JULY—DECEMBER, INCLUSIVE.

1895.

The following is the semi-annual Index of Volume LVI. of THE RECORD AND GUIDE, containing complete lists of the Conveyances and Buildings Projected in New York City during the last six months of 1895. With this issue of the Index the plan has been adopted of indexing all street and avenue frontages, thus simplifying the whole and rendering it more satisfactory for reference. In many instances there will be found streets, etc., indexed under pages which, on being examined, show at once that they are not in their proper order according to our customary

alphabetical and numerical arrangement. A further examination will disclose the fact that while the properties appear more prominently under other street descriptions, they nevertheless extend to the streets, etc., indicated by the Index and having a frontage on same have been included in the paging. Again, it occasionally occurs that one deed will describe property conveyed in fee and also property under lease. As each has been indexed with or without parenthesis as required by its description it will be found at times that a parcel is not in its proper alpha-

betical or numerical position and it will necessitate a somewhat more thorough search than usual to locate it. The Projected Buildings are indexed in a similar manner to the plan followed with the Conveyances so that it can readily be ascertained on what streets improvements have been made. Those wishing to keep a file for permanent reference should see that all the numbers are complete and have them bound. Cost of binding, \$2.00 per volume. A suitable temporary binder, holding one volume, can be obtained at the office, 14 and 16 Vesey street; price, one dollar.

CONVEYANCES.

NOTE.—The figures in parenthesis—for instance, page (897) under the head of Allen street, from Broome to Delancey street—denote that the transaction on the page given is Leasehold, an assignment of lease or a lease running for a long term of years. This explanation is made so that subscribers searching for transfers in fee can at once distinguish between the former and the latter without referring to the pages mentioned.

Its method of examination is the safest, as the amount of its losses indicates.

Its method of insurance is the strongest, because it is based on the safest examination and the most careful supervision.

Its information is the fullest, because it furnishes abstracts in addition to an opinion and a policy.

Its policies are universally accepted by individuals, trustees and corporations.

It has complete locality and nominal plants of the Counties of New York, Kings and Westchester.
