is far more on a cash basis than in any former time, to the manifest advantage of all interests concerned.

Another peculiarity of modern commerce is that it is ceasing to pay tribute to great centres of population, such as Chicago, St. Louis, New York, Boston and London. Goods are now sent from the primary markets to the consuming centres. Kansas City, Peoria, even smaller places, send agricultural products direct to the consuming markets in Great Britain or on the Continent, and in return get manufactured products in which there is no breaking of bulk until they reach the point of consumption. Trade and the profits of the large cities suffer, but the producer gets more for his goods and the consumer pays less than under the old system. Indeed the discrimination is against the large cities. Wheat and corn is often sent for cheaper rates from Peoria to Liverpool than it would cost to lay them down in New York. The foreign steamship lines contract to deliver European manufactured goods in Kansas City or Denver for a less rate than Chicago, Milwaukee or St. Paul is forced to pay. The Interstate Commerce law commissioners say that they cannot prevent this practice. Indeed the general tendency of things is to charge the lowest transportation rates for the longest distances, or rather the disposition is to imitate our Post-office Department, which charges two cents for a letter no matter whether it is delivered on the next block or in Oregon or Southwestern Texas.

It is also worthy of note that notwithstanding this discrimination against the trade of large cities, these latter were never growing so rapidly as at present. We think the increase of our cities is phenomenal, but really the same fact is observable throughout the Continent of Europe. The growth, for instance, of Berlin is as rapid as that of New York. The new Rome is larger in extent than the old one that has come down to us in the past. Venerable old cities like Nuremberg and Cassel are filled with new buildings and new people. Undoubtedly the utilization of agricultural products has much to do with the growth of our large cities. There must have been grievous waste when the products of the soil were transported in wagons. But now every single grain enters into consumption.

These changes have led to heavy reductions in the profits of middlemen. Neither producer nor consumer pays anything like the tribute that they formerly did to the trading merchant. With cables and telegraphs extending to the ends of the earth, the local trader is posted daily as to the price of commodities in all the great consuming markets of the world. China teas and silks, for instance, yield vastly more profit to the Asiatic producer than they did when they had to depend upon merchants who shipped their goods in sailing vessels and who charged heavy profits for their services, the seller of course not being able to learn what prices were in the consuming markets before the era of cables and telegraphs. Of course a great deal of money is still made in commerce, but it is by fewer concerns, as the economies introduced by modern invention have dispensed with the services of tens of thousands of middlemen.

Our Paper Circulation.

POLITICAL US. FINANCIAL CONTROL OF THE MONEY MARKET.

There is a steady increase in the one, two, five and ten-dollar silver certificates. Concurrently with these issues there is a with-drawal of bank notes and greenbacks. The former are lost to our circulation; but the latter are reissued in denominations of \$20 and over.

The following tables, according to the Commercial Bulletin, are furnished by the Treasury officials:

Comparative Statement by Denominations of United States Currency and National Bank Notes Outstanding or in the Treasury at the Close of Business, October 31, 1887, and September 29, 1888.

An analysis of this table shows the aggregate paper money in circulation or ready for issue at the two dates to compare as follows:

Denominations.	Oct. 31, 1887.	Sept. 29, 1888.
18	\$25,241,486	\$30,842,022
28	18,502,573	22,754,401
58	189,498,043	203,035,287
10s	233,111,061	240,855,816
20s	197,056,141	198,563,838
50s	52,997,630	49,655,820
100s	72,363,5 0	69,436,430
500s	21,671,000	28,081,000
1,000s	49,683,500	52,852,000
5,000s	14,545,000	32,350,000
10,000s	39,010,000	48,970,000
	5010 00H 00H	DOME 202 24 F

This shows an expansion of some \$45,000,000 within the past year. The rise in the price of all retail articles is largely due to this abundance of one, two and five dollar bills, the newspapers are deploring this state of things as unscientific. There is no flexibility to the currency, they say. Then our Secretary of the Treasury by his bond purchases has a power over prices not possessed by any other government officer on earth. Our financial journals are agreed that this great authority should not be vested in a Secretary of the Treasury, but would be better if in the hands of some financial experts representing the banking and commercial interests of the country.

It is worthy of note, however, that since our Secretaries of the Treasury have had the power of making money easy in times of business activity that the trade of the country has been in much better shape than when the national banks had the unchecked manipulation of the money market. Before the era of silver certificates and government bond purchases we had a semi-panic every fall and spring, because the banks engineered a corner on their own currency and thus profited by the distress of the entire trading community. These excessive rates of interest are no longer possible, because the volume of silver certificates cannot be withdrawn, as used to be the practice when the national banks wished to raise the rate of interest in the open market. It was to the advantage of the banking institutions to make money tight; but public opinion forces the Secretary of the Treasury to sell bonds to keep money easy.

Then if we look abroad, where the finances are under the control of the national banks, we find the rate of interest higher than it is in the United States. The bank official rate in England is 5 per cent., while the banks of France and Germany charge $4\frac{1}{2}$ per cent. Money is easy with us because under political and not under financial control. But our journals ignore these facts, and are constantly extolling the methods of banks and bankers at the expense of officials who represent the entire community, and not any special and selfish interest.

The British Currency Commission, after hearing all the testimony as to the relative merits of gold, monometallism and bimetallism, have decided to present a divided report to Parliament. Six of the Commission favor the single standard, and the other six the double standard. Although this looks like a drawn battle, it is a substantial "victory for the bimetallists, as the great banking and lending interest of England would naturally array itself on the side of the single gold unit of value. Great Britain is the creditor nation of the world, and its interests clearly are on the side of the payment of debts due to it in the unit of value, made artificially dear and scarce; meanwhile the scramble for gold keeps on all over Europe.

The single rate of interest charged by the banks of the Old World is intended to force the gold-owning nations to part with some of their more precious metal. Strangely enough it is the bimetallic nations-such as France and the United States-which attract the largest stores of gold; moreover they retain it with the least effort. It is a notable fact that the outcry against the coinage of silver in this country has died out. Our befogged Eastern newspapers kept on predicting disasters from the use of the silver dollar, which somehow never materialized. It is now realized that we have so large a store of silver in circulation—\$300,000,000 in all—that it becomes a public policy to maintain its value. There has been a smart advance in the price of silver bullion lately; but, of course, it will never reach its old parity with gold-151/2 to 1-unless it is remonetized by some nation like Great Britain. Were Russia and the United States to make silver legal tender the same as gold a like result would be reached. We will never have good times internationally until silver resumes its old functions of measuring values concurrently with gold; hence the significance of the action of the British Royal Commission on Currency.

Our Prophetic Department.

FATHER KNICKERBOCKER—Abram S. Hewitt will be re-elected Mayor, of course.

SIR ORACLE—That depends. If the bulk of the Republicans and the Independents of all kinds support him he may get 100,000 votes, which would elect him. But surprises are possible. It should be borne in mind that the County Democracy has been getting weaker lately. Tammany seems to be the better organized, and many of the old county leaders are now numbered among its staunch adherents. Now, if Tammany is successful under Grant it will divide the municipal patronage, which is very great among its supporters. The County Democrats can expect nothing from Mayor Hewitt should he be re-elected. Hence Tammany will have the immense advantage of being able to tell the "boys" what can be done for them.

F. K.—But surely the number of place-holders and office-seekers is limited. What do the great mass of the voters care for the minor offices in the gift of the appointees of the Mayor? Everyone admits Mr. Hewitt's honesty and singular ability. Our people are rather proud of such a man.

SIR O .- It will not do to overlook the value of perfect organization such as Tammany has got. A small well-drilled army is generally more than a match for any unorganized mass of men, how-Tammany evidently nominated Hugh J. Grant because he appealed directly to the spoils-seeking element in the Democratic party. Now, I am saying nothing against Mr. Grant. His personal character is above reproach. He would make an honest, well-meaning Mayor. But he is under pledge to distribute the offices in his gifts as rewards for party services. It will be recalled that when he ran for Mayor against Grace he received 8,000 Republican votes. This was given by the machine Republicans, who have always maintained pleasant relations with the Tammany leaders. It is very clear that in the coming election the local Republican politicians will favor Harrison for President, Hill for Governor and Grant for Mayor of New York. The Republican candidate for Mayor will be put up only to be sold out.

F. K.—But will not the bulk of the Republican voters cast their ballots for Mayor Hewitt?

Sir O.—His only chance for re-election is in a stampede of the Republicans to his ticket. The present Mayor has made a great many unnecessary enemies. His views on naturalization will repel foreign voters. He cannot expect much Irish support. Then, see how he antagonized the working people, not altogether with discretion; still, he has so many popular and admirable qualities that he may be chosen in spite of the enemies he has made.

F. K.—If Hugh J. Grant should be chosen and the immense patronage of the Mayor's office used to help the Tammany wing of the Democracy, will it not tend to discredit the conferring of so much unchecked patronage on the Mayor? The drift of things in all large cities seems to be toward minimizing the power of the Aldermen or Supervisors and giving a wider scope to the authority of the Mayor.

SIR O.—Yes, that is true enough; but I am not at all clear that Mr. Grant's Tammany appointments might not make a good average as to ability and honesty. Richard Croker and his friends would be put on their good behavior. They could not afford to put into office dishonest or dissolute politicians. We get our ideas of party appointments from a time when it was necessary to secure the support of a gang of corrupt Aldermen. The responsibility now lodged in the Mayor would be a wholesome check on the ambition of dishonest politicians to get into places of profit and power.

F. K.—Apropos of the organization of a city government, why would it not do to revive a project first broached by Mayor Opdike? He wanted the Aldermen to be made up of representatives from public bodies—such as the Chamber of Commerce, the various Exchanges, the Society of Mechanics and Tradesmen and the like. This would give us the choicest representatives of our various

industrial and mercantile interests, instead of the sorry lot of saloon-keepers and pettifoggers who are now chosen to our local Legislature.

SIR O.—The idea is good, but impracticable. It would be in direct conflict to our written Constitution. All our officers must be chosen by universal suffrage; hence the electoral districts in which the voters do not know each other and in which the fittest do not come to the front. The saloon-keeper naturally knows more voters than any one else, and hence his potent voice in our local government. We will have to submit to the situation, and if we cannot have local boards elected after the manner outlined by exMayor Opkike we must give responsibility to the Mayor. It is a notable fact that while our Aldermen are generally corrupt, our Mayors have usually been able and honest.

Men and Things.

The average citizen little guesses the minor annoyances of people who are well known in literature or art. The rich are annoyed by begging letters. But people who have made some reputation are called upon for indorsements of photographers' inventions, patent medicines and the like. A literary woman, an acquaintance of the writer, says that an unreasonably large part of her time is taken up in refusing to indorse patent bustles and corsets, photographers' cosmetics, and other merchantable articles. most ingenious traps are laid to induce her to say a word in favor of these much-advertised things. A very common plan is to get the victim to accept a present of the photograph or cosmetic and then to ask the indorsement under circumstances that makes refusal seem ungracious. who do consent are subsequently mortified at the vulgar use made of their names. A successful or notable literary woman is also the victim of callow would-be writers all over the country. They ask for advice as to what they should do to become rich and famous, and generally fail to inclose a postage stamp for the answer. These are some of the annoyances of people who have achieved distinction in any field that is profitable.

In the struggle for entertaining matter, especially for the Sunday papers, there is a great deal of refurbishing up of old articles. Women who contributed matter relating to the habits or dress of their sex twenty years ago, have recently been recasting their articles and passing them off on the younger editors who are not up on the old files of the papers. There is quite a demand in the Sunday press for striking articles that have some relation to news, and a great deal of ingenuity is shown in elaborating texts furnished by current events. It was a happy thought of the Sun of last Sunday to reproduce Edgar A. Poe's famous detective story, apropos of the London murders and mutilations. The present type of Sunday paper is based upon features first introduced in the Sunday World about 1870.

Why not get rid of the vagrant tom-cats. Dr. Warner, of East 26th street, tells the writer that the cats are becoming a crying nuisance in this city, and that their amorous howlings are a serious injury to invalids. In almost all of the old inhabited blocks there are at least three or four tom-cats, unattached to any family, who pick up a precarious living during the day and make night hideous to wakeful and sickly people. This is a matter for the Health Board to take cognizance of. The problem is simplified by the fact that the howling is done by the males. They can be captured as dogs are, taken to the pound and killed or rendered inocuous after a certain period, during which they may be claimed by their owners, who should be made to pay a penalty. By all means let us get rid of the superfluous tom-cats.

Coquelin's reception was warm but not enthusiastic; yet it was all that could be expected. There neither was, nor was there intended to be, anything blood-stirring about his acting. Its strength lies in its subtle and studied character. It appeals to the intellect rather than to the emotions, and while that statement cannot be made in an unqualified way, nevertheless thorough appreciation of it could be expected only from a person with a very delicate perceptive power. It is needless to say that an American audience with its hypothetical knowledge of French possesses no such delicate perceptions; so, while the performance was enjoyed, we may doubt if it was appreciated. Seemingly the most delighted person in the house was Mrs. Henry E. Abbey. Of course, with the possible exception of her husband.

Conspicuous in the first row of the audience was Mr. Charles Doremus and wife. The latter had some interest in attending the performance, for she was the author, so far as we know, of the only English translation of "Les Precieuses Ridicules" ever acted in this country. For two consecutive winters, representatives of the Lyceum School of Acting have given a rendering of Molière's play. Perhaps a comparison of the two performances might not be out of place. The most remarkable feature of the Lyceum performance was the careful and elaborate training which lay behind it. The walk, the rendering of the lines, the exact positions had all been carefully studied in such wise that, mechanically, the performance was almost perfect. The imprint of a clever stage manager was manifest from the very moment the curtain rose. The French performance, without half the elaboration of the other, and lacking much of the really clever and amusing business introduced by the Lyceum pupils, was nevertheless more enjoyable, because it went off with more vim. Young Mr. Bellows, we are sure, will not be offended if we say his Mascarille was hardly as good as Coquelin's, and his two young lady supporters will doubtless take goodnaturedly the remark that the French Cathos and Madelon were rather more experienced and forcible than our American ones. Then Coquelin and his supporters had an inevitable manner of being affected in an eighteenth century way without adding to their affectation any stage artificiality. In short, while the Lyceum performance was mechanically, the French performance was artistically perfect.

The Trans-Harlem Parks Awards,

The report issued by the Commission which has been sitting for four years to consider the awards to be made to property-owners whose lands are to be taken for the new parks and parkways across the Harlem, has created considerable flurry amongst the thousands of property-owners, heirs, executors and others interested. The report was issued last Friday, and we were thus only able to give a general review of the cost of these new breathing spaces. It will be of interest, however, to many to know the amounts awarded on the largest estates, and to compare the estimates of the Commission with the present actual values. The owners affected have until the 15th inst. to send in their objections to the awards, and those who are not aware of this had better examine the maps and indices to see how much has been awarded for their property. This they can do at the Department of Public Works, No. 31 Chambers street, Room 5, on the rear of the first floor. No doubt many of them will burst out into strong language when they discover the estimate on their property. The writer, who spent a day poring over the books, was shocked at the expletives used by very gentlemanly-looking fellows, but as the day wore on he became philosophically obtuse to these natural ebullitions of disappointment. The Commissioners have labored very hard on this work, and deserve great public praise for their efforts. They have held no less than 500 meetings, and are paid about onetenth of the actual value of the services they gave as Commissioners. It is not expected that all the parties affected will feel happy over the awards, and the reporter noticed that nearly all who examined the books said that they were too low, and that they intended to send in an objection. It may therefore be anticipated that the parks will not become an established fact for some time to come, owing to the difficulties in the way of settlement.

The list given below includes every property out of the 1,3431/2 parcels numbered in the official books on which \$25,000 or upwards is awarded. There are, in fact, nearly 1.400 parcels, as many of the numbers are halved. The properties are mentioned in the order as they appear in the books:

It will be observed that the largest slice falls to the estate of Augustus Van Cortlandt, and comprises over 640% acres, for which \$1,102,151 is awarded, equal to about \$1,708 per acre. The property is situated south of

the boundary line of the city, and is all unimproved ground, with the exception of several buildings, for which \$37,500 is awarded, making the Some of the valuations further south are worth quoting. In Bronx Park there is a choice plot-the property of Austin C. Chandler, containing 9,026-10,000ths or about 9-10ths of an acre, for which \$25,504 is awarded, exclusive of \$12,800 for buildings. J. B. Haskir is given exactly \$10,000 an acre for properties on Tremont and 3d avenues, Broad street and bordering on the Suburban Rapid Transit Road. The valuations in various other sections will no doubt interest abutting property-owners. would be impossible to devote the space required to publish the hundreds of smaller parcels, but those interested can examine them at the office mentioned above. The size and location of the property does not appear in the indices, and in order to facilitate a search, which takes some time to the uninitiated, owners or their agents should first locate the property on the maps, note the number, and then refer to the corresponding number in the indices, where they will find the amount awarded entered opposite the map number.

It should be added that Commissioners Luther R. Marsh and Geo. W. Quintard signed the report without reserve, but that Mr. Page attaches his signature with the following words: "J. Seaver Page signs the above report, except as to the properties in the Bronx Park, which he regards as estimated at too high a value." The awards in detail for the parks are as

In the course of their report the Commissioners say: "We have regarded the lands and properties mentioned in the act of June 14th, 1884, as taken and appropriated by that act and have appraised the value as of that date, although the subsequent increase in value, notwithstanding it was caused largely by the fact of the establishment of these parks and parkways, has influenced us to make such estimate liberal. We have also considered and allowed for the delay of over four years since in making the awards, the taxes since imposed, the occupation. meantime, of the parties, whether valuable or unproductive, the rights of riparian owners, whether on the Sound, or bays or internal streams, and the claims of parties and former and adjoining owners to reversion in cases of cessation of easements, whether of highways or bridges." The report will be presented to the General Term of the Supreme Court for confirmation at the Court House on Tuesday, the 23d inst., and all objections should be delivered or sent to the Commissioners at their office in the Alpine Building, on the corner of Broadway and 33d street, room 11, seventh floor, by the 15th inst. Up till 4 P. M. yesterday only twenty-one objections had been received at the office of the Commission.

The Elm Street Improvement.

At the last meeting of the Board of Street Opening and Improvement, the matter of widening Elm street came up again for discussion among the "unfinished business," and was again postponed until Friday next, the 19th of October. Mayor Hewitt said that he had been misquoted by the statement in the newspapers that he was opposed to the proposed improvement. This was not true. He merely wished to be convinced that the enormous outlay was justifiable before it was saddled upon the taxpayers. No argument, he said, that he had yet heard convinced him. Many letters from property-holders along the route of the proposed improvement were read. Most of them opposed the project, and some complained of the delay which has occurred in arriving at a decision. The suspense is said to be injuriously affecting property. It deters buyers from purchasing, delays improvements, and prevents leasing and renting. The Board of Street Opening have had ample time to fully inform themselves as to whether the improvement is needed or not and whether it is judicious or not. Individual interests have to suffer at times for the sake of the larger interests of the community, but it is easy to overstep the proper bounds and commit injustice. Among other matters transacted by the Board was the adoption of a resolution directing the secretary, in consultation with the Comptroller and the Commissioner of Public Works, to prepare estimates of the value of the land required for the High Bridge Park, there being no data available on the point.

The Manhattan Elevated Road has made arrangements, on and after Monday next, the 15th inst., to run a third special express train between Two trains now leave that station daily at Rector street and Yonkers. 4 and 4.38 P. M., and these will be supplemented by a 5 o'clock train. This has for a long time been demanded, and while it is a welcome announcement to those who reside in the upper sections of the city, and in Yonkers, Dunwoodie and vicinity, there is still a cry for more express trains, which are sadly needed for the artisans, clerks and small business men who live on the line of the New York & Northern Road. There should certainly be two later trains to meet these demands, one at 5.30 and the other at 6 P. M. These express trains are valuable to property in upper New York, and to those of moderate means living in the region around Yonkers. There land is very cheap compared with city prices, and rents are equally low, thus attracting people of small income. New Yorkers hardly realize how rapid is the communication between the business section of the city and Yonkers by means of these express trains. The time between 155th street and that thriving suburb is only 16 minutes, while the journey from Rector to 155th street is done in 38 minutes. The Manhattan Road would increase its traffic by putting on more express trains, and at the same time relieve the way traffic. It is understood that these and other changes and improvements have for some time been contemplated by the officers of the

road, but they have been held back owing to the harassing claims of property-owners for damages to real estate on the line of the elevated structures. It is high time that these cases should be settled. They have dragged along slowly enough, and it is as important to the property-owners, as it is to the Manhattan Road, that the awards, if any are to be granted, should be made as quickly as possible, so that the company may know in what position it stands to make any changes and improvements which it may contemplate. The three commissioners to be appointed to assess the damages should be able to dispose of the 150 claims in a few months.

Negotiable Real Estate Bonds.

Following close upon the adoption by a number of the trust companies of the practice of making short loans on real estate or mortgages as collateral, when the title is guaranteed, comes another step in the direction of rendering New York real estate still more transferable.

A mortgage covering a valuable Broadway property has just been made to the Farmers' Loan and Trust Company, as trustee, to secure a series of first mortgage bonds, the title to this property being guaranteed by the Title Guarantee and Trust Company, and its policy for the amount of the bonds being deposited with the trustee.

The bonds thus issued have all the stability of a real estate mortgage, coupled with the negotiability of railroad bonds or other stock collateral. The question of title, which has been the stumbling-block in the way of carrying out such a plan (confessedly the ideal one for large mortgages), is obviated by the title insurance system. All the bonds have been taken by a single firm.

Slowly the ancient fetters are being shaken from real estate methods, and very rapid strides are now being made toward a simple and businesslike handling of this most desirable class of property.

This last move will be watched with great interest by the Real Estate Exchange, and it is the view of many that the large mortgages in the city will gradually be funded in this way. It is not too much to expect that dealing in such bonds will grow to be one of the important features of business transacted by the admirable Real Estate Exchange of this city.

The excellent security which such bonds afford will be thrown open to the average investor, so that the borrower will not be confined to a few great corporations. The bonds will have much more to commend them than the customary railroad mortgage. The property cannot be wrecked or stolen; the investor can see what security he has and judge of its value, and each bond bears the certificate of the trustee as to the number of bonds issued and to the fact that it holds the guarantee policy of the title company insuring the title. The bonds are not as liable to be listed by the tax assessors as morigages themselves, for mortgages can be followed by the record while coupon bonds go to bearer. As long as the law of double taxation, first on the fee and second on the mortgage, remains on the statute book, the bonds would seem to be a better security to hold than the straight mortgage.

Will More Mortgage Forgeries be Discovered?

When the Bedell forgeries were made public considerable anxiety was felt by the thousands who had loaned money on realty, and when the Foster forgeries followed so quickly the feeling was intensified. Many mortgage deeds have been presented at the Register's office for verification, while a good deal of overhauling has been done in lawyers' offices generally. Thus far these investigations have not resulted in the discovery of numerous irregularities; and it becomes a question whether they exist. It is in any event remarkable that so few forgeries should be discovered when it is considered 'low many thousands of people intrust their fortunes to men in whom they repose complete confidence and whose word they accept as gospel. Many millions of dollars pass through the hands of lawyers and agents, and very rarely is a forgery perpetrated. Still, when it comes, no one knows whom it may strike, and it is well to provide every safeguard against its occurrence, and to have the means of immediately discovering any oversight or fraud.

A representative of The Record and Guide called upon E. P. Bramwell, of the Bond and Mortgage Department of the Equitable Life Assurance Society, to get his views:

Your experience of law firms and others loaning money on mortgage for clients must be very extended. Do you think there is any reason to believe," asked the reporter, "that these frauds are more widespread than imagined by the general public?"

"I do not," said Mr. Bramwell. "I believe the men who have funds intrusted to them by business men, large and small property-owners, retired gentlemen, widows and others, are on the whole trustworthy. forgeries occur, as they do from time to time, it is generally a clerk or a prominent employé who is the culprit, and not the members of the firm. This was so in the case of Shipman, Barlow, Larocque & Choate. Of course the clients in this case are secured, but they might not have been had the members of the firm not been as wealthy as they are."

"How do you think that clients can protect themselves against frauds perpetrated by either clerks or employers?"

"Well," said Mr. Bramwell, "I know of no way, except by following every week, as I do closely, the list of mortgages published by the paper you represent. If people who intrust money to law firms and agents to be loaned on bond and mortgage would scan the official list of mortgage deeds recorded in the Register's office, which THE RECORD AND GUIDE publishes weekly, they would at once discover any omission to record the mortgages on property upon which they were informed their money had been loaned. It is a simple and perfect safeguard. Not only that, but it seems that even most scrupulously careful of lawyers, as in the case of Mr. Choate, can be deceived, and if that is so, such a search in your columns is doubly

"Do you think that your strictures hold good as to corporations?"

"Hardly," was the reply. "In the case of corporations and large institutions each mortgage transaction passes through five or six different

responsible hands, while with firms it is done by a confidential clerk and one of the members of the firm. It would be almost absurd to suppose collusion between five or six officers of a company. So that while with private firms such a thing is likely, with corporations it would be almost impossible.

The duplicity exercised in advertising properties by some people is not only questionable in practice, but generally futile in its object. of property is advertised it should not be sought by implication to cover up a defect by a glowing description and an abnormally cheap figure—the one hiding a drawback, the other proclaiming an apparent sacrifice. One or two recent instances of this specious advertising may be quoted. dence on Madison avenue was advertised for sale as a "full width" house. The published description did not state that the lot was about 50 feet deep, instead of what the ordinary reading public would presume a lot to be on which a Madison avenue 25-foot house stood-100 feet deep. Of course, intending buyers went to examine the house, seemingly so cheap, and found that they had wasted a journey, and possibly carriage hire, for their pains. who advertise this way will meet with many disgusted people, but very, very rarely with buyers. Another recent case was that of a house on 50th street, near 6th avenue, which was offered at a most temptingly sacrificing figure. But the advertisement did not state that it was Columbia College leasehold property, which made all the difference in the world. Square and honest advertising always pays the advertiser in the end, both in pocket and reputation.

Important to Property-Holders.

BOARD OF ASSESSORS.

No. 11½ City Hall, New York, October 5, 1888. \right\} Notice is given to the owner or owners of all houses and lots affected thereby, that the following assessments have been completed and are lodged in the office of the Board of Assessors for examination by all parties interested, who must present their objections in writing, if opposed to the same within thirty days from date of notice

FLAGGING.

No. 1.—14th st, s s, bet Avs B & C.

No. 2.—9th av, n e cor 92d st, abt 100 ft. on av x 125 feet on st; also reflagging, curbing and recurbing.

No. 8.-33d st, n s, extdg abt 100 ft. west of 9th av.

No. 9.—71st st, s s, east of 2d av.

CROSSWALKS.

No. 3.—42d st, w s, and Vanderbilt av.

No. 4.—Canal st, within the limits of westerly sidewalk of Chrystie st. FENCING VACANT LOTS.

fo. 4.—10th av, e s, bet 61st and 62d sts.
62d st, s s, for abt 200 east of 10th av.
61st st, n s, for abt 100 ft. east of 10th av.
[The limits embraced by said assessments include all the houses and lots

of ground situated as follows:

No. 1.—106th and 107th sts, Manhattan and 9th avs—block.

No. 2.—78th st, n s, bet 9th and 10th avs.

No. 3.-65th st, both sides, from 10th to 11th av, and to the extent of half the block at the intersecting avs.

-10th av, e s, bet 61st and 62d sts. 62d st, s s, extdg abt 200 easterly from 10th av.]

The above described list will be transmitted for confirmation on the 10th day of November, 1888.

Western papers are beginning to complain of the indifference of Congress to the irrigation of the desert lands west of the Mississippi. According to Major Powell, of the Geological Survey, there are 150,000 square miles of arid region east of the Rocky Mountains—an area equal to one-half that is now under cultivation in the United States—much of which might be rendered fertile by irrigation. In many cases large regions could be rendered serviceable simply by constructing reservoirs on now entirely useless streams, whence the water could be distributed freely. This is a task the government ought to undertake. The improvement is too important and necessary to be left to private enterprise.

Wants and Offers at the Exchange.

(For the week ending Thursday, Oct. 11th.

The items under the head of "wanted" are condensed statements showing what sort of property the broker, whose "number" precedes the item, wishes to secure for clients. The items under "offered" give the location, size, cost, and a brief description of the property offered for sale by the broker whose "number" precedes the item.

208 \$10,000 to lend on city property	
495 46th street, near Broadway. Elegant	private dwelling,
years' lease, per annum	6,500
	208 \$10,000 to lend on city property

Real Estate Department.

The attendance at the Exchange during the week has been very good, and the sales held were both numerous and important. It is true that some of the largest parcels announced to be sold were not offered, among which may be mentioned the foreclosure sales of the Assembly Rooms on Avenue A and the easterly front on 9th avenue, 87th and 88th streets. Both pieces will, however, soon come under the hammer. As to the properties which were offered it cannot be said the result was satisfactory, for the bidding was generally slow and the bidders were few. An exception must be noted in the Hunt estate sale of Brooklyn lots on Tuesday, which were eagerly bid for and sold at excellent prices. A summary of the business done from day to day is given below. Bills are out for many sales to be held during the next few weeks, and the Exchange will no doubt be well attended.

Although there were no sales held at the Exchange on Monday the Salesroom was well attended by both brokers and investors.

Business for the week begun in earnest on Tuesday, at the Exchange, when numerous sales were held. In the way of dwellings two on West 72d street were offered, one was bid in at \$38,100 and the other was withdrawn. The asking price for a similar house, without decorations, is said to have been \$45,000. An east side dwelling No. 64 East 56th street, was offered under foreclosure and secured by the plaintiff for \$38,000. Nearly \$37,000 was due thereon. Two lots on 9th avenue, north of 97th street, were sold for \$9,750 each to Newman Cowen. Other lots in the same block were sold eighteen months ago for about \$11,000 apiece-singularly enough to the same operator. Mr. Cowen resold the lots for about \$13,500 each with a loan for improvement. Eleven lots on Cedar place in the 23d Ward were sold at from \$730 to \$1,000 per lot. The latter figure was paid for the corner of Forest avenue.

Wednesday was a busy day on 'Change. The sales were numerous and embraced several costly properties. The result of the offerings, however, was not satisfactory, and the general impression seemed to be that no titles will pass on the parcels knocked down. The Carnochan dwelling No. 14 East 16th street, with extra large lot and stable on rear, was started at \$55,000 and struck down at \$60,000. The first bid for No. 7 West 53d street, next to St. Thomas's Church, was \$50,000, and the highest bid \$59,750. Three five-story flats with stores on the southeast corner of 3d avenue, on 65th street, were started at \$100,000 and knocked down at \$128,000. Nos. 37 and 39 King street were withdrawn from sale, and five flats on East 113th street were sold under foreclosure for \$25,400. The same property was sold in February, 1886, to the late Banker Bergamini for \$35,000.

The Hunt estate sale of lots on 1st, 2d, 3d, 4th and 5th avenues and 56th, 57th and 58th streets began at 12.30 o'clock. A large crowd, including many ladies, were gathered around Auctioneer Meyer's stand when the sale began. The bidding was active and excellent prices were realized. The fronts on 3d avenue, between 56th and 57th and 57th and 58th streets, brought \$15,400 and \$14,700 respectively. A year ago at a sale of part of the same estate \$11,400 was realized for the block front on 3d avenue, between 57th and 58th streets, opposite the front which brought \$14,700 on Wednesday, an advance of over 25 per cent. in one year. A 2d avenue front brought \$6,200, against \$5,060 for the opposite front at the last sale. Block fronts on 1st, 4th and 5th avenues were sold for \$5,445, \$5,200 and A total of \$141,330, or an average of \$466 per lot, was \$6,075 respectively. obtained for the 304 lots sold. In October, 1887, 348 lots were sold for \$133,165, or an average of \$382. In November, 1887, 581 lots brought \$103,520, or an average of \$178 apiece. The lots sold on Wednesday were much more valuable than those sold a year ago, hence the large increase in the average price per lot.

More than one-half the sales bulletined for Thursday were postponed. The parcels sold embraced five unfinished houses on East 75th street, Nos. They were bought by the plaintiff for \$118,500, about the amount due on the first mortgage. There is a second mortgage for \$30,000 held by material men for supplies furnished. Low prices were realized for fourstory flats on Fulton street, near Grand avenue, Brooklyn. After four were sold the remainder were withdrawn. It was announced that \$11,000 might remain on mortgage at 5 per cent., yet \$12,500 was the highest figure obtained for any of the flats which rent for about \$1,500 apiece.

On Tuesday next, the 16th inst., James C. Lalor will sell the four-story brick dwelling, with two-story extension, at No. 60 Monroe street, between Market and Pike, and the two six-story double tenements, with three-story building in rear, at No. 10 Hamilton street. These properties are to be sold under Supreme Court order, in partition.

On Tuesday next, October 16, Richard V. Harnett & Co. will sell the five-story manufactory, supplied with steam power, No. 147 Baxter street, near Grand. Also the five-story flat and store No. 2704 8th avenue, adjoining the corner of 144th street.

On Wednesday, the 17th inst, Scott & Myers will sell, under the direction of Hy. H. Anderson and Thomas J. Rush, the following properties: The four-story store and tenement property at No. 546 2d avenue, near 30th street; the three-story dwelling No. 245 East 32d street, and the brick building with store on the northwest corner of 2d avenue and 34th street. There are all Supreme Court partition sales.

On Wednesday, the 17th inst., J. E. Brugiere will sell the choice residence situate at No. 269 5th avenue, two doors north of 29th street. This is an opportunity to obtain a property which is prospectively valuable on account of the rapid transformation of lower 5th avenue to a business The same time Mr. Brugiere will sell the two-story stable at No. quarter. 127 West 28th street. Both properties will be sold in partition, by order of the Supreme Court.

On Wednesday the 17th inst., Smyth & Ryan will sell the double hot and cold water flat, situate at No. 348 East 58th street. It has a brown stone front and is five stores high.

On Thursday, the 18th inst., Richard V. Harnett & Co. will sell the three five-story flats Nos. 262 to 266 West 131st street, near 8th avenue, and on the same day, to close an estate, four choice lots on Clinton avenue, and two brown stone houses on De Kalb avenue, Rrooklyn, being on the southwest corner. The latter will be sold at the New York Real Estate Exchange.

On Thursday next, the 18th inst., A. H. Muller & Son will sell some valuable vacant properties, by order of the executors of Edward J. King. They comprise four lots and two gores on 68th street, between 8th and 9th avenues, eight on the northwest corner of 8th avenue and 113th street, and four on 120th street, between 7th and St. Nicholas avenues. This is an opportunity to obtain some building lots in good locations.

On Tuesday, October 23d, Richard V. Harnett & Co. will sell, by order of the executor, the brick dwellings situate at Nos. 130 to 134 Washington place and 187 to 191 West 4th street.

On Wednesday, October 24th, James C. Lalor will conduct one of the most important sales so far announced this fall, at the Real Estate Exchange. It is to close estates, and the list of parcels to be offered comprises most desirable property in this city and in Brooklyn.

The list is too long to quote here. It is given in full, however, in our ad vertisement columns.

Gossip of the Week.

A. L. Mordecai has made the following sales: For J. C. Umberfield, a five-story flat on the northeast corner of Park avenue and 82d street, 33x96 x100, for \$95,000; for John W. Haaren, two five-story flats Nos. 12 and 14 West 134th street, 50x100, for \$50,000; for Wm. R. Martin, four lots on the northeast corner of 5th avenue and 134th street, 100x100, for \$46,500; for James Kearney, the westerly front on 8th avenue, between 148th and 149th streets, 200 x irregular, for \$65,000; to Mrs. Sickles, the large brown stone house No. 223 Union street, Brooklyn, with grounds 140x100, for \$45,000. Mr. Mordecai has also sold four lots on the northwest corner of 10th avenue and 78th street, 102.2x100, for \$61,000.

Walker & Lawson have sold the five-story steam-heated flat on the southeast corner of 8th avenue and 40th street, 24.9x71x75, to Michael Walz for \$75,000. Brokers, Campbell & Gallon.

Frank E. Davidson has sold for W. E. D. Stokes another of his four-story houses on the east side of West End avenue, between 75th and 76th streets, size 18x46x75, to J. W. Dudley for \$32,000.

H. Ludlow Hay has sold for Wm. M. Onderdonk the three-story brown stone dwelling No. 134 West 48th street, 20x50x105, for \$22,750, and for Charles T. Barney the four-story brick and stone dwelling No. 177 West 74th street, 21.4x56x102.6, on private terms.

Bellamy & Winans have sold for Chas. Duggin the four-story brown stone dwelling No. 38 East 70th street, 16x85x100, to Mrs. Baldwin, of 17 West 53d street, for \$34,000.

A. H. Muller & Son have sold the Otis House, No. 14 West 12th street, 25 x70x about 123, a four-story French basement dwelling next to the late Thurlow Weed's residence, for \$38,000 to John Rogers, the sculptor.

H. H. Cammann & Co. have sold the three-story stone front dwelling No. 18 West 17th street, 25x57x92, for \$41,000 to Alexander Knox.

M. B. Baer & Co. have sold for E. G. Drake the three-story brick store building No. 1382 Broadway, near 38th street, 28x irregular, for \$32,000.

J. D. Brez, executor, has sold the four-story, high stoop, brown stone dwelling No. 311 East 17th street, 22.4x56x106, for \$25,000.

J. Edgar Leaycraft has sold for Wm. C. Schmidt the five-story double flat with four stores on the northwest corner of 10th avenue and 104th street, 25.11x96x100, for \$48,000 to Wm. C. Adams.

Lespinasse & Friedman have sold the four-story stone front dwelling No. 555 Madison avenue, between 55th and 56th streets, 18.5x60x100, for \$82,500 to H. S. Lawrence.

Terence Farley's Sons have sold another of their handsome houses on West 71st street, No. 77 West, size 22x102.2, for \$36,000. F. E. Craig is the buyer.

J. C. Caldwell has sold the two houses Nos. 152 and 154 West 97th street. And still the building trusts continue. During the week Builder Edward Dressler has conveyed new buildings on St. Nicholas, Manhattan and 9th avenues to a committee of creditors. The 9th avenue flats were to have been foreclosed on Thursday, but an arrangement was made which prevented the sale.

Messrs. Scott & Bowne, the chemists of South 5th avenue, continue to acquire West End avenue lots. During the week they took title to fifteen lots between and on 103d and 104th streets. The consideration was \$113,000. A previous purchase was the southeast corner of 82d street (four lots) at \$38,000.

Weinstein & Jarmulowsky have sold the five-story brick and stone flat No. 235 East 10th street, 25x50x94.10, for \$24,250 to Aaron Hirsh; and Weinstein & Mandelbaum have sold the six-story and basement brick tenement No. 98 Christopher street, 26x70x25x65, for \$24,000 to Peter E. Fitzpatrick.

John Boyd has sold the lots Nos. 151 and 153 East 23d street, 52x98.9, for \$41,000. Thos. L. Duffy has filed plans for a factory to be built on these lots.

The four-story store No. 355 6th avenue, southwest corner of 22d street, size 23x65, which was to have been sold at auction on Tuesday, by order of the executors of David Hayward, was not offered, having been previously sold at private contract. The particulars have not transpired.

Many North New York property-owners will oppose Mayor Hewitt on account of the position he has taken against the opening of any streets beyond the Harlem which are more than a mile long.

Notice is given that the bill of costs, etc., in the matter relative to the opening of 143d street, from 8th avenue to the first new avenue west of 8th avenue, will be presented for taxation to one of the justices of the Supreme Court on October 24th.

Wm. Noble is the purchaser of the five lots on the northeast corner of 9th avenue and 88th street, which were this week transferred by John C. Overhiser to Elizabeth Coates for \$75,000. The brokers were Maclay & Davies.

The Foster mortgage forgeries have so much disturbed the trustees of the Produce Exchange Gratuity Fund that they have sent all the genuine mortgages negotiated by Foster to The Title Guarantee and Trust Company for re-examination and guarantee of the title, that there may be no further uncertainty about their securities. The Fund has thus followed the example of the Maritime Exchange, which did the same thing.

Brooklyn.

Chas. A. Seymour & Co. have sold for James Bryar the four-story brown stone dwelling with box stoop No. 136 Joralemon street, 25x60x100, for \$54,000 to John Notman, of Butler, Stillman & Hubbard. Mr. Bryar purchased the house last May from Broker Henry S. Ives for \$35,000. It is said that the latter spent many thousand dollars on the interior of the dwelling.

Corwith Bros. have sold for H. D. Van Orden three lots on the southwest corner of Nassau avenue and Newell street, 75x100, to Chas. Stockford, for \$6,200.

J. P. Sloane has sold for Thos. McCaffrey the lot, 25x100, with two-story frame house, at No. 183 Greenpoint avenue, to Albert Rolfing for \$3,300.

R. Westbrook Myers has sold the plot, 32x80, on the southwest corner of Concord and Gold streets, with three buildings thereon, for \$12,500 to Fred. Buse, of New York.

Out Among the Builders.

Richard Berger has plans on the board for extensive alterations to the old Prescott Hotel, on the northwest corner of Broadway and Prince street. It will be entirely remodeled, reconstructed in parts, and will be fitted up as an office building, with elevators, steam heat, etc. Nathan Schwab is the lessee.

Oscar Hammerstein is having sketches drawn by Andrew Spence for a seven-story and basement hotel, which he intends building on the block between 116th and 117th streets, St. Nicholas and 7th avenues. It will have a frontage of 103 and 123 feet on the two avenues, respectively, and 76 feet on 117th street. The fronts will be of Ohio stone, and an elevator, steam heat, partial fire-proofing, electrical apparatus and other improvements will be provided. The cooking, laundry and dining rooms will be on the top floor, and the steam-power in the vaults below ground. The cost is estimated at \$80,000.

We have received several inquiries lately as to when work will probably be commenced on the new World building. Certainly there has been a little delay in starting construction, considering how far advanced the season is, but we know of no reason for thinking, as some of our correspondents hint, that the project has been abandoned. From inquiries which we have made at the World office, we learn that George B. Post has made the designs, and the delay is solely due to some slight hitch with the plans. It is easy to understand that arranging for so large a building requires time and much consideration.

Ed. Wenz has the plans on the boards for four five-story brown stone front fiats, 25x87, to be built by Hugh Brady on the northeast corner of 4th avenue and 104th street. The corner will be 23x96.11, with three stores, and the others 25x87 each, and they will cost \$75,000. The same architect has plans for a five-story tenement, 25x57, to be built by O. T. Marshall on the north side of 115th street, 245 feet east of 1st avenue. The front will be of brick and Euclid stone, and the cost \$13,000.

Dempsey & Fredericks intend to improve two lots on the west side of Pleasant avenue, 50.10 feet north of 112th street,

Competitive designs are now being prepared for two important ecclesiastical buildings—the Protestant Cathedral, and St. Luke's Church to be built on the west side for the Trinity corporation. The erection of the first-named building is still some considerable distance ahead, but in all probability work will be commenced on the latter within a reasonable time. We understand that among the architects who are engaged upon designs for one or both of these edifices are Messrs. Charles C. Haight, R. M. Upjohn, W. A. Potter, Wm. Halsey Wood, Frederick C. Withers and R. H. Robertson.

Joseph Wolf has plans for a four-story brick and stone flat, to be erected at No. 1060 10th avenue by Catherine Eller. It will be 25x63,6.

Wm. Noble will improve five lots on the northeast corner of 9th avenue and 88th street, which plot he has just purchased, by the erection of flats. The details have not yet been settled on.

Peter Behrens and Cornelius Link intend to build five five-story brick and brown stone front flats, 25x85 each, on the south side of 114th street, 100 feet east of 5th avenue, to cost \$90,000. Architect, Andrew Spence.

Louis Kayser has plans for building a two-story and cellar tenement for Vina Dvorak on the west side of Vanderbilt avenue, near Tremont avenue.

Alex. Fowler is drawing plans for a five-story tenement, 25x85, to be built by Thomas McInnery on the south side of 134th street, 375 feet east of 8th avenue.

The twenty-second annual convention of the American Institute of Architects will be opened at the Buffalo Library Building, Buffalo, N. Y., on Wednesday next, 17th of October. The headquarters will be at the Genesee Hotel, which offers special rates to Institute members.

Brooklyn.

Th. Engelhardt is preparing plans for two four-story brick flats, 25x62 each, with extensions 12x14, four stories high, to be built on the south side of Hart street, 150 west of Lewis avenue, for William Mogk, to cost \$15,000.

Joseph Ryan is about to build a four-story brick flat, 20x55, on Jay street, near Concord street, to cost \$4,000.

Out of Town.

FAR ROCKAWAY, L. I.—H. Rutgers Marshall has made plans for a three-story residence, of frame, 28x52, for Eugene Lentilhon. Cost, \$8,000.

ISLIP, L. I.—F. Carles Merry has plans under way for a two-and-a-half-story residence, 60x70, of stone and frame, for Mrs. D. Head. Cost. \$30,000.

Kansas City, Mo.—The National Grand Lodge of Colored Masons have appropriated \$200,000 for a new temple to be erected here. The architect has not been chosen.

Sharon, Conn.—Lamb & Rich have plans on the boards for a two-and-a-half-story residence, 30x80, in the old Colonial style, for Mrs. E. O. Wheeler, of this place.

Contractors' Notes.

The Department of Docks will receive bids until Wednesday, October 24th, for dredging at the bulkhead between Perry street and West 11th street, North River.

P. J. Moran & Co. have the contract for constructing approaches to and reconstructing the of grounds around the Metropolitan Museum of Art in Central Park. Estimate, \$26,235.

Proposals for materials and work required in the erection of a residence for the medical superintendent, Branch Lunatic Asylum, Hart's Island, New York, will be received by the Commissioners of Public Charities and Correction until Wednesday, October 24. Bids will also be received until the same date for materials and work required for steam-heating, at Central Islip, L. I.

Bids will be received by the Department of Public Works until Wednesday, October 24th, at 11 o'clock, for the following work: For regulating and paving with trap-block pavement the carriage-way of Boston avenue, from 3d avenue to 167th street, and laying additional crosswalks in said avenue; for regulating, grading, setting curb-stones and flagging the side-walks in Lind avenue, from Devoe street to Wolf street; for the construction of retaining wall and appurtenances thereof, walk and drainage in the Riverside Park.

Special Notices.

The advertisement of Walter Stabler, No. 31 Nassau street, will be found in another column. It is of special interest to all persons desiring builder's loans and second mortgages. Mr. Stabler also has large sums to put out permanently on city or Brooklyn property, at from 4½ to 6 per cent.

Pratt & Molleson, the well-known quarriers and agents for various kinds of granite, onyx and marble, have removed from No. 11 to No. 17 East 42d street, three doors further west.

Porter & Co., the well-known east side real estate agents, have decided to bid for as large a share of the west side business as possible, and to that end have opened an office at No. 206 West 125th street. On the east side, at their old headquarters, No. 77 East 125th street, this firm has been conspicuously successful—due to thorough business methods and the strict attention given to the interest of clients. David F. Porter, one of the members of the firm, is also a member of the Real Estate Exchange.

All builders should write to G. Bickelhoupt, Nos. 243 and 245 West 47th street, for one of his illustrated catalogues of his patented sky-lights. They stand now among the very first sheet metal sky-lights in the market, and represent the very latest improvements in these articles. They are manufactured by several new and novel machines, and are specially constructed for convenience of operating, strength and durability of parts and simplicity. They are fire-proof, and are made so that the metal does not conflict with the glass in expansion and contraction. The prices are not higher than those often asked for very inferior articles.

Our readers should inspect some work recently completed for Enoch Morgan's Sons on the corner of Bank and West streets, by James O'Toole, the well-known builder and mason. It is regarded by some as one of the finest

pieces of mason work in the city. Mr. O'Toole has a reputation for doing first-class, reliable work, and among the jobs he has recently had are the building on the southwest corner of 5th avenue and 13th street, the David Jones Brewery and the Murray mansion on Riverside Drive and 84th street

The Alabama law, to prevent the employment by railroads of men whose color sense or visual power is defective, has now been in operation over a year and with excellent results. The three physicians composing the board of examiners have printed a list of all the persons found by them to be defective in either of the two respects mentioned by the law. This list states the name, age, birthplace, the particular employment and the em

ployer, if any, of each person thus disqualified, together with the date of his examination and a precise statement of his optical deficiency. The chief value of the list is that it will tend to prevent the employment by railroads generally of those whose names appear upon it. Other States ought to have similar laws.

For the first time in the history of the American navy, the government finds itself able to send an iron cruiser abroad to take care of American interests. The departure of the Boston for the Guatemalan coast may be regarded as the first formal notice to maritime nations that the United States will soon have a navy that will amount to something.

BUILDING MATERIAL MARKET.

The proposition to consolidate the Building Material Exchange and the Mechanics' and Traders' Exchange is progressive, and it looks as though the project might finally be accomplished. A meeting of project might inally be accomplished. A meeting of the special committee of the Building Material Exchange was held this week to take the matter under consideration, and though full particulars of the result have not been given out, the following has appeared as indicating what was accomplished: The committee decided to recommend the consolidation, and prepared a plan in accordance with which it was thought the two commercial bodies could come together on a fair basis. There was considerable discussion in regard to the name of the new organization, two being recommended—"The Building Trades' Exchange. The plan also recommended what was considered a fair financial arrangement. The committee has reported to the Board of Trustees, and final action of the members of the exchange will very likely be taken early next month.

BRICKS.—Conditions remain substantially the same

be taken early next month.

BRICKS.—Conditions remain substantially the same on the market for Common Hards, as indicated by more or less stereotyped reports for many weeks past. If there be any change at all it is an inclination toward somewhat greater firmness on the most desirable stock, and indeed a few sales are said to have been made at a slight gain over what could be shown at the commencement of the month, but the improvement is not quick and invigorating, with receivers admitting that they find it a difficult matter to make their advantage pronounced. So far as can be discovered through ordinary methods of comparison, actual consumptive demand does not expand, nor do dealers manifest any greater inclination to add to their accumulations, but the dropping off in arrivals is becoming somewhat more noticeable, and there is a natural and commendable effort to make this useful as a stimulant to values. Furthermore, the "season" is now rapidly drawing to a close and production must soon cease entirely. That will not necessarily end shipments and stock is likely to come along to a greater or less extent as long as navigation continues open, but will undoubtedly materially curtail the movement and place manufacturers in a somewhat more independent position. Some doubt exists as to prospects for fall and winter consumption, but we understand a fair number of very good jobs are expected to come on before a great while and a hopeful feeling is generated accordingly. Altogether it is fair to assume that the chances for the market are a measure brighter, and it is to be hoped may continue to improve. On a revision of quotations there is a marking up of 12½@ 25c. per M, and in some cases even a fraction more asked at the close. Pales not very active, and it still requires the best of stock to command outside figures.

GLASS.—A moderately, active demand is reported for window, against which the offering is fair BRICKS.—Conditions remain substantially the same

GLASS.—A moderately, active demand is reported for window, against which the offering is fair, and holders meeting the outlet without much hesitation. Values, however, are kept well in hand, and the mar-ket, as a whole, may be considered steady. Plate is selling very well, and shows generally sustained values throughout.

LATH.—The improving tendency of last week seems to be making headway, and reports are in still more confident form. The immediate local custom is probably not over anxious, and would hardly exhaust any great amount of stock at the moment, but custom at dependent points is said to be waking up and urging receivers somewhat to enter upon engagements to arrive, to which they obtain indifferent response except at a higher plane of valuation. Most stress, however, we find is laid upon the prospect for supplies, manufacturers expressing a determination in many instances to shut off production early, and the chances for transportation proving somewhat doubtful. A large proportion of the vessels running the regular route are said to be at this end and awaiting return cargoes, and tonnage at the Eastward correspondingly scarce, with a natural sequence expected in higher freight charges on current shipments and those that may follow for some little time to come, though a portion of the trade here seem to think that if cargoes are ready they can get freight room at St. John as well as Maine ports. Sales have been made this week at \$2.10, but at the close \$2.15 per M is about as low as first-class stock can be reached, and \$2.25 is asked to arrive. to be making headway, and reports are in still more

LIME.—Further arrivals have taken place from the Eastward, coming to hand in a somewhat irregular manner, yet about in accord with calculations as to quantity, the general management of the situation bequantity, the general management of the situation being such that receivers are kept pretty well posted upon what they may expect. The distribution of cargoes was fair, customers having use for stock making no unnecessary delay in developing their wants, as nothing could be gained by standing off in the face of rates fixed and controlled by the Eastern Association. St. John and State lime in the meanwhile secure about average proportionate attention and command steady rates.

LUMBER.—It is difficult to suggest anything new or interesting on our local lumber market at the moor interesting on our local lumber market at the moment. Distribution jogs along slowily and without evidence to indicate that a quickening may be expected this year, with a natural result to be found in a corresponding tone toward first hand offerings of all kinds. Agents who have been taking a final swing around the circle of neighboring cities, towns and villages, say that similar conditions prevail pretty much everywhere, and that while orders were secured in many instances they were not in size or quantity

anything to compare with former seasons. Dealers are still getting considerable stock under early contract, and that, in conjunction with purchases made under low offerings of coastwise or interior goods, is keeping docks reasonably full and forces business enough in handling to retard further important investment in many cases. An effort is still being made to keep and maintain a high order of quality in the accumulation, but a great deal of poor stuff gets piled away because it has been forced to a sale and picked up very cheap.

Eastern Spruce "might go pretty high again this season," says a receiver, but by way of explanation thinks it would only be on the contingency of very nearly an entire suspension of supplies. Many dealers, however, claim to have pretty nearly enough stock already and pretend to feel indifferent as to future arrivals. It is likely that full sizes will do very well, but short and narrower stuff is not wanted, and especially in large cargoes, as the out-of-town yards cannot handle such, and local dealers will not except at a big discount, knowing just where their advantage is to be found. It is as usual "expected" that arrivals will run light for some time and fuller rates are talked of. We quote at \$13,00@\$14.00 per M for 6 to 9 inch and \$15.00@\$16.00 for 10 to 12 inch, with specials at \$16.50@\$17.50 per M.

At the close information comes to us that would seem to indicate a stronger undertone developing. Eastern manufacturers, complaining of the prices, express a determination to shut down very early and say they cannot in the meantime ship much stock if they desired, owing to scarcity of tonnage. Demand is also said to be better, especially from out-of-town customers who with the advance of the season feel the necessity for stirring themselves and receivers gain confidence in accordance with the features mentioned. As yet there is no fully established advance in values, however, and some of the trade think that in view of a number of vessels recently gone Eastward freight room will so

12.00 per M for 20-foot and under; \$13.00 for 32 to 24 foot; \$13.50 for 26, 28 and 30-foot; \$14.50 for 32 to 34-foot; \$15.50 for 36 to 38-foot, and 17.00 for 40 to 42-foot.

Piling is held at about former rates; and, as most advices are said to indicate that no very liberal shipments are probable, holders are inclined to display a little more firmness. Accumulations, as they stand, are fair, however, and buyers will not pay advanced rates, for the present at least. We quote by cargo running one-half 12-inch butt and upward 38 to 40 feet average, 434.05c. per lineal foot; running two-thirds 12-inch butt, 38 to 42 feet average, 534.05d. do.; running three-fourths 12-inch butt, 40 to 45 feet average, 534.06c. do.; running all 12 inch butt and upward, 40 to 45 feet average, 6c. do. Eastern Spars by cargo, 40-foot sticks, \$4.00 each; 45-foot, \$6.00 do.; 50-foot, \$8.00 do.; 55-foot, \$12.00 do. Inch spars 18.00 22c. per inch. Scaffolding Poles, 60c. each, and clothes poles, 45 to 65 feet long, \$3.00 each.

White Pine is gradually accumulating, as stock comes to hand under engagement, and yard assortments commence to look as if winter was coming. In a great many cases, however, the piles are lacking the usual full proportions, and it is doubtful if many additions will be made. There is certainly nothing very stimulating in present business and only scant faith in any early revival, though some operators have an idea that spring trade will pan out in pretty good form unless some very unexpected disturbing element arises. Box boards have found a pretty sharp call in some instances again, and remain as the one grade showing firmer values. We quote \$17.50.00 19.00 for West India shipping boards; \$20.029 for South American do.; \$14.50.016.00 for box boards; \$16.50.07.50 for extra do.

Yellow Pine is holding a pretty steady market for anything of standard quality and ordinary delivery, and while the working margin is in some cases rather narrow very few of the trade made much complaint. Business covers about all the ordinary

the stock becoming available finds a market.

Hardwoods are commented upon in about the former strain. There are some elements of dissatisfaction of a minor character, but generally the market is held in very good shape and desirable goods command steady rates. More or less cutting of values now and then takes place on poor and inferior stock, but that is nothing new and is pretty sure to always be the case, especially on hap-hazard consignments sent in here without a thought of what the market really requires and frequently under such conditions that receivers must push trade, and take the inevitable slaughter. All domestic woods have about their usual proportion of the demand and mahogany is getting a goodly

share as it is popular both in the country as well as upon the seaboard. We quote at wholesale rates by car loads as follows: Walnut, \$60@110 per M; White ash, \$36@42 do.; oak, \$36@42 do.; quarter sawed clear, \$46@50 do; maple, \$25@31 do.; chestnut, \$30@37 do.; cherry \$67@92 do.; white wood, \$25@33 do.: elm, \$20@23 do.; hickory, \$50@80 do.

Shingles show some irregularity, but on the whole the general range of values is not seriously disturbed, Demand includes some attention from exporters and the usual occasional home trade orders. Accumulations are increasing slightly against winter wants. We quote Cypress at \$8@9,50 per M for 6x20 and Cypress large \$10@16. Pine shipping stock, \$3.50@4.75 for 18 inch, and Eastern saw grades at \$3.25@5.00 for 16 inch, as to quality and to quantity. Eastern shaved cedar, \$4@4.75 per M; Machine dressed cedar shingles quoted as follows. For 30 inch, \$15.02 for A and \$23@28.50 for No. 1; for 24 inch \$13@15 for A and \$17.00@19.00 for No. 1; for 20 inch, \$8.75@9.50 for A and \$11.00@12.00 for No. 1

GENERAL LUMBER NOTES.

THE WEST. The Northwestern Lumberman as follows:

THE WEST.

The Northwestern Lumberman as follows:

Lumber has changed hands at prices hitherto prevailing, varied only by the tallies of the different cargoes, which sometimes cause slight departures in price from quotations. Short piece stuff is still quotable at \$10, with more inquiry for this class of lumber than for any other. There has been some looking for an advance, but none to speak of has as yet been realized. The only difference between present conditions and those a little earlier is in the undoubted firmness of the market at the present, with no prospect that prices will fall. There might be such a bunching of the fleet, with a preponderance of piece stuff on the market, at once, that a degree of weakness might be forced by the buyers. But now that the season has come when lake rates must be maintained at a higher level than prevailed in the summer, there is slight reason to expect a decline.

Long stuff, especially slim jims, are neglected. Occasionally a lot containing something desirable in the tally sells readily, but the majority of long dimension is of slow sale. But little has lately been in from Lake Huron, but a tow, mostly sold, is soon to arrive. Prices on long stuff remain at the low point lately mentioned, though the Manistee manufacturers are holding for prices much higher than the Lake Huron stuff is selling for. Evidently the Manistee operators intend to hang on to their product until the Huron men have sold out and then come in for the realization of their demands. Small timbers and short 2x12 and 3x12 and 3x14 are in good demand. Long wide joists are also good property to buy at present prices, and some dealers are quietly shaping up sizeable stocks of it in anticipation of a large requirement next spring.

Boards and strips have sold fairly well during the week, the market not having been overloaded with coarse lumber. One cargo of Baraga common sold at \$13.20 a thousand.

The Mississippi Valley Lumberman says:

The Mississippi Valley Lumberman says:

at \$13.20 a thousand.

The Mississippi Valley Lumberman says:

The decline in the output of lumber from the activity superinduced by reduced rates to the southwest is clearly shown in the table of receipts and shipments for the past week. There was a drop of more than a hundred cars. But despite this falling off more lumber was sent out than for the corresponding week last year. Despite this fact, and despite the further fact that the volume of consumption has kept steadily ahead of what it was last fall, there is a good deal of complaint of dullness. This is true, although so far as the out-of-town trade is concerned, more lumber has been sold this fall from Minneapolis than has been sold during thefall of any of the three years just preceding. But dealers are reaping the reward of forcing trade before it was ready to start. A great deal of lumber was undoubtedly sold in July and August at very low prices, and country yards were stocked up by dealers because the lumber could be had cheap. Consumption is now going on in many localities faster than the dealers are buying. The stocks in the country yard, where ample stocks were laid in either on low rates or low prices, are being reduced. Under these circumstances the jobbers and the manufacturers are not feeling the stimulus to trade which the general conditions would seem to warrant. But while the anxiety shown by many of the local dealers to sell lumber stocked up the country yards pretty heavily, prices for the whole season's trade were established. The conservative dealer who now wants to sell at the values which the situation seems to warrant are finding it difficult to do so because so much cheap lumber has already been sold.

The Timberman, in reviewing the Chicago yard trade, says:

The Timberman, in reviewing the Chicago yard

The trade is not waiting for this business to turn up of its own accord, but stimulants are being applied—principally by sending out traveling men in every direction to interview the retail dealers. Reports come in from these tourists in as many fantastic colors as was the cloth in Jacob's coat. Up to the beginning of this week evidence was not lacking that those representatives sent out to sell \$12 piece stuff, were sorely handicapped by price cutting. Not much shading of prices was going on to be sure, but just enough to be a disturbing element. A quiet conference of a dozen or more of the leading wholesalers was held to remedy this matter, and an agreement was made between these dealers that all price lists sent out in the next fifteen days should give the association list value to common lumber. This means that 2x1, 2x6, 2x8, and 2x10 piece stuff 12. 14 and 16 feet long, shall not be listed at less than \$12.50 per thousand, that common boards, 12 feet long, are worth \$12.50; other dimensions a proportionate price, and that first quality fencing, 16 feet long, is worth \$15.50, other grades in proportion. There has not been of late such determination displayed by the dealers in regard to procuring list prices. A strong feeling pervades throughout

all the wholesale dealers in pine, that lumber is good property at current values. Should the trade continue dull, as at present, it will be a difficult matter to maintain uniformity, or the present scale of prices; but if the demand increases, as all sanguinely expect, then all will be plain sailing.

Very few grades of lumber are absolutely scarce in the yards. Occasionally some difficulty is experienced in getting what is wanted, but persistent search will usually turn up the desired stock. Norway, for wagon bottoms, is a very scarce article, and is worth \$18 and \$19 per M. One dealer said that 5,000,000 feet of Norway could be placed among the wagon manufacturers of Wisconsin if it could only be found. Piece stuff, 3x12x26, is in small supply. Three hundred pieces changed hands between dealers at \$17. All lengths in 2x4 piece stuff are scarce. A majority of dealers are getting \$15.50 for 6-inch fencing, regardless of the action of the Yard Dealers' Association.

Lumber, of Chicago, has the following:

Lumber, of Chicago, has the following:

less of the action of the Yard Dealers' Association.

Lumber, of Chicago, has the following:

Sellers of pine lumber have been counting confidently upon the fall trade, but up to this time it must be confessed they have not done so wisely. The demand for lumber has not come up to the standard that was set for it, and, truth to say, there is a good deal of disappointment among the dealers in consequence. Trade for a month past has been reported a little slow but gaining, and expressions of satisfaction with it have usually been accompanied with the cheerful assurance that a few more days or weeks would surely bring the promised activity. They have passed, and the activity still floats, like a will-o'-the-wisp, in the dim and apparently inaccessible distance. The season is now so far advanced that there seems to be little chance that the demand for lumber will rise to any such proportions as most wholesalers have been looking forward to. it must be admitted, though doubtless many will be reluctant to do so, that too much dependence has been placed upon the effect of the excellent crop results in the country. They have not been as important in their immediate results to the purveyors of lumber as it was hoped and thought they would be. Comparatively but little money has been realized from the sale of stuff harvested, and as has been before pointed out, the credit of the farmers has been already pretty heavily taxed by the short crops of recent years. They have been obliged to pay to some extent out of their late receipts for purchases made months ago, and many of them prefer to wait for further returns before buying much more. It is hardly questionable that the agitation of the tariff question has led many consumers to put off buying what they need. With lumber on the free list, they think they will be able to buy a couple of dollars cheaper than they can now, which makes it a matter of economy for them to wait.

FOREIGN.

FOREIGN.

FOREIGN.

The London Timber Trades Journal says that:
In the case of yellow pine timber on the Clyde the diminishing state of stocks is very marked, and as a consequence a decided improvement in the prices is experienced, consumers every day more readily acquiescing in the inevitable demands. The fall importations, so far as we can learn, are likely to be lower than the average, and this fact, added to the higher freights, will largely tend to further improve prices as the season advances.

NAILS-The volume of business in the aggregate does not appear to either increase or recede, but maintains about the same general volume as for some time past. Efforts are occasionally making to secure a higher plane of value, but the conditions do not appear to be exactly favorable for such a change as yet. We quote at \$1.85@1.90 per keg for car lots and \$1.95@2.00 from store.

PAINTS, OILS, ETC.-A generally cheerful report is made upon the condition of the market and sellers still appear to be satisfied. The volume of trade still appear to be satisfied. The volume of trade might be increased without giving any great animation to the deal or creating difficulties in the way of meeting the outlet, but operators feel that they are getting custom fully in accord with other commodities and are inclined to rest satisfied. Offerings are ample for all present calls, and former rates generally accepted. Linseed Oil is higher and meeting with good sale at 53@55c. for Western, and 56@57c. for City. Spirits Turpentine has been in good demand and cost advanced, closing firmly at 43½@44½c. per gallon, according to size of invoice.

TAR AND PITCH .-- A fair general movement on trade orders and a steady market reported. Supplies not very full, but appear to go around. We quote Pitch at \$1.25@1.50 per bbl.; Tar at \$2.00@2.30, according to quantity, quality and delivery.

For tables of Building Material prices see pages viii., x., x. and xi.

SALES OF THE WEEK.

The following are the sales at the Real Estate Exchange and Auction Room for the week ending

*Indicates that the property described has been bid in for plaintiff's account:

CONVEYANCES

The regular semi-annual Index to the Conveyances and Projected Buildings published in this paper during the first half of the current year, is, as has been announced for several weeks, ready, and copies can be obtained at the office, 191 Broadway. The Index is printed on extra heavy paper, and, as usual, includes New York and Kings Counties, and is the most exhaustive ever published. The labor and expense connected with the work has become so formida-ble that a charge of fifty cents is made for this issue, as announced in these columns last January. Subscribers requiring copies should send in their orders at once.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed,

occur, preceded by the name of the grantee they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

MORTGAGES.

Note.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgager. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

CHATTELS.

For New York and Kings County Chattels see pages 1243, 1244 and 1245.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The "Nightingale" Wood Block Tiling GUARANTEED FOR A TERM OF YEARS

CONCRETE

Over 5,000,000 square feet laid. On ground, on fireproof, rough undressed boards and wooden joists
or other floors. In any style, rough enough for a
factory or artistic enough for a ball or drawing-room.
Prevents malaria. Each block firmly keyed to substructure by metal keys dove-tailed into under sides of
blocks, other extremities of keys embedded in dampproof composition, which prevents dry-rot. Each block
keyed independently of its neighbor to substructure.
Composition is forced into groves traversing sides of
blocks binding them to each other and foundation.
Adopted extensively for many years in places where
tiles, parquet, marble, etc., are often laid. Advantages
being its thorough solidity, immovability, noiselessness
and warmth.

and warmth.

ALLEN & CO. GENERAL IRON WORKS,

And also Sole Manufacturers of the Patented Metropolitan Iron Clothes Line Frame for Roofs. Allen & Co., Sole Manuf'rs Williams' Patents, 1885-6

The above Cut Represents the Best, Cheapest and

Only Fire-proof Frame in the Market.

We desire to call the attention of Architects, Builders and Owners to this Frame.

In construction it consists entirely of iron, whereby a light, strong, durable and fire-proof structure is obtained.

In construction it consists entirely of iron, whereby a light, strong, durable and fire-proof structure is obtained.

This Frame is approved by the insurance companies, and is strictly in compliance with the building laws. A protection to the roofs of buildings from fire-works. It was, from its imperishable nature, of great assistance to the tenants and firemen at the recent fire at the Morningside Flats, 128th St. and 9th Av.

It is now adopted by some of the first architects and builders, and its convenience is highly appreciated.

The lattice work is made in movable sections, whereby leaks in the roof can be easily repaired and the roofs kept clean, thereby preventing decay.

Estimates Furnished on Application.

All Orders Promptly Filled.

The attention of the Trade is hereby called to the above U. S. Letters Patent, 1885-6, and other patents applied for, protecting the said Clothes Line Frame.

All Persons are hereby cautioned against infringing upon said Letters Patent, as such infringement will expose all persons committing the same to liability of suit for damage, profits and injunctions, for the sole right to manufacture said Frames is vested u

IMPORTANT

To Architects, Builders, House Painters, Decorators, Boat-Builders and Yachtsmen desiring an EXTREMELY DURABLE Finish for Wood.

Are superior to any Varnishes or Wood Finishes in the market. for the following reasons, viz.:

They possess more body, higher lustre, greater resisting properties to atmospheric influences, action of water and alkali, are more elastic, will not scratch or mar white. and are more durable.

WORKS:

For all Classes

INSIDE WORK

Requiring great durability, use No. 2 ELAS-TICA FINISH.

For

OUTSIDE WORK Requiring extreme durability, use No. 1 ELASTICA FINISH.

Manufactured by

734-740 East 14th Street. 733-739 East 13th Street, 199-207 Avenue D.
