

For New York Conveyances, Projected Buildings and Advertisers.

NOS. 1347 TO 1372.

JANUARY—JUNE, INCLUSIVE.

1894.

The following semi-annual Index of the Conveyances and Projected Buildings in New York City, as published in THE RECORD AND GUIDE during the first half of 1894, will be found of great value to those of our subscribers who have preserved all the issues of this paper during that period. Care has been taken to keep the Index up to the same standard which has characterized it in the past. The pages are given on which all the transfers of realty published in Volume LIII. can be found, and the streets and avenues are so subdivided that few references are required. For instance, transfers of property on the Bowery appear in eleven issues during the six months. Bowery in the Index is subdivided into seven parts, so that the least possible trouble need be incurred, provided it is known between what streets the property is located. In this volume we have continued to arrange the transfers in such a manner that almost every street affected (below the Harlem.) can be seen at a glance by turning to the pages which the Index calls for. Take for instance page 12 and find thereon:

Central Park West } begins Central Park
92d st } West, w s, extends
93d st } from 92d st to 93d st.
201.5x175, vacant.

The above applies when a piece of property is on the corner of any street or avenue below the Harlem River and runs in depth upon both streets more than 100 feet, or when a plot has buildings fronting on both streets, and also when the property begins on one street and runs to another. Although many of our subscribers have used the Index for years, some of them do not fully understand the completeness of the work. We are frequently told of errors that our readers think they have dis-

covered, which, upon investigation, prove to be errors of the searcher—not of the Index. For instance, in the current number appears the following: 135th and 136th sts (23d and 24th Wards), e of Willow av, 15, the latter being the page on which a transfer on said streets may be found. Now, turning to page 15, the average searcher would fail to find the item referred to, because it does not appear in the alphabetical order of streets. A close search shows the item under the head of Willow av. e s, extends from 135th st to 136th st, 200x125.

The Index is, therefore, in some cases condemned for a supposed error which is really the strongest evidence of the thoroughness with which it has been compiled. Where such an omission should occasionally seem apparent to the subscriber, he should search the whole page, and he will then find the item which is referred to. The Projected Buildings are indexed in a similar manner, so that it can readily be ascertained on what streets improvements have been made. Those wishing to keep a file for permanent reference should see that all the numbers are complete and have them bound. Cost of binding, \$2.00 per volume. A suitable temporary binder, holding one volume, can be obtained at the office of THE RECORD AND GUIDE, 14 and 16 Vesey street; price, one dollar.

Annexed will be found a table showing the boundary lines, also the number of blocks contained in each of the thirteen Sections, and under which all property is now indexed in the Register's office by locality on new land maps of New York City, according to law, which went into effect Jan. 1, 1891. The tax maps are now being arranged in a corresponding manner.

CONVEYANCES.

NOTE.—The figures in parenthesis—for instance, page (849) under the head of Barclay street—denote that the transaction on the page given is Leasehold, an assignment of lease or a lease running for a long term of years. This explanation is made so that subscribers searching for transfers in fee can at once distinguish between the former and the latter without referring to the pages mentioned.

Banks and Trust Companies do not incur LOSSES in the ordinary course of business, and the law relating to such companies does not require any report of losses. Insurance companies are organized because of the possibilities of loss, and the law requires their losses to be reported.

It is an anomaly in insurance for an insurance company not to report its losses.

No insurer or stockholder of such a company can judge intelligently of its management and standing without this information.

It is more important in title insurance than in any other branch of insurance, because it indicates the character of the examination of title.

The more careful the examination, the fewer the losses.

This company reports its losses annually and publishes them. The total amount since it began business is \$3,144.

ANTINONNIN
offers a complete protection against
DRY ROT, FUNGI, MILDEW,
MOLD AND CRYPTOGRAMS,
and is available for both Wood-work and Masonry.
This new substance is a product of the FARBEN-
FABRIKEN vorm. FRIEDR. BAYER & CO., El-
berfeld, Germany. It has been thoroughly ex-
amined and tested by Professors V. MILLER and
HARZ, who have stated that

"ANTINONNIN IS A PEERLESS
PREVENTATIVE OF MILDEW."
The Chief Inspector of Buildings at Munich,
Herr STETTNER, and many architects and
builders, have endorsed this view.
ANTINONNIN is odorless, non-volatile, soluble in
water, and makes eligible mixtures with Lime
and other distemper applications.
ANTINONNIN penetrates wood and remains in it,
forming a perfect protection against fungi,
mildew, and continuous dampness.
ANTINONNIN is far superior to Tar Oils, Carbo-
lineum and similar preparations on account of
its freedom from odor, its ease of application,
its lasting properties, and its EXTRAORDI-
NARY POWER AS A DESTROYER of all
fungoid growths and all organisms which favor
dampness and mildew.

ANTINONNIN
is the best application now known for the
MASONRY and WOOD-WORK of CELLARS,
STORE-HOUSES, WINE-CLOSETS, LAUNDRIES,
STABLES, WATER-CLOSETS, all OUT-HOUSES,
and all structures exposed to the influences of
damp.
ANTINONNIN may be mixed with pure water,
lime water or whitewash, and applied with a
brush or sponge.
A FULL DESCRIPTION of this new substance
will be forwarded on application to

KING'S WINDSOR ASBESTOS CEMENT.

FOR PLASTERING WALLS AND CEILINGS.

Cheaper, more reliable, has more elasticity
combined with strength and more advantages without the
objectionable features than any other article in the world
used as a plastering material or substitute for such.

Before making your estimates or closing contracts send
to us for information and circulars.

OUR WINDSOR CEMENT

Is indorsed by the leading Architects and Contractors and
all the Unions in the United States.

J. B. KING & CO.,
21-24 State St., New York City.

DYCKERHOFF PORTLAND CEMENT

Is superior to any other Portland Cement made. It is very finely ground, always uniform and reliable, and of such extraordinary strength that it will permit the addition of 25 per cent more sand, etc., than any other well-known Portland Cement, and produce the most durable work. It is unalterable in volume and not liable to crack. The foundations of many of the most important buildings recently erected in this city were constructed of the Dyckerhoff Portland Cement, such as the Statue of Liberty, Equitable Life, New York Times, New York World, Puck, Judge, Metropolitan Opera House, Metropolitan Telephone, U. S. Army, U. S. Trust Co., Union Trust Co., Farmers' Loan and Trust Co., Washington Memorial Arch, Brooklyn Soldiers' and Sailors' Memorial Arch, Postal Telegraph Co., Grant Monument, Riverside Park, and others.

Laws Relating to Building
IN NEW YORK CITY.
By WILLIAM J. FRYER.

Handsomely bound and illustrated. Price \$2.00

THE RECORD AND GUIDE edition of the Building Laws, meaning all the laws relating to building in New York City, together with the regulations of the Building, Public Works and Fire Departments, published and now for sale at this office. It also contains the most complete directory of architects of New York, Brooklyn, Jersey City, Newark and Hoboken that has been published. The laws and regulations have been carefully and exhaustively indexed, so that no time need be lost in finding the requirements with respect to every and any detail of building. It makes a neat volume of 251 pages and will be the standard book of reference on the subjects embraced within its pages.

Appended quotations are based almost wholly
upon prices obtained for goods from first hands.
Yard rates necessarily range much higher owing to
the expenses attending sorting out and grading
cargo and even car lots, besides which must be
added the cost of handling and carrying until con-
sumers are ready to invest. Terms of sale also
prove important factors, and altogether it is impos-
sible to give a line of retail quotations thoroughly
reliable in character.
